Today is Thursday, 1 : 2 September 5, 2024, and this is a transcribed interview of 3 House Resolution 1367 directed this Task 4 Force to investigate the facts and circumstances of 5 the attempted assassination of Donald Trump on 6 7 July 13, 2024 in Butler, Pennsylvania. Pursuant to House Resolution 1367, 8 Chairman Kelly and Ranking Member Crow have 9 10 requested this interview as part of the Task Force 11 investigation. 12 BY 13 Can the witness please state their name and spell their last name for the record. 14 15 Α. Sure. My name is 16 17 0. Thank you, My name is I'm a senior counsel with the Task 18 19 Force Majority Staff. 20 I want to thank you for coming in here 21 today for this interview. The Task Force 22 recognizes and appreciates that you came here 23 voluntarily. 24 You're allowed to have an attorney 25 present to advise you during this interview.

you have an attorney representing you in a personal 1 2 capacity present with you today? 3 Α. No. 4 Ο. Thank you. 5 Is there also an attorney representing 6 your employer, Butler County? 7 We have a solicitor, but she's not here, Α. obviously. 8 9 Q. Thank you. 10 Next, starting with the 11 Majority and the Minority, can the additional staff 12 members please introduce themselves with their 13 name, title and affiliation. 14 15 Senior Counsel, Task Force Majority Staff. 16 , Senior Counsel, 17 Majority Task Force Staff. 18 , Deputy Staff 19 Director for the Majority. 20 21 Staff Director for the Minority. 22 Investigative Counsel, Minority. 23 24 Good morning, 25 , Investigative

Counsel, Minority.

2 : Thank you, all.

BY :

- Q. _____, before we begin, I'd like to go over just a couple ground rules for this interview.
 - A. Okay.
- Q. The way this interview will proceed is as follows:

The Majority and Minority Staff will alternate asking you questions, 30 minutes per side per round, until each side is finished with their questioning.

The Majority Staff will begin and proceed for 30 minutes, and then the Minority Staff will have 30 minutes to ask questions. We will then alternate back and forth in this manner until both sides have no more questions.

If either side is in the middle of a specific line of questions, they may choose to end a few minutes past an hour to ensure completion of that specific line of questioning, including any pertinent followups.

In this interview, while one member of the staff for each side may lead the questioning,

additional staff may ask questions.

There's a court reporter taking down everything you say and everything I say to make a written record of the interview. For the record to be clear, please wait until the staffer questioning you has finished each question before you begin your answer, and the staffer will wait until you finish your response before proceeding to the next question.

Further, to ensure the court reporter can properly record this interview, please speak clearly, concisely and slowly.

Also, the court reporter cannot record nonverbal answers, such as nodding or shaking your head. So it's important that you answer each question with an audible, verbal answer.

Do you understand?

- A. Yes.
- Q. We want you to answer our questions in the most complete and truthful manner possible, so we will take our time.

If you have any questions or you do not fully understand the question, please let us know. We will attempt to clarify, add context to, or rephrase our questions.

Do you understand?

A. Yes.

2.0

Q. If we ask about specific conversations or events in the past and you are unable to recall the exact words or details, you should testify to the substance of those conversations or events to the best of your recollection.

If you recall only part of the conversation or event, you should give us your best recollection of those events or parts of the conversations that you do recall.

Do you understand?

- A. Yes.
- Q. Although you are here voluntarily and we will not swear you in, you're required pursuant to 18 U.S. Code § 1001 to answer questions from Congress truthfully. This also applies to questions posed by congressional staff in an interview.

Do you understand?

- A. Yes.
- Q. If at any time you knowingly make false statements, you can be subject to criminal prosecution.

Do you understand?

A. Yes.

- Q. Is there any reason you are unable to provide truthful testimony in today's interview?
 - A. No.
- Q. Please note that if you wish to assert privilege over any statement today, that assertion must apply with the rules of the House of Representatives.

For the Chair to consider assertions of privilege over testimony or statements, witnesses or entities must clearly state the specific privilege being asserted and the reason for the assertion on or before the scheduled day of testimony or appearing.

Do you understand?

- A. Yes.
- Q. Finally, I'd like to note that the content of what we discuss today is confidential. We ask that you not speak about what we discuss here today in this interview to any outside individual in order to preserve the integrity of this investigation.

For those same reasons, the marked exhibits used today will be provided to the court reporter so that they may go on the official

transcript, and any copies of those exhibits will be returned to us when we wrap up.

We plan to take a break at the end of each 30 minutes of questioning, but if you need a longer break or a break before that, please let us know and we are happy to accommodate.

However, to the extent that there's a pending question, we would ask that you finish answering the questioning before we take a break.

Do you understand?

- A. Yes.
- Q. Do you have any questions before we begin?
- A. No.

Q. It is now the time the Majority Staff will begin its questioning:

matter, can you walk us through your job title and your responsibilities for your job?

A. Yes. So my job title is Director of
Emergency Services for the County of Butler. My
primary job responsibilities are 911 within the
County of Butler.

I do all the dispatching for all the fire, police and EMS agencies, with the exclusion of Pennsylvania State Police. We handle all of the

911 calls within the borders of Butler County.

And my second side of my job is emergency management. So we work with the local municipalities to plan for events or respond to events that may occur within their borders.

We act as a resource for them and as a liaison between them and the Pennsylvania Emergency Management Agency and the federal Emergency Management Agency.

- Q. Can you talk a little bit about the exclusion of the Pennsylvania State Police for handling job responsibilities?
- A. Pennsylvania State Police has their own dispatch. So calls that come in that are in municipalities that do not have a municipal police department are transferred to the state police because they have to have some police coverage. So the Pennsylvania State Police take over those areas.

It's probably around 60 percent.

Butler County is rural enough that they don't have their own municipal police department.

O. Okay.

A. So calls that come in for service in those areas are transferred to their dispatch center at

the local barracks.

- Q. And how long have you worked there?
- A. I've been at the county for 12 1/2 years.
- Q. So for the July 13th event -- I think we're going to call it the July 13th event, generally.
 - A. Sure.
- Q. When did you first become aware that that event was taking place?
- A. So one of my Staff members, one of my deputies got a phone call from the Secret Service on -- it would have been July 5th, Friday, July 5th, asking for us to attend a meeting on Monday, July 8th at Allegheny County's emergency operation center, Allegheny County 911.

So myself and four of my staff members, who are all part of our EMA staff, attended a meeting down there, a 1:00 meeting down there, where the Secret Service basically introduced themselves, kind of gave a timeline of events that were going to occur on the 13th, a rough timeline of events, and then some contact information for the individual agents and some of their areas of responsibility.

At the conclusion of that very short presentation, they broke out into different

subsections. So because my responsibilities are not police related -- we're more life safety and emergency management -- we kind of broke off into that group with the EMS folks and the emergency management folks.

So that was again just kind of a meet and greet. There was really not much substance to that meeting. "Here's some basic guidelines of what we'd like you to have available as far as resources." Like a HAZMAT team, a decon area, things like that.

- Q. Okay. And that meeting, initial meeting, with Secret Service and a meeting where you all branched off into the EMS-specific type group, that was probably like a week before the event?
 - A. That was the Monday before the event.
 - Q. Monday?

- A. It was the 8th of July.
- Q. And then before that, that first contact you had gotten about hey, you know, you're talking with your team, when did that phone call happen?
- A. The first phone call to meet the Secret Service was July 5th.
 - Q. Okay.
 - A. And that was just a phone call saying be at

this meeting on Monday, July 8th. That was it.

Q. Okay. So, you know, in the course of that meeting, you have a brief presentation with the Secret Service and you've broken off into your small groups.

Are any folks from the Secret Service in those small group meetings?

A. Yes. The individual for life safety, was not there. He was on an additional detail.

However, one of the other agents kind of met with us basically to tell us that he wasn't there and he'd have more information when we met with him. So...

- Q. And that life safety individual from the Secret Service, was that their title as described to you?
- A. That's what they -- she told us that he was the agent in charge of the life safety stuff. And that was more like HAZMAT and, you know, how many fire trucks they wanted there and things like that. So...
- Q. Had your team been part of working a type of event like this before where there would be a presidential rally in your area that you'd be working?

A. Yes. 2020. October of 2020.

Then-President Trump came to Butler County.

Q. At that meeting on July 8th where you're meeting with the Secret Service and then you're in small groups, was there any discussion at the time, if you recall, about where you'd be located for the event, day of?

Like what your assignments would be? Like what you'd be handling?

A. No. They didn't even have a layout of where the stage was going to be or any of the -- you know, how the grounds were going to be set up. We had no idea.

So they didn't know that information at that time. At least they didn't share it with us.

- Q. So walking away from the July 8th meeting, what did you think that your responsibilities were going to be for the rally?
- A. That we were going to have to gather enough resources from the local fire department and EMS agencies to cover the expected attendees, make sure that our county HAZMAT team was available, and obviously we had fire resources available if they required for decontamination.
 - Q. So after July 8th, you did not know like

where you'd be physically stationed at the event?

A. No.

- Q. Can you walk us through like when you learned where you'd be stationed at the July 13th event?
- A. So I probably didn't know for myself in particular where I'd be until probably the Thursday before the event.

But as far as like where the stage was set up, we probably learned that the Tuesday after that meeting. So it would have been what? 9th?

There was a subsequent walkthrough on the site, on the grounds with some of the police staff, and two of my staff members attended. I was unable to attend because I had a previous commitment.

But then after that, we met at the Pennsylvania State Police barracks for around an hour or so, and the Secret Service at that time had more of an idea of how the stage was going to be laid out and how the grounds were going to be laid out.

So while there were law enforcement representatives there from the Pennsylvania State Police, we did not -- we discussed where our stuff

was going, like where we wanted to set up for, you know, treatment of anybody who may be there or where our command post was going to be set up, where, you know -- that's really what we discussed.

Those are the things that we had, our responsibility. So...

- Q. Can you just repeat what equipment and what facilities that you guys were going to be responsible for setting up?
- A. So we were responsible, obviously, for life safety and fire safety. So we wanted to make sure that we had adequate resources there.

At that meeting, one of the Secret

Service agents -- and I can't speak to which

one -- made the comment that an event that occurred

in the very recent past in Norfolk, Virginia with

the heat had over 200 heat-related illnesses.

So right away, we knew that our local healthcare system would not be able to handle 200 people being transported to their facility. So we wanted to try to come up with a plan that would keep patients from going to the hospital and perhaps we could treat them on scene.

So that's what we were looking at after that. After that meeting we started talking about

that, and that's part of our job role.

2.0

So, you know, we set up a portable hospital onsite. We had a portable cooling center. And we used resources from the Pennsylvania Department of Health that they have available for that.

So we also set up -- we had eight command posts: our county command posts that has all of our equipment in it, our radio systems, a dispatch console, computers. Really, everything you need to have it be a mobile 911 center in a nutshell. Internet, dedicated Internet, things like that. So we had that there.

We also had -- the county has a UTV vehicle, like a four-wheel drive vehicle, that we could transport patients on. So we had that there.

- Q. Okay. And on the day of the event,

 July 13th, you were not in the local trailer;

 right?
- A. No, I was not. I was in the Secret Service security room.
- Q. And when did you learn that you'd be assigned to be in the security room?
- A. Probably the Thursday. It really wasn't an assignment. It was asked by the Secret Service for

one person from the county to be in there, and by default, I was there.

- Q. Who from the county asked you to be in the command post?
- A. Nobody asked me from the county. I'm the ultimate in charge of the county emergency services' side of it for my staff.

So my staff were all tied up in other duties. I had one guy that's a communications guy that was working with the ESU. I had one guy who was a HAZMAT guy. He was working with the HAZMAT team. I had one guy who was an EMS guy. He was working with the EMS guy. And I had a planner, and she was kind of coordinating recordkeeping.

So I was the only one that didn't have a specific job role defined. So I took it upon myself to be the liaison in the Secret Service security room.

I had done it in the past. I had done it in 2020, so...

- Q. So as a liaison in the Secret Service command post, what did you understand that to mean in terms of your responsibilities for the event?
- A. So it wasn't very clear what our responsibilities were, but I knew from in the past

it was completely different from when we were there in 2020 because they had elements of law enforcement, fire, and EMS in there at that time. This time they didn't ask for any of that. They didn't make it clear they wanted anybody in there. They just wanted one person.

So my understanding was that I would act as a liaison between them and whatever county assets that they needed to talk to. So...

- Q. And by county assets, are you referring to emergency medical services' assets?
- A. Correct. And that's primarily what my role was. You know, obviously with that day, it was very hot. People started lining up before -- I got there probably at 8:30 a.m. and people were already lined up where I couldn't see the end of the line. And it was already extremely warm that day.

So even before the gates open, we started getting medical calls, and, you know, we started handling those medical calls.

So when I was in the Secret Service security room, that's really all I did. They would have somebody go down at the MAGs or in one of the lines. Somebody would approach one of their agents or one of their staff and they'd relay it to the

Secret Service command post, and then he'd verbally 1 2 say, "Hey, we have somebody down at the MAGs," and I'd dispatch a medical team to that area. 3 4 Ο. Okay. So you'd receive your instruction in 5 the command post to field emergency services' 6 requests on July 13th? 7 Α. Yes. Who was your primary point of contact in 8 0. 9 the Secret Service command post for --10 There was a guy named in there. Α. 11 That's all I know. I don't know his last name. Ι 12 couldn't tell you. So let's back up a little bit to getting 13 into the command post, like in setting up for the 14 15 event. 16 Did you have any role in site construction, setting up a stage? 17 18 Α. No. 19 Just mainly in setting up local emergency 20 services --21 Α. Correct. 22 -- equipment and services throughout the Q. 23 event? Correct. Coordinate those resources; 24 Α. 25 correct.

Q. Did you receive any, like, maps, aerial diagrams, or any type of documents from Secret Service leading up to the July 13th event?

2.0

A. I don't believe I did. One of my staff may have and forwarded it on. There were some maps that we made ourselves. Some of them have been released that showed some locations with some of the assets, but those were made by my communications GIS guy, not by the Secret Service.

I don't recall any maps from the Secret Service being communicated to me.

- Q. How many people were in the Secret Service command post room on the day of the event?
- A. So it varied. Dedicated, there were five that I remember. So two of those were people that actually were in charge of maintenance on the grounds, one was state police, and there were two Secret Service. One was a drone, an anti-drone guy, and one was the radio communications guy.

But various times people came in and out. They were not in there the entire time.

- Q. Can you walk us through the different radio connections that you had access to in the Secret Service command post?
 - A. So I had only -- go ahead. Sorry. Finish

your question.

- Q. For instance, I know that you were fielding a lot of emergency services related to dispatch, but do you recall, like, what frequency or channels that you were working with to receive that information?
 - A. So let's kind of go through from the top.

So the Secret Service has their own radio system; the Pennsylvania State Police have their own radio system. They do not talk to each other and they don't talk to my system.

So our system is a county-wide system that we run all fire, all municipal police departments, and EMG agencies on. So I was working primarily on that.

Primarily for me, most of my traffic would be on the EMS frequency. We have an EMS talk group that we use.

So we have different talk groups for each individual modality. We have police talk groups, we have fire talk groups, and we have EMS talk groups.

So we were primarily on the EMS talk group.

Q. Okay. And being at the event, were you

receiving any radiofrequency traffic from any of those other channels that you mentioned?

- A. So my radio has a capability of receiving traffic from all of those. I did not hear much traffic on the police side, but I was more focused on the EMS side of things.
 - O. Okay.

A. So you have to understand: A portable radio, when it's scanning, it only scans whatever talk groups that you put in it to scan. Right?

So it doesn't scan everything in the system. It would be too much. And even if it would, you'd miss transmissions because if there's a transmission on the EMS side that's going on and then somebody keys up on the police side, you wouldn't hear that because it's focusing on the EMS side. So...

- O. Okay.
- A. That's why dispatch console is important. Dispatch consoles listen to pretty much everything on different speakers.
- Q. Prior to the event and getting radio setup, do you recall any meetings or walkthroughs where you're talking with Secret Service about radio communications and what you're going to be on

versus what they're going to be using?

- A. No. They didn't care what we were on.

 They had no interest in knowing about our system.

 So...
- Q. If you needed to get medical information to Secret Service, how would you do that?

Can you walk through receiving that information and then getting into Secret Service the day of the event?

- A. Medical information as far as dispatching?

 So when they had somebody go down, they communicated to their command post, and he verbally said, "Hey, we have somebody down at the MAGs."

 That was the communications. And then I would appropriately dispatch it on our radio system because our folks were all on radio.
- Q. So going back to July 9th, you had a meeting, you know. You're at the police barracks.
- A. Yeah. We kind of inserted ourselves in that meeting, yes.
 - Q. Okay. And what do you mean by inserting?
- A. So we weren't really asked to come over there. We kind of inserted ourselves in there so we could try to get -- you have to understand we had a short timeframe, and we were trying to get

information as to where we could set up our assets.

So we kind of -- that meeting, I believe, was supposed to be just more talking about the Pennsylvania State Police and Secret Service and where the police assets were going to be, but we kind of inserted ourselves in there to try to get a site plan developed. You know, just try to see where things were going to be so we could try start the plan and strategize where we needed to put our stuff.

- Q. And was a plan solidified on July 9th?
- A. No. It probably wasn't completely solidified until the Thursday walkthrough. That was Thursday morning.

Thursday before the event is where we kind of, from my side of things, where we really solidified where all of our equipment was going to be because we had to work with the campaign to make sure that the area we wanted to set up the field hospital in was not going to infringe on areas that they had communicated or had previously committed to something else.

Q. And, you know, you all are discussing locating the field hospital. Were you in any conversations about the placement of the local

trailer command post that would have local police entities there?

2.0

A. Yeah. We were all part of that. It was really more of a "Where can we set this up so that it's out of the way?" and where we can -- there's a building that they were using called the Brady Paul building that's on the grounds, which is an F.O.P. Lodge.

So they had that open for bathrooms, and that's where we actually had food. So we wanted to be kind of close to that, somewhere out of the way and out of the sight line.

It was very important to be out of the sight line of the press. So we were kind of tucked back in the corner there.

So, yeah, we were all part of that. It wasn't just my decision. It was everybody who kind of said, "Hey, this is a pretty good place to put it."

- Q. Who all was part of that discussion of like where to put the local trailer?
- A. So it would have been myself and my staff.

 I don't believe anybody else was involved in that.

 The Secret Service didn't care, as long as it was out of the sight line.

We had asked, "Is there anywhere that we can set this up where you want it?" And we offered for them to be in it because it's set up for communications, and they didn't have -- as long as out of the sight line they didn't care.

So we just picked an area that was out of the way that was close enough to the building where it wasn't going to impact anything.

- Q. So you offered a place for a Secret Service representative to be in the local trailer command post; correct?
 - A. Yeah. We always do.

2.0

- Q. Do you recall who you made that offer to?
- A. I couldn't recall. It was really more in a group. You know, "Hey, we're going to have our command post there if you guys want to come in."

 And, "No. We have our own." So, "Okay."
- Q. And do you recall, you know, just before the event when that might have happened?

Was it at the July 9th meeting? Was that one of these walkthroughs?

- A. It might have been at the 9th meeting. I'm not 100 percent sure. I'm not sure.
- Q. What is your opinion on having, you know, a local command post trailer without Secret Service

in there?

2.0

Did that affect you doing your job on July 13th?

A. I think that ultimately you want everybody in the same room, but from what my understanding was if they would have offered everybody to be in the same room, then we probably wouldn't have needed our command post, other than to use it as a cooling area, not as a communication area, because you have to understand: On the grounds that day, there were very limited air-conditioned resources. There were only a couple buildings that had air conditioning and they were committed.

So we might have used it just for that instead of actually as a command post for some of the entities that were not invited to the Secret Service security room, but, unfortunately, you know, they weren't invited, to my knowledge, to that Secret Service security room.

- Q. Just going up to the event, the local command post trailer, do you recall when that was set up like in terms of structure?
 - A. It was set up the Friday before.
 - Q. The Friday before?
 - A. Mm-hmm.

- Q. Going through, you know, the site construction and walkthroughs, can you, like from July 9th on, go through the number of walkthroughs that you had leading up to July 13th on that day?
- A. I only attended one, and that was the Thursday before. I know that two of my staff members were at that one on Tuesday, but I did not attend that one, as I said.

But then we had a walkthrough on

Thursday morning where we met with, again,

subgroups. So we actually met with from the

Secret Service -- he was the life safety guy -- and

local fire assets, local EMS assets, and then the

local emergency management coordinator was there

also. So the police had their own sub-meeting.

- Q. And were you involved in any meetings, walkthroughs with local police?
 - A. No, I was not.

Q. If local police needed to get in contact with your role on J-13, like how would they reach you?

Like being in the command post for

Secret Service, if the Secret Service fielded a

request for attention, you dispatched from there.

But if local police needed to reach you, how would

they reach you?

2.0

A. So there's probably multiple avenues.

Obviously, cell. They all have my -- you know, the commander of the issue has my cellphone number.

There's also -- he could use the radio, the same radio. My radio and his radio have the same frequencies.

So he could call specifically on that radio directly to me if he would need to in that case. As long as I wasn't dispatching an EMS call, then that would have worked. But if I was dispatching an EMS call, I wouldn't hear him because my radio can only do one thing at a time.

So that's why we use our command post that has a dispatch console; so you can do multiples.

- Q. Okay. And did the Secret Service command post have a dispatch console similar to local command posts?
- A. I don't know. They had some radio system that I didn't recognize. It was their own. It almost looked like a mobile radio thing. So...
- Q. In any of the meetings that you were in leading up to July 13th, was there any policy or guidance that Secret Service gave to individuals

about radio communications of the event? 1 2 Α. No. How important are radio communications as 3 Ο. 4 part of your job? 5 Α. They're very essential. That's where we get information from one area to another without 6 7 having to use a runner. And that was absent for the July 13th 8 0. 9 event? 10 Α. Clarify "absent." It was not -- with all the parties that 11 Q. 12 were involved from local, to state, to the Secret 13 Service, there wasn't a clear, concise message that 14 was coming from Secret Service about a radio 15 communications policy? 16 Correct, yes. I would say. It's very Α. 17 essential to and optimal to all be on the same Right? Because if you have disparate 18 systems. 19 systems, you have issues like occurred. 2.0 So you're in the command post on July 13th Q. 21 in the morning. When did you report to the Butler 22 County Fairgrounds? 23 The Farm Show grounds. A little different.

scene on the grounds, and that was to help set up

8:30-ish.

Probably 8:30-ish I got on

24

25

the command post.

- Q. And do you recall when you reported to the Secret Service command post?
- A. So I actually didn't report to the Secret Service security room until closer to probably 11:30 or 12:00.
- Q. Okay. And what was the setup, from your side, in getting all of your equipment and getting your radio information into the Secret Service command post?
- A. So my radio -- it was really nothing to get into the Secret Service security room. I had a portable radio, which looks like a large cellphone, I guess, with an antenna on it.

So I had that with me and a backpack with some snacks and waters and things like that and went into the office, which was their security room, and there were square- shaped -- like conference tables set up as a square shape -- and there were people in various areas, and I just picked an area that nobody was sitting at and sat down.

- Q. Did you have a laptop with you?
- A. I had my work laptop, but I didn't really need it for anything. Actually, no. I had an

- I didn't even have a laptop. I had an iPad. 1 iPad. 2 So what were the total number of like Q. devices, equipment that you were using to relay 3 4 information? 5 Α. Just one. Just a radio. Just a radio? 6 0. 7 Α. Mm-hmm. All of your responsibilities for July 13th 8 0. 9 would be coming through your radio? 10 Α. Yeah. Now, I had some text messages with 11 my staff, but that was not -- I mean, that was just 12 my communications with them that didn't need to be 13 on the radio. So... 14 Did you have any communications with local 15 police reaching out? 16 No. No. No. Α. 17 Okay. Did you have any, like, Ο. communications with the state police? 18 19 Well, there was a state police sergeant 2.0 that was in the same room. 21 So, yes, we introduced ourselves to each 22 other and talked to each other.
 - Q. And was the state police relaying any information to you about communications or services that were required?

23

24

25

A. Sometimes. I believe maybe one time their troopers found somebody who had a medical issue and he relayed that to me.

Q. Okay.

- A. But not generally. Not generally.
- Q. That would be it, okay.

So how many total people would you say were in that room?

I know we recapped at the beginning, but can you just go through the number and affiliation of those individuals?

A. So there were six dedicated, and then there were various in and out throughout the day.

It was a -- and again, not typical -- but it became an area of refuge for people that were out in the heat, or needed a bathroom, or needed to grab a bottle of water, because there was a small kitchen there.

But there were six dedicated: two

Secret Service -- one was a communications guy, one
was the drone guy -- one state police officer,

myself, and then two maintenance guys for the
grounds that were there, and they were there to,
more or less, open gates if things needed opened or
buildings if somebody needed them opened.

And as far as the folks that were coming in 1 Ο. 2 and out of the Secret Service command post, you know, were those only Secret Service officials? 3 4 I believe there were some state police 5 individuals, too, that were coming in and out. 6 They had some plainclothes people that were there. 7 Can you describe just, like, the security 0. 8 of getting into the command post? 9 There was none. You just walked in. 10 Was there anyone stationed outside that Ο. 11 would be screening people to enter there? 12 Α. No. 13 For the local command post, was there anyone stationed outside the local command post? 14 15 So the local command post was in a secure Α. So the only individuals that had access to 16 17 it were already allowed in that area. So there wasn't anybody dedicated outside. 18 19 However, there was a sheriff's deputy 20 inside, as well as police. 21 We're at time for the Majority's first 30 0. minutes. 22 23 Α. Okay. 24 Q. Thank you. We can go off the record. 25

```
(Off the record.)

      ΒY
3
               Good morning,
                                              Again, my
4
      name is
                         , Investigative Counsel for
5
      the Minority.
                  I just wanted to return to a couple of
6
7
      topics that my colleague asked about just to make
      sure I'm following it correctly.
8
                  I believe you said the first time you
9
10
      heard about the potential event was -- was it
11
      July 5th?
12
         Α.
               Correct.
               You said your deputy got a call?
13
          0.
14
               Yes.
         Α.
15
               What's the name of that deputy?
         Q.
16
         Α.
17
               And how did
          Ο.
                                    relay that
      information to you?
18
19
          Α.
               Phone call.
               Phone call?
20
          Q.
21
               I was off work that day, so him and one of
                                    , called.
22
      my other staff members,
              And what do you recall about the substance
23
          Ο.
24
      of that?
25
               It was just very general. Like, "Hey, I
          Α.
```

just wanted to let you know that Trump's coming to town and there's going to be a meeting on Monday."

"Okay." So...

- Q. At that time did you know the location for the potential rally?
 - A. No.

- Q. And then it was a few days later -- I believe you said around July 8th -- that things started to come together and you understood where the rally would be?
- A. Yeah. Let me back up. I did know only because on social media there was something about it.

I found out that the potential for

President Trump to come on social media before, the

Wednesday before. I think we all kind of shared a

text message that said, "Hey, it looks like he's

coming to Butler."

But we had no official notification, no. Officially, Monday was the official "This is where he's coming to."

- Q. Got it. And then that first meeting, I believe you said, was July 8th?
- A. Correct.
- Q. And that was Secret Service, Butler EMS?

- Butler EMA, Butler ESU, local Butler 1 Α. 2 Township Police Department, the sheriff's office, local EMS. 3 4 Ο. And I believe you said you didn't receive 5 any layout or --6 Α. No. 7 -- anything, but you knew the general site? Ο. We're very familiar with the site. 8 9 I mean, it's in the county. You know, it's a Farm 10 Show grounds. So... 11 And had you worked events there previously? Q. 12 Α. Personally, not professionally. Did you have any reaction to sort of that 13 site selection? 14 15 It wouldn't be optimal of a site. Α. No. know, the best site that we have within the county 16 17 is probably the airport. He had come there in the 18 But, you know, we work with what we have. past. 19 So... 20 Q. And why wasn't it optimal? 21 Well, it's just a different layout. Α. 22 not as controlled as an airport environment. So...
 - open, but you can control because, you know, they

It's more -- well, airports are pretty

Meaning that it's more open?

23

24

25

Ο.

Α.

have really high fences and, you know, there's a 1 2 lot of security. 3 It's just easier to control. 4 only one in and out egress, and this there's 5 multiple. And you mentioned that President Trump had 6 7 been here in 2020, I believe? Correct. October of 2020. 8 And was that at the --9 0. 10 Α. Airport. 11 -- airport? Q. 12 Α. Mm-hmm. 13 Understood. Ο. 14 So we already had a plan. That was another Α. 15 thing that would make it a more optimal site. 16 There was a plan that was, you know, successfully So... 17 implemented there. So there was sort of already a game plan --18 Ο. 19 Α. Sure. -- if that had been chosen before? 20 Q. 21 Mm-hmm. Α. 22 Do you have any understanding of who chose

Did you raise any concerns about moving it

the site to the rally?

No.

Α.

Q.

No idea.

23

24

25

around or anything? 1 2 Α. That's not my lane. No. Understood. And then I believe it was 3 Ο. 4 on -- what day was that walkthrough that you said 5 you did? The first one. 6 Α. 7 The first walkthrough. Ο. That I did not attend? 8 Α. That you did not attend. 9 0. 10 That was Tuesday, the 9th. Α. 11 And who did attend from Butler EMS? Q. 12 Α. Two of my staff members: and 13 attended that. 14 Was that, to your understanding, Ο. 15 appreciating you weren't there, that were 16 substantive about the --17 I don't have any clue. They didn't talk So I have no idea what the content 18 much about it. 19 of that meeting really was. 2.0 So I imagine it wasn't very substantial 21 since they didn't relay anything. My staff didn't 22 relay anything to me. But immediately after that 23 meeting, we went over to the state police barracks.

they were leaving. So I just turned around and

I actually arrived on the grounds as

24

25

went straight to the state police barracks.

- Q. Meaning as US Secret Service was leaving?
- A. Yeah. As Secret Service state police were leaving.
- Q. So that meeting at the Pennsylvania State Police barracks was you and your staff, not with any other agencies?
 - A. Pennsylvania State Police was there.
 - Q. Oh, they were there?
- A. The two lieutenants from the Pennsylvania State Police were there.
- Q. And what was discussed at that meeting?

 I think you said a better idea of the layout?
- A. Yeah. We really just -- like I said, we inserted ourselves to get more understanding of how it was going to be laid out because, you know, previous to that, they had no idea even where the stage was going to go. So we didn't have any clue on where we could set up our staff.

It's a fairly large area. You can set up things multiple ways. So we just wanted to get more of an understanding on how it was going to be laid out so we could start to plan on where we needed to place our assets. So...

Q. And what were those assets?

2.0

I believe you mentioned the portable hospital, the mobile 911 --

A. That meeting we did not have the portable hospital as a -- we knew we needed to have an EMS area, but we did not really have the portable hospital as a thought. We just knew we needed an area for treatment of people. We didn't know how big we needed it at that time.

We knew we needed a fire truck. We knew we needed a HAZMAT team. We knew we needed -- that's what we knew we needed.

- Q. Okay. And at that point did you start to think about needing the mobile trailer?
 - A. Which trailer? The command post?
- Q. The command post.
- A. Yeah. We actually probably said that around that time that we'd have it available and use it for something.

Again, knowing the site and knowing that there's not a lot of air condition resources there, at the very least, we could use it as a rest and respite center.

Q. And when did you start to think about using it as more than an air conditioned site?

A. Whenever we had really communications with some of the assets that they didn't have any place to go.

So they didn't have an area to work out of, and that they were potentially thinking about working out of the Brady Paul building, which is not optimal because it doesn't have Internet. It doesn't have radios. It doesn't have dedicated areas for emergency communications.

- Q. And, more specifically, when you refer to assets, who are you talking about that raised these concerns?
 - A. Police and fire.

EMS was really different because we knew that they would be in the EMS treatment area. So they didn't need a unique spot for their command staff.

- Q. At any point was there a suggestion or discussion around those assets using the Secret Service command post?
- A. Hmm-mm. Not to the my knowledge. I mean, nobody approached me about it.
- Q. Did anybody -- did you ever request from Secret Service that you can use their site?
 - A. No. They asked for one person to be in.

That was it.

- Q. They asked one person to be in their --
- A. In their security room. They didn't specify who. They just said one person in the security room.
 - Q. And you said one person from the county?
 - A. Correct.
- Q. Did you understand that to mean one person from Butler County EMS specifically or just one person from the county?
- A. Just one person from the county. It was very generic. It was not a specific modality request. It wasn't like they said, "We want somebody from the ESU team. We want somebody..."

No, they did not do that. They just said one person from the county.

The ESU team command staff, they have multiple people that they use, and they need to have some of the access to the things we have in the command post, our command post, because it's set up for them. So...

- Q. And, more specifically, what were those things?
- A. So access to a dispatch console, which we did not have in the security room. Access to

multiple radios so they can listen.

As I said, when you listen to a portable radio or even a mobile radio, you only get what's being transmitted on one talk group. You can't hear what's happening on the other ones.

If you can tune them all to different talk groups, you can hear the different things.

Access to a portable computer-aided dispatching station, things like that.

- Q. And I'm sorry if I'm repeating the question a few different ways, but I'm trying to understand. Was it the local assets that requested the trailer be there, or did you offer it?
- A. No. We had determined that we would need it there because they didn't have a landing spot.

We were going to bring it in, anyway, like I said, as a rest and respite center. It was going to be there for whatever it needed to be.

That's why we have it. That's why we use it. It's set up for emergency operations.

So we were bringing it, anyway. If it would not have been used as a command post, great. It doesn't matter. It would have been a place for people to eat lunch and stay out of the heat.

Q. I'd like to introduce, as Exhibit A, the

1 Minority, a map that we have. 2 I can circulate copies. We can mark that as Exhibit A. 3 4 (Minority Exhibit A was marked for identification.) 5 Is this site familiar to you? 6 Ο. 7 Α. Yes. What are we looking at? 8 0. 9 Α. This is the Farm Show grounds and some of 10 the surrounding buildings. 11 So this is where the July 13th event was Q. held? 12 13 Α. Correct. 14 And we've talked about a few different Ο. 15 Can you try to map out for me where the EMS sites. 16 trailer that we've been discussing is? 17 So on the other side of the pond, there's Α. In front of the first barn is where the 18 two barns. 19 command trailer was, our command trailer was. 20 Q. So if I'm looking at the blue water in the 21 middle, there are two white boxes below it, and the 22 sort of top one in front of that is where the EMS trailer was? 23 24 Sure. Closest to the stage, yes. Α.

And where is the stage?

25

0.

A. The stage would have been in front of the two barns that are by the circular corral, for lack of a better word. Those two barns there, it was right in front of that.

Q. And where was the US Secret Service

- A. All the way back here (indicating). In this back area by the main gate there's an office, and it was in there.
- Q. So there's a marking on the map that says USDA Service Center?
- A. It would be to the right of that if you're looking at the paper.
 - O. So near this Main Street?

security room or command post?

- A. Yes. Where you see -- I believe that's

 Main Street. My eyesight's not the greatest. But,

 yeah, it's kind of there by this gate (indicating).
- Q. And approximately do you know how far is the distance between that Secret Service command post and your EMS trailer?
 - A. A rough guess, 250, 300 yards.
- Q. How was the location for the trailer, for the EMS trailer, selected?
- A. It was really selected because of its proximity to the Brady Paul building, which is kind

of -- it's in line with the barns that the stage was set up by. It's off Brady Paul Lane.

So there's a building there. So we wanted to be in close proximity to that because that's where the bathrooms were and the food was going to be for everybody that was working the rally.

- Q. And the Brady Paul building, just to be clear, I think we've also heard that referred to as perhaps the Fraternal Order of Police Lodge?
 - A. Correct. That's it.
 - Q. Is that the same building?
 - A. Yeah.

Q. And that initial site, had that been selected as a gathering spot simply because it was already there?

What was the thought around using that?

- A. The Brady Paul building?
- Q. The Brady Paul building.
- A. Yeah. I think it was because it was already there. It had facilities for people to be able to use the restroom. It was slightly air conditioned, given the day, and it was an area where people could meet and gather, eat lunch, things like that, and it was under the control of

the local Fraternal Order of Police, which one of the state police members was on the board or president of or had some affiliation with it.

They use it quite frequently for, like, birthday parties and small events. So it's set up as an event space.

- Q. Understood. This is a map that we have found. I think at some point you said you had made some maps of the site?
 - A. I didn't. One of my staff members did.
 - Q. One of your staff members did?
 - A. Correct, mm-hmm.

2.0

- Q. And why did you all make those maps?
- A. So like anything in planning, you want to use all the resources available, and maps are one of the things that are key for any event.

It allows us the opportunity to look at an overhead view of the site, look at potential areas of concern.

From my side of things, it's potential areas of concern for, like, the medical side of things, where were people parking, traffic, things like that, to get ambulances and fire resources in and out; but we also used it to, you know, show placement of everybody's assets so we all knew

where everybody kind of was. 1 2 And I believe you said Secret Service did not share any similar maps? 3 I don't believe. I did not receive 4 5 directly, to my knowledge, any maps from the Secret They might have sent them to some of my 6 Service. 7 staff members that may have been forwarded. There were so many maps flowing around 8 that I don't know really where some of them came 9 10 from. So... Fair enough. Do you mean from other local 11 12 law enforcement maps? 13 Really more, again, my staff member 14 He likes to do that stuff. who does maps. 15 there were multiple versions of maps that came out. 16 I don't recall ever seeing anything from 17 the Secret Service specifically. And who was that staff member? 18 Ο. 19 Α. 20 Q. 21 Yeah. Α. 22 What about from local law enforcement? Q. Did you receive any operational plans for the day? 23 24 Α. No. No.

And we've said specifically maps for the

25

Q.

- Secret Service, but any operational plans from them 1 2 about how the day would flow? No, other than just a timeline of events. 3 4 That was it. And that was in that initial meeting 5 of July 8th. 6 Maybe we can return to that timeline I Q. 7 think that my colleagues had started to run through with you on the day of July 13th. 8 9 I think you said you got to the site 10 around 8:30 a.m. --11 Α. Correct. 12 Q. -- to begin setting up the command post? 13 Α. Correct. 14 And by that, do you mean the local EMS Ο. trailer --15 16 Α. Yes. 17 -- or the --Ο. The local EMS trailer. 18 Α. 19 At around 11:30 or noon, you went to the 0. 20 Secret Service command post? 21
 - A. Roughly. I'm not exactly sure of the time, but, yeah, I think that's roughly when it was.
 - Q. Okay. And approximately how long did you stay in that room?
- 25 A. I was there until probably 4:30-ish and I

22

23

24

took a break. I hadn't had lunch or anything. 1 2 So it was probably around then. And did you return to the security post at 3 Ο. 4 any time? 5 Α. Actually, I was on my way back up there when the shooting started. So... 6 7 When you left the security room, did 0. anybody from Butler County replace you? 8 Yes. 9 Α. 10 Ο. And who was that? 11 His name is Α. 12 He's a former dispatcher that was in there, a 13 state-certified dispatcher. 14 Is he a current Butler County employee? 0. 15 Α. No. 16 In what capacity was he there that day? Ο. He's assistant chief of one of the fire 17 Α. 18 departments in the county. 19 When you transitioned over to 20 did you have any discussions with him about what 21 you had been seeing in the command post that day? 22 Α. Very briefly. He was obviously on the 23 grounds as part of the medical team helping out. 24 So he knew the issues with the medical. 25 You have to understand we treated over

250 people for heat-related illnesses. So it was 1 2 very busy. So he understood that that was, you know, going to be most of the issue that he was 3 4 going to see. 5 Ο. Had you spoken to before that 6 transition? 7 Was this a planned --8 Α. It was a planned transition, yeah. -- handoff? 9 Ο. 10 Did Secret Service have any concerns 11 about who would be there? 12 Α. Not that they expressed. Not at all. And I think we've spoken a bit about -- or 13 maybe we haven't, but can you run through who was 14 15 staffed in the local trailer as opposed to the -was there, and then 16 Α. So 17 , who is our emergency planner, was in There was a member of the sheriff's office. 18 19 There were a couple members of the Butler ESU that were in there. And that's all that I'm aware of. 20 21 Again, I wasn't in there. So... 22 So at no point did you go into that trailer Q. 23 after --24 I mean, I was in the trailer later but not Α. 25 during the hours of 12 and 5:30, 6:00. After 6,

actually. So probably 7:00.

- Q. How were you communicating with folks in the trailer?
- A. So there were radio communications that, not myself, but had with them directly. And then, you know, by and large I text messaged my staff in there.

My phone never had an issue. Everybody had issues. I have a FirstNet phone which is dedicated for emergency management, emergency services.

So I did not experience issues that other people were having.

Q. Let's talk a bit more about that.

Who else on your staff has FirstNet?

- A. I don't know. I can't speak to that.
- Q. Are you aware of anybody else that was in the trailer that had access to FirstNet?
- A. I can't. No, I don't. I mean, this is my personal phone. This is not my -- my professional phone is a Verizon phone. So I didn't even try that, really. So...
- Q. And when you say you were texting with your staff, which phone are you using for that?
 - A. You know, I couldn't tell you. It could be

one or the other. Whatever one I had, I picked up at the time.

- Q. And what are you discussing with them over the course of the day?
- A. Just, you know, how are things going?

 Everybody okay? Anybody need anything? You know,
 those sorts of conversations.
- Q. Do you have any understanding of what communications channels folks in the trailer were monitoring?
- A. No, I would not be able to speak to them.

 I imagine they were monitoring all of them because they have that capability, but I can't speak for them.
- Q. You mentioned that other folks were having trouble with their cellphone service. How did you become aware of that?
- A. Just really word of mouth. That people were talking about how calls were dropping that they had.

It was really just word of mouth talking to people, and a lot of it was after the fact. I didn't know it at the time because I wasn't experiencing any issue. So...

Q. So nobody during the course of the day

said, "I'm having trouble getting through to you or
others"?

- A. No. The only person I knew that was having trouble with the cellular traffic was the drone/ anti-drone guy because he verbalized that and actually moved his equipment outside to see if it would work better.
- Q. And that's the anti-drone person from the Secret Service?
 - A. From the Secret Service, correct.
- Q. Around when did he say that he was having issues?
 - A. I couldn't tell you that time, honestly.

 It was somewhere between the hours of 12 and 5

 because I was in the command post 12 to 4:30, 5:00.
 - Q. And you said he moved his equipment outside?
 - A. Yeah. He pulled a table outside and set up his computer on the table outside the doors because he thought maybe the building was part of the issue.
 - Q. Was anybody else in the command post expressing any issues with communications?
 - A. Not to my knowledge.
 - Q. You mentioned the 2020 Trump campaign event

and, I believe, when you've previously spoken to some of our colleagues and earlier today mentioned some differences between how the two proceeded.

A. Right.

- Q. How would you compare the two events?
- A. Completely different, really.

The first event, there was a clear-cut line of command. I knew who was in charge very clearly. A lot of it was there was more focus on the security room having all of the individuals in there that were needed.

I mean, they had everything. They told us where we had to have the HAZMAT truck. They told us where we had to have assess. It wasn't like, "Well, hey, are you okay if we set stuff up here?" It wasn't any of that.

This time for the rally, we had really no clear idea who was in charge of the entire grounds.

- Q. And when you say "they," in respect to the 2020 rally, being in charge and giving direction, is that US Secret Service?
 - A. Secret Service, mm-hmm.
- Q. And for 2024 on July 13th, no clear idea who was in charge.

At any point during those walkthroughs, did Secret Service say, "We are" -- how did the Secret Service present themselves that was different between the two?

2.0

A. When then-President Trump came in 2020, it was really more clear that, "This is our show and here's what we need you to do."

This time it was more, "Hey, we're here, and this is what we're going to do. Here's what we need you to do for us."

But it wasn't a, "Here's where you're putting your HAZMAT truck. Here's where you're putting this." It was like, "Well, you know, just set it up back here somewhere."

Q. On the "Here's what we need you to do part," obviously they've requested that somebody from Butler be in their command post.

What else did Secret Service specifically direct you to that day?

- A. Just really more of the HAZMAT team decon capability. So that, you know, entails a fire truck to be there, as well as the hazardous materials.
- Q. Do you think that Secret Service -- this is your impression, understanding you can't put

yourself in the Secret Service mind -- understood the various local and state entities that would be on the site that day?

- A. I'm not sure about that. I'm not sure they knew what capabilities people had. I'm not sure.
- Q. Have you ever, on this day or previously, had any confusion about Butler County Emergency
 Management Services versus Emergency Services Unit?
- A. No. We know the difference between the two.
 - Q. What about other state and local --
- A. No. Everybody has confusion over that. I was not part of picking that name, and I don't have any responsibility for them.

So it's not uncommon for them to be called Emergency Services Units. Other counties call them the same. I think there's some negative nomenclature with SWAT. So I'm not sure why.

Yeah, we get confused all the time. I can't tell you how many people that have tried to get information out of us about the ESU, and they're not our responsibility.

O. Understood.

- A. They fall under our DA's office.
- Q. Either in preparation for or on the day of

the event of July 13th, did you have any communications with Trump campaign staff?

- A. I did not, no. The day of the event -- actually, the day before the event -- my deputy,

 talked to one of the campaign staff who seemed like he was in charge of the site.
- Q. And do you have an understanding of what they discussed?
- A. They just asked -- we were just asking for a location for us to set up the portable hospital at that time. That was the Friday before the event.

We knew we would have the portable hospital set up, and we were just making sure that the area that we had picked was an okay area, which they had lined up for vendors, but they moved those vendors out of the way and gave us that space.

- Q. Is it your understanding that the campaign was directing where various assets would go on the day of the site?
- A. Yeah. For us, it was, yeah, in the area where the crowds were.
- Q. Okay. And with respect to the location of the EMS trailer, did the campaign --
 - A. They had no -- they didn't say anything

1 about that. 2 What about the location of the Secret Service command post? 3 I don't know that. I don't know who 4 Α. determined that was the area for that. 5 And you said they moved some vendors. 6 Q. 7 other understanding of sort of how the campaign was setting this up? 8 9 Α. No. 10 And do you recall who the contact was at Ο. 11 the campaign? 12 Α. I didn't talk to the campaign, anybody from 13 the campaign. So... 14 When you -- sorry I'm jumping around a bit -- but when you left the command post -- I 15 16 think you said it was around 4:30 -- took a break, -- where did you go? 17 handed it off to I went down to -- we actually had the 18 19 opportunity to take a photo of Mr. Trump. went down to do that and then went and ate dinner. 20 21 And where was the photo? Ο.

A. The photo was in the tents that were in front of the barn. In between the stage and the barn, the two barns.

22

23

24

25

So it would have been in this location

here (indicating) along this driveway.

- Q. And because our court reporter can't quite capture that, the driveway we're referring to is in front of the three white barns --
 - A. Correct.

1

2

17

22

23

24

25

- Q. -- where the stage was set up?
- A. Correct. There were tents. There were tents set up there.
- Q. And approximately how long were you there with Mr. Trump?
- A. Probably, because he was late, an hour at the most. An hour, hour and 15 minutes maybe.
- Q. So that was around 4:30 to 5:30?
- A. Yeah. It would have been probably 5, closer to -- yeah, it would have been 5, closer to 6 probably.
 - Q. And from there, you went to get dinner?
- 18 A. Yes.
- 19 Q. Where did you do that?
- 20 A. Down at the Brady Paul building we had set up.

So we probably got out of the photo opportunity around 5:30, 5:45-ish. So I went down there and grabbed something to eat, something to drink, and then was on my way back up to the Secret

Service security room whenever the shooting 1 2 started. On this map, approximately where were you? 3 Ο. I was probably -- if you look at where the 4 5 pond is -- I can't see what that says as far as the street name -- but right on the other side of the 6 7 ponds there's an area that they had cordoned off, and I was probably in this area (indicating) there. 8 So it would have been probably in front 9 of the -- front left of the -- well, front right of 10 11 the stage about probably 40 yards. So... 12 0. And I believe you said you were carrying a 13 portable radio with you? 14 I had one, yes. Α. 15 How did you first become aware of the 0. shooting? 16 We heard the sound of the shots. 17 Α. Sound of the shots. And then was there any 18 19 transmission over the radio that you heard? 2.0 Α. The only transmissions were ones that my 21 deputy made saying shots were fired and for all the 22 EMS folks to get in the building. 23 And which deputy was that? Ο.

And I am just at about time.

So I will

24

25

Α.

Q.

1 leave you there. 2 Α. Okay. We can go off the record. 3 4 (Off the record.) 5 BY To continue the events we were discussing 6 0. 7 with my colleagues for the last 30 minutes about the time of the shooting at or about 6:11, you 8 know, you're walking back to the security room for 9 10 Secret Service. 11 Immediately after the shooting, after 12 you heard the shots, what were your actions? Can 13 you describe your actions? 14 Well, on our way up to -- and it was myself and my deputy, -- on our way back up 15 16 to our areas of responsibility, was working with the EMS team and I was obviously in the 17 security room. 18 19 On our way up, there was a call for a 20 woman who was down in the crowd, and we could 21 actually see her. So we were making our way over 22 to her and to assist with any medical care that she 23 may need. 24 a paramedic and I'm a nurse.

used to be a paramedic. So we were working our way

25

over to her.

When the shooting started, we ducked behind a police car. After a couple minutes, then we made our way -- we continued to make our way to that patient and opened up -- they had like crowd control stanchions set up that would -- they called them bicycle racks. It's kind of what they looked like.

So we actually disconnected them and pulled them out of the way so we could get in to that patient and started moving people out of that area, and we assisted with the medical care of that person.

Then after that, you know, obviously it was a little chaotic, but people orderly were leaving the area, and then we were assisting with the patients that were shot.

So we made our way back down that way and helped coordinate the helicopters that were landed onsite.

- Q. Can you describe -- you mentioned chaotic -- just what that looked like from an emergency services standpoint?
- A. Well, from our perspective, because we had no idea what was going on, you know, it was just --

it didn't even -- to me, it did not seem like that it was shooting. It sounded like fireworks to me. But my deputy has a little more familiarity with the weapons that were used and knew right away that it was shots, as well as there was a police officer not far from us -- and I think he was a Secret Service police officer, but I'm not 100 percent sure of that -- he knew they were shots, too.

So it was just really more like where's it coming from. What's going on. And, you know, the medical teams were told to shelter in place, but obviously they didn't. It's just not in their nature to do that.

So they were rushing to the front to try to take care of any of victims. So we joined them, really, more or less. It was chaotic because nobody knew what was going on.

Q. With the chaos that ensued after the shooting and people trying to exit the Farm Show grounds, I understand your role was mostly attending to patients and handling the helicopters coming in.

But were there local law enforcement entities, state police entities, Secret Service officials, like, directing people out of the Butler

Farm Show?

- A. Not to my knowledge. But again, we weren't in that area where they would direct them to exit. So...
- Q. Okay. What time did you leave the Butler Farm Show grounds?
 - A. 3:30 in the morning.
 - Q. 3:30 in the morning?
 - A. Mm-hmm.
 - Q. What were you doing throughout that time?
- A. Really, just, I coordinated some lighting because obviously that was a crime scene. So we had to get some lighting that would be appropriate for them to be able to continue the investigation once it was dark, and then mostly it was waiting for the FBI to get there to interview the ESU staff.

Since they were using our command post, somebody had to stay there to make sure that the command post was shut down at the end of the night, and that's what really myself and the rest of my staff stayed until probably midnight -- midnight, 1:00 -- but and I stayed till the end, till 3:30.

Q. And in establishing the area as a crime

scene, when did you know that, staffing the event, you all were taking affirmative steps to establish the area as a crime scene?

We don't establish crime scenes. obviously a police responsibility.

So we knew that they would establish it as a crime scene right away, just because of the nature of our business, and we know how things work, but we have no responsibility in establishing crime scenes.

- And what time, thereabouts, did the FBI Q. report to the Butler Farm Show?
- I honestly couldn't tell you because I don't know how long they were there before they made their way down to our command trailer to interview the ESU staff. I have no idea what time they arrived on scene.
 - Were you interviewed by the FBI?
 - Α. Not then.
 - Q. Not then?
- Α. No.

17

18

19

20

21

22

23

25

- For Butler EMS, are you responsible for any After-Action Reports related to July 13?
- So we did an After-Action Report for the 24 fire and EMS side, not for police. They did their

own, as far as I know. I'm not 100 percent sure they even did one, but I'm assuming they did. We did one.

- Q. When you heard the shots were fired, you heard that over your dispatch, your radio dispatch, for EMS; correct?
- A. No. I heard the shots directly out of my own ears. So, yes. But my deputy got on the radio on the EMS channel and told all the EMS folks to take shelter; that shots were fired.
- Q. And that message would have gone only to EMS?
- A. That would have been on the EMS channel only. I'm not 100 percent sure, and I know I said this earlier that they were on the EMS channel. They might have been on the special event channel. Same thing, though. Same radio system.
- Q. And just overall for radio systems in Butler on July 13th, I understand there's a 911 command center?
- 21 A. That's the command center that I'm talking about.
 - O. Yes.

A. The box trailer that was set up in front of those barns, yes. That was ours.

- Q. Is there any, like, satellite or other facility that's outside of the Butler Farm Show that was used that day?
- A. No. Just the fixed 911 center. There were calls that were received at the 911 center from people in the crowd that were having a medical issue and, you know, to direct medical staff, and they communicated that via radio to us.
- Q. Okay. So they would receive that information in the fixed 911 center?
 - A. Correct.

- Q. And that information would get relayed to you over from the fixed 911 center?
 - A. Correct.
- Q. Thank you.

When you were in the Secret Service security room -- we were discussing the Secret Service personnel that were responsible for drones were encountering some trouble. He had to go outside the building.

He was experiencing connectivity issues?

- A. Yes.
- Q. Can you give any more color as to when that might have happened, like, in terms of time?
- A. I really don't. I just know it was between

the hours, like, when I was there from roughly noon until 4:30. It was somewhere in there. But I couldn't -- I didn't look.

It seemed odd that they didn't have their own dedicated communication source, like satellite or something like that, but I didn't take note of it to the point where oh, it happened at 2:00. You know, I just didn't.

- Q. And what did you think about the drone issue with Secret Service not working properly?
- A. I thought it was odd, but, you know, I'm not familiar with what they use or what technology they use. So it's not my lane. I didn't really step in and didn't insert myself there.

I just thought it was odd they had to rely on local communications, cellular communications, in order to make it work. It's a little odd.

Q. Leading up to the shooting at 6:11 on local police radio channels, we understand that there were talks of identification of a suspicious person at the event. You know, that happened in the midafternoon, we understand.

When you're in the Secret Service command room, you know, did you experience any

conversations?

Did you hear any conversations about any type of suspicious person?

- A. I did not.
- Q. Would it be normal, through EMS radio channels, for there to be an identification of a suspicious person?
- A. Not on EMS. We're not law enforcement.

 You know, the only way that that would happen is if somebody from the EMS side saw something, and they would communicate that via the video.

But, typically, no. EMS are not aware of police events. They don't have -- the local EMS folks do not have access to the police channels. They're all encrypted.

BY :

- Q. When you're getting situated in the command post or at any point, had Secret Service expressed concerns about congestion when they were saying, you know, pick one -- in the command post when they said just pick one?
- A. No. Not at all. In my opinion, there would have been room for everybody.
 - Q. And have you been in a situation with

multiple command centers before involving the Secret Service?

- A. No. That clarifies it. No.
- Q. You described accounts where you were receiving information about medical emergencies.
 - A. Mm-hmm.

- Q. Were there any instances in which you received information that you then fed to folks in the command post?
- A. One time there were some of our EMS folks that asked for law enforcement at a particular area because I believe there were some of the crowd getting unruly.

That was the only time, and I communicated that to the state police officers who were in charge of that.

- Q. And it was your calling an EMS who had been the one to communicate that to?
 - A. Yes.
- Q. And you said at the time you had not spoken with the FBI. They had not interviewed you at the time at the site.

Has the FBI spoken with you since then?

- A. Yeah.
 - Q. Have they reached out?

1 Yes, they have. Α. 2 And did the Secret Service speak with you post shooting? 3 4 Α. No. Yesterday was the first time, and it was Internal Affairs. 5 We can go off the record. 6 7 (Off the record.) 8 9 BY 10 Thank you for talking to us. Ο. 11 appreciate your time. 12 Α. Sure. 13 I have just a few quick clarifying 14 questions from things that you have discussed both with colleagues from both sides today. 15 16 One of the them is the trailer, the local trailer, or communication post. 17 18 Α. Yeah. 19 Its existence. I think I had a pretty good 20 sense of the story there, but I just kind of want 21 to try to summarize it and see if I'm getting it 22 right. 23 Α. Okay.

me if I'm right or wrong.

So I'm going to try that, and then you tell

24

A. Sure.

2.0

- Q. It feels as if the first sort of step was that the Secret Service only invited one county person?
 - A. They only asked for one person, correct.
- Q. To its own command post. So that's what starts the whole thing.

Then it sounds like you and your department find it logical to have the trailer there mainly for air conditioning, heat-related EMS issues; right? It seems?

- A. General staff, yes. Not just EMS. But any of the police officers who were there, anybody who needed an area to go to rest.
- Q. So it sounded like there were a few different steps. It sounded like first the trailer existed in the first place more from an EMS point of view, but then it evolved into this larger thing?
 - A. Correct.
- Q. Because the other assets needed somewhere to go?
 - A. Correct.
- Q. And they were originally going to go to the Fraternal Order --

A. Order of Police building, yes.

2.0

- Q. And then there was a conversation to the effect of, "You might as well come to this trailer. We have all the equipment"?
- A. More or less, yes. Yeah, they're familiar with our equipment and the capabilities. And, you know, obviously, if you have an open building that anybody, the HAZMAT team or firefighters or anybody, can access, if you have law enforcement-sensitive traffic, you don't want them to be able to hear it; right?

So the Brady Paul building is not set up so that there's an area of, you know, confidentiality, more or less. So our trailer has that, and they're familiar with it, like I said.

Q. So I got it, Secret Service only invites one person, to begin with, from the county, and then the EMS trailer is there for EMS, but then other assets, such as police, need somewhere to go.

A trailer is better than the Fraternal building?

- A. Correct.
- Q. And so that's how they ultimately end up using the trailer?
 - A. You're correct.

Q. Okay.

- A. And I'm only speaking for myself.
- O. Yeah.
 - A. You know, they spoke to me and said one person from the county. I don't know what they spoke to the local police. I don't know what they spoke to the ESU.

I know they did not ask for anybody from the fire department or the EMS agency. I didn't speak to that.

- Q. From your point of view, that's the evolution of that start?
- A. Correct.
- Q. All right. Thank you.

You all talked a little bit about how, out in the world sometimes, there are mixups between EMS and ESU.

I think it was already asked, but I just want it to be super clear: Did you ever have a sense either way of whether the Secret Service might not have known the difference or might have been a little mixed up between EMS and ESU?

- A. No.
- Q. No sense in either direction?
- 25 A. I did not get that sense.

- Q. All right. Did you have the sense that they were not confused about that, or you just did not have a sense?

 A. I didn't have a sense, one way or another.
 - Q. Okay. Yourself, in the Secret Service

command post, and somebody else from the EMS team, meaning the local trailer, it was not super clear

to me.

Were you two -- were you meant to be acting as a linkage between the two command posts, or is it more that you were each in your respected areas doing your EMS jobs but you weren't like taking on the responsibility of linking everything up

between --

A. No. There wasn't the ability to link things. So we could talk on the radios together if we would need to do that, but that was never -- to my knowledge, when I was in there from the roughly 12:00 to roughly 4:30 - 5:00-ish timeframe, there was never a direct radio.

We all have call signs; right? So nobody called me directly on the radio from that command post.

However, who I've

discussed, and I texted a few times back and forth, but nothing of significance.

Q. That's kind of what I mean.

In terms of what you understood your job to be or what he understood his job -- I know you can't speak for him -- but as far as you know, is it that your department happens to overlap between those two communications buildings?

I sense, perhaps, it is not so much that that was by design in order for the two of you to be the safety net that ensured that every communication --

A. No.

- Q. Is that right?
- A. It's not typical for us to have two separate areas like that. Typically, we'd all be in one room.
- Q. Right. But was it more that your role in the Secret Service command post, just speaking for yourself, were you there primarily or exclusively in an EMS role, or were you also there in a shuttling of communications back and forth?
- A. It was not real clear on why I was in there. That wasn't clearly defined. But my role had to be an EMS liaison just because of the nature

of the emergencies that were coming in at that time.

So between, you know, the hours that I was there, I couldn't tell you how many times I dispatched medical teams, and that's what became a de facto role for me. It was not coordination of any of the law enforcement assets in any way.

- Q. When the day started, if you can remember, before anybody started talking about anything, would you have understood your role to be relaying law enforcement-related messages?
 - A. No.

2.0

- O. No?
- A. I would not have understood that to be my role. I could have done it if it was, you know, in a -- I'm not a dispatcher, I'm not a law enforcement officer, but I could have done it in a pinch if asked. But it wasn't clearly communicated in what the role was.
- Q. And it sounds like nobody -- it doesn't sound like really you sort of sat down to clarify exactly what that role was?
 - A. No.
- Q. So being the EMS guy, you understood your role to be EMS?

A. That's what I focused on because that was the greatest need. You know, it's just like anything we triage, what's the greatest need at the time. The greatest need at the time was to take care of people who were falling over from heat-related illnesses.

So that's what became my role.

Q. Because I think sometimes there can be confusion for folks who say, "All right. Can somebody just list for me who was in which command post?"

And folks might say, "Okay. Well, the EMS had a representative who was a common factor across both command posts. So, therefore, it must have been their job to be acting as a communications link, ensuring that nothing gets missed"?

A. So was working with ESU more than... And he wasn't doing anything with emergency medical stuff. That was, you know, more -- that was me.

and the police assets that were in the command post. As a former dispatcher, he had the ability to do that. And part of the ESU team on

1 his own time. But it's not as if would then relay 2 over to you every single thing that he is saying or 3 4 doing? 5 Α. Not from the police side of things, no. Not at all. 6 7 Okay. All right. Thank you. Ο. And my only last quick one is you 8 mentioned the Secret Service drone person. 9 10 Α. Yes. 11 And that that person had a little trouble 12 with the equipment. 13 I think I understood, but I just want to 14 confirm, if you recall: Did it look to you more 15 like that person was having trouble with his 16 physical equipment, like a cable had snapped or 17 something, or was it more that he was having a 18 reception --19 He was talking about connectivity. 20 talked about, specifically verbalized, he was 21 having trouble connecting to the cellular network. 22 So... The equipment itself physically 23 Got it. 0.

LaGamba Reporting Services www.lagambareporting.com (412) 458-0439

seemed to be perfectly fine, as far as you could

24

25

see?

1 Α. As far as I -- yeah. And I don't know what 2 the equipment normally does. So... I'm not familiar with that, but, yes. 3 4 Ο. Thank you very much. I'll turn it back 5 over to my colleagues. 6 Court Reporter, I'm 7 8 9 BY10 We're going to pick up again and kind of go Ο. 11 back and forth a little off because we're working 12 off an outline. So I want to make sure we cleaned 13 up anything that I might have had. 14 So we talked about the trailer. talked about who was in the trailer. Just to be 15 16 clear, not having been there, could more people have fit, if possible? 17 Yeah. Absolutely. 18 Α. 19 0. So someone from ESU could have fit? 20 Α. Are you talking about in the trailer? 21 My apologies. Secret Service command post. 0. 22

A. Yeah. Oh, absolutely. More people could have fit. There were people in there, in my opinion, who were there as a rest and respite center as opposed to being part of the command

23

24

staff.

So there were probably, if I had to guess, there were probably 30-plus chairs set up in that square. It's a fairly large square. And there were only six that were dedicated, that I knew of, as part of the command staff for the Secret Service and state police, myself, and the two individuals from the grounds.

Everybody else was in and out. Some of them were plainclothes officers who were out in the crowd and then would come in and, you know, sit in the air conditioning for a little bit, get something to drink, and go back out.

- Q. So to the extent someone from ESU or the sheriff's office or Butler PD, they could have gone in there and set up?
 - A. Correct.
 - Q. Plenty of room?
- A. Correct.
 - Q. Any sense on why Secret Service only wanted one county person in there?
 - A. I can't speak to that. It's not what had happened in 2020.
 - Q. Where everyone was in that unified command?
 - A. Everybody was in one unified command.

1 0. You talked little bit with about 2 Butler EMS versus ESU. Did you have the sense -- I know you 3 4 mentioned you didn't have a sense either way in 5 whether you thought they were the same -- did you have a sense that Secret Service thought, though, 6 7 they were under the same hierarchy, EMS and ESU, or 8 no sense? 9 Α. No. No. 10 No, you didn't have an understanding of Ο. 11 what they thought? 12 You know, they met with the ESU folks. So 13 they clearly knew who the leadership of the ESU team was. 14 15 And do you have any sense on, if ESU had been asked to be in that trailer, any reason they 16 17 would have potentially said no? Or in the command post, not the trailer. 18 19 They would have sent a liaison. 20 did the last time. I believe they had sent 21 somebody there in 2020. I'm not 100 percent sure 22 of that. 23 Last point in the command post: 24 Understanding that your role is EMS and not police,

not patrol, to the extent that something happened

in the trailer that involved police or ESU, what is your understanding of how Secret Service would have been notified about that, especially within the command post?

A. Well, I know that the ESU had direct communication with the Hercules sniper team. They also offered them radios, from what I understand -- again, third-party information -- so that they would have access to the ESU channels. I don't believe they utilized that; but, again, third party. I wasn't part of those discussions.

But I would think that if they had something critical, they would communicate it through the radio to somebody in the Secret Service command post, whether it was myself or and let them know and we could have verbalized it to them. So that's one way. That's one avenue.

There's also, you know, the avenue -- I know that the ESU leader was in contact with the state police representative via phone call, cellular phone call. I don't know about text messages. I wasn't in there during that time.

Q. Got it. And I want to hit on radio because that's the part we're trying to wrap our heads

1 around.

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

20

21

22

23

24

25

So tell me if I'm wrong on this. We met with the sheriff, who kind of showed us the radio locally.

Can that radio do, you said, multiple channels?

- A. Mm-hmm.
- Q. So, for instance, on this day, we heard -- and if you don't know these things, tell me -- but there's like OPS 3 for local police, maybe an OPS 4 for the ESU teams, there's patrol.

A one-way radio can do all those; is that right?

- A. Correct. It has access to all those talk groups, the police band radios.
 - Q. You had one of those?
- A. Mm-hmm.
 - Q. In the Secret Service post?
- 19 A. Correct.
 - Q. Were there additional ones for them to use there?
 - A. We always have additional radios for anybody who wants a radio. Right? We want people to have access to our system, understanding that disparate systems creates issues.

So we always make radios available. 1 2 Nobody from the Secret Service command room asked for a radio or asked to have access to a radio. 3 4 Again, I know of no third party that 5 offered radios to the sniper teams. I wasn't part 6 of that, but I would have supported it because 7 that's what we typically do. So you're not sure if the Hercules Secret 8 9 Service counter-sniper teams had radios? 10 I don't know what they had. 11 When you were in the command post, did you Q. 12 hear anyone listening to, say, OPS 3 local police 13 or OPS 4? 14 Α. No. 15 Who was -- again, your impression -- who Q. was in charge within the Secret Service command 16 17 post? There was one guy that was the 18 Α. 19 communications guy, and I believe his name was 20 That was it. That's the only one I really 21 knew. 22 So under your impression, he was kind of 23 directing things in there? 24 Yeah. He was the only one in there besides Α.

the drone guy. And, again, he stepped outside.

1 So...

- Q. So there were only two Secret Service agents in that building?
- A. Dedicated, correct. There were a couple that came in and out. You know, they were, again, probably respite and then out and doing stuff out in the crowd, patrolling whatever they were doing. I don't know.
- Q. FirstNet, I just want to clarity: You have it on your personal phone?
 - A. Correct.
- Q. And is that something where you go in and get something technologically done to it, or is it special hardware?
- A. So it's a special SIM card that gives you priority over general public traffic on cellular devices.
 - O. Understood.
- A. AT&T. It's a national-- it's a federal program for a whole host of people, but mostly emergency folks. Nurses are eligible. Things like that.
- Q. And you had no problem communicating because you had that?
 - A. I didn't, no.

1	Q. I want to quickly switch to the trailer.
2	From your understanding, and maybe talks
3	with or just your understanding generally,
4	did Secret Service have any presence within that?
5	A. No. They were told I invited them,
6	personally invited them, that they could have a
7	presence in our trailer and was very promptly told,
8	"No. We have our own security room."
9	Q. Did anyone flag that as an issue of
LO	concern, or was it just sort of Secret Service does
L1	their thing?
L2	A. I didn't. I certainly didn't flag it. It
L3	was just, more or less, like you said. Okay, they
L4	do their own thing. So
L5	Q. Quickly on the drone guy. To your
L6	again, you're watching them, you're there did he
L7	ever detect any drones?
L8	Did he ever notice anything?
L9	A. He was outside. So once he moved outside,
20	I didn't see him again.
21	Q. I want to talk about your role, and I think
22	I understood this from what was asking.
23	So Secret Service, they asked you to be there in
24	sort of an undefined capacity?
25	Did they imply you should be an

all-county liaison?

- A. They didn't. It was an undefined capacity.

 Just somebody from the county in the command post.

 They did not specifically say a role.
- Q. So they didn't specifically or explicitly tell you, "Hey, we need you to coordinate county assets"?
 - A. No.
- Q. They were just like, "Hey, you're from the county. You come here"?
 - A. Yeah, basically.
- Q. And you said that is not the way it was previously done when there was a unified command post?
 - A. No. Correct.
- Q. You know, from an EMS side, is there a best practice there, or is that more of a law enforcement priority?
- A. No. It's best practice to have everybody in the same room for any emergency services, whether it's fire, police or EMS.
- Q. And I think -- I mean, we haven't heard the answer to this -- I'm assuming it's no -- but is there any reason Secret Service, Pennsylvania State Police, anyone other than the county, ever gave for

not having a unified post?

A. No.

- Q. And it seems like had there been a desire or had Secret Service allowed it, there would have been plenty of room within the command post for it?
- A. Absolutely. Absolutely. It was a bigger room than what it was in 2020 when we were all in one space.
- Q. I want to take a step back to events beyond -- we're calling it J-13.

First large events, would it be typical and would you be expecting cell coverage to be down in an event like this?

A. It's not unexpected, but, however, we did not anticipate it, given that there's two cell towers that are right on the site, plus multiple towers that are in the immediate area.

We did not anticipate that, but we didn't anticipate the crowds to be quite as large as what they were. We had a feeling, but we had no idea.

- Q. And that's my followup question: The sense of it going down is because of the size of the crowd?
 - A. Yeah.

There's a brief mention of being sort of 1 Ο. 2 more circumspect in location for law enforcement 3 and command posts. 4 Is that a typical request? 5 Α. Clarify. So I think you mentioned, "We were 6 0.

- 7 kind of asked to be out of sight"?
 - Α. Sure.

8

23

24

25

- Tell me how that --0.
- It's not uncommon to be out of sight. Α. Like, obviously, we have different areas outside of this event, like hot zone, warm zone, cold zone. Right?

You don't want the command post in the hot zone where the activity is. You want it kind of outside of that. That's typical for all events, including this one, a planned event.

You don't want to be right in the middle of the crowd. You want to be out where there's some area in the warm or cold area. So it's out of the hot zone, more or less, where all the activity may occur.

- Is that just for movement purposes? security purposes?
 - Α. Yes.

- Q. Tell me about that.
 - A. I mean, it's both.
 - Q. Both?

A. Yeah. I mean, it's more for the ability for people to transition in and out of areas and also for security.

You want to make sure that we don't have the general public in a command post area.

- Q. And is that how it was similarly reflected at the 2020 event?
 - A. Yes. It was in a secure building.
- Q. And remind me. I'm sure I missed this.

 Where was the 2020 event?
 - A. It was at the Butler Airport, the large
 Butler Airport that's in Penn Township. Air miles
 from the Farm Show grounds, probably six, seven air
 miles.
 - Q. So there had been some kind of back and forth. So that is not the airstrip adjacent to the farm grounds?
 - A. No. That's a very small -- just, you know, very small plane-based airport. This airport will be able to -- has the ability to land jets. Not large jets but small jets.
 - Q. So at that farm grounds or that adjacent

grandstand area, had that area ever had an event like this?

- A. Not to my knowledge. Not in my lifetime.
- Q. Do you have any -- and again, I know you're not a police officer -- but from an EMS perspective, do you have any concerns about this area?

Is there anything about it, sort of capacity control or anything, that raised hackles?

- A. I mean, not in my lane. I just worry about what I had to worry about: life safety.
- Q. Yeah. And to that end -- this may be the same answer here -- but we talked about the AGR complex. I know you weren't there. I know you weren't near there. But to the extent that you had any visibility, did you notice people outside the fence line? Near it?
 - A. I did.

- Q. What were your thoughts on that?
- A. It's kind of typical for any event for people to hang out, you know, in the areas where they -- it's not an uncommon occurrence.

Even during the farm show, some of the events, you'll see people hanging outside the arenas and things like that because they don't want

to pay the admission fee or they don't want to go through the hassle of the crowds. Whatever it may be. They want to drink their own beer alongside the fence. I don't know.

So it's not atypical for that to happen.

- Q. When you saw that, again, did you have any concerns or just sort of hey, that's typically what happens?
- A. It's not my lane, so I didn't have any concerns.
 - Q. That makes sense.

And then taking a much larger step back, obviously you've been through a number of interviews. I'm sure you've seen some of the coverage of this.

Is there anything you think we should know either about how this went down from -- well, let's start with this: Anything from any other interviews you've done that you think would be helpful for us as the Task Force?

- A. No. I tell the same story every time. I have nothing to hide.
- Q. What about things in the coverage you've seen of this? Anything you think is worth dispelling or you think has been presented falsely

or anything you want to get on the record?

A. Well, I think like any media coverage, you know, it's the sensationalism, and the ability to get the scoop kind of sometimes surpasses the truth.

So there haven been things that I have noticed in the press that I know aren't true, but, you know, that happens, I think, with any large event, but, yeah.

Does that answer your question?

- Q. Yeah. I mean, it was really opened up to you to the extent that this is an opportunity where, you know, people who are investigating this from an external standpoint -- the Secret Service and FBI -- if there are things you think we should know that would be helpful.
- A. No. I mean, I think you guys are on the right track. I think that, you know, having a unified command post is key in any emergency situation, any planned event, so that everybody is on the same page and everybody is in the same room.

I'm not sure why that didn't happen at this time. I can always sit and Monday quarterback. Right? I'm not a police officer, but I can stand in the middle of that field and tell

you that I think there's vulnerabilities in some of these areas.

Q. Sure.

2.0

A. You know, that's just -- you know, anybody can do that. But I'm not a police officer. I stay in my own lane. I'm not going to comment on that.

But I can just tell you for sure that the event factually was completely different than what it was in October of 2020.

- Q. Personnel were different from Secret Service?
- A. Yeah. I didn't recognize anybody this time from the 2020 event. It doesn't mean they weren't there. I just didn't recognize them.
- Q. And can you think of any -- and again, very much understanding you stay in your lane -- but is there any other reason you can think of that the coordination and the level of communication was done differently?

Any justification that was presented or contemplated?

A. I mean, I can have an opinion that perhaps a sitting president gets a more enhanced protection detail than a former president, presidential candidate.

I mean, that's all opinion, though. 1 2 don't have any facts on that. That's not from your observations? 3 4 Α. No. 5 6 BY 7 Just a few quick cleanups from my end, as 0. well. 8 was asking about sort of line of 9 10 sight and positioning. I think you said earlier 11 that it was very important for your assets to be 12 out of the sight line of the press. Who did that direction come from? 13 14 Actually, the Secret Service said that, but I think their direction came from somebody else. I 15 16 don't know whether it was Secret Service command. 17 I don't know whether it was campaign. I couldn't 18 tell you. 19 But I can tell you that the Secret 20 Service staff that we met with said that very 21 clearly; that it just needed to be out of the line 22 of sight. 23 Were there any other typical assets that you would have wanted to be onsite that you were 24

told couldn't be there?

1 Α. Not from our perspective, no. Not from 2 Emergency Management. Are you aware from a law enforcement 3 4 perspective? 5 Α. Not that I'm aware of. On the EMS 911 side of things, were there 6 0. 7 any calls in to 911 regarding a suspicious person or a drone flying? 8 9 Not to my knowledge. Α. 10 And I think also on the point of comparing 0. 11 the two Trump campaign events, you said -- I believe you said -- it seemed odd that the Secret 12 13 Service didn't have a dedicated communication 14 source, a satellite of their own, or something like that? 15 16 Α. For the drone guy. For the drone? 17 Ο. 18 Α. Yes. 19 0. Are you aware of them having such a source in 2020? 20 21 I don't know that. I don't at all. 22 they had -- I know they didn't have the same 23 issues.

Understood. I think that's --

24

25

Q.

BY

Q. One quick thing.

So sort of cards on the table for us, it should be pretty clear at this point we're kind of interested in the trailers, the command post, and those communications. Tell me if this is wrong:

Outside the perimeter there were Butler local assets, and they would be on the local police radios?

- A. Correct.
- Q. Those were in the trailer, but beyond you, you didn't see any Secret Service people using those; is that right?
- A. They didn't use our radios at all, our system at all.
- Q. So to the extent a Butler patrol officer on the OPS 3 channel or ESU on OPS 4 may have reported something, within the Secret Service command post, there was no one dedicated to listening to those channels?
 - A. No.
- Q. The way that potentially could have been relayed was in the trailer where people were listening to those?
 - A. Correct.

1	Q. And then if there was a communication that
2	was relayed over one of those local channels in the
3	trailer, there was no dedicated path to get that
4	from the trailer to the command post?
5	A. There was a dedicated path with the radio
6	system if they would have used it.
7	Yeah, they could have done it. It could
8	have worked.
9	Q. Right. And I understand it was not EMS'
10	responsibility to coordinate police traffic.
11	A. Correct.
12	Q. But to the extent that there was any, it
13	was cellphones? It was texting? It wasn't radio?
14	A. Yeah. It was not radio. They did not
15	utilize radio technology, to my knowledge.
16	There were communications from the
17	Secret Service command post to the trailer. There
18	were not dedicated communications back to the
19	Secret Service command post about a suspicious
20	person, to my knowledge.
21	There was a phone call to the state
22	police from third-party information that, of
23	course, you read in the press that received that
24	information.
25	O And from your experience that lack of

1	communications is somewhat of an anomaly relative
2	to other events?
3	A. In my experience, if everybody was in the
4	same room, then you would alleviate those issues.
5	Q. I don't think I have anything else.
6	: So we can go off the
7	record.
8	Thank you.
