

TASK FORCE ON THE  
ATTEMPTED ASSASSINATION  
OF DONALD J. TRUMP

INTERVIEW OF: [REDACTED]

Friday, September 13, 2024

Butler, Pennsylvania

The interview in the above matter was held in  
person, commencing at 3:39 p.m.

APPEARANCES:

For the Majority Counsel:

[REDACTED], Task Force Majority Senior Counsel

[REDACTED], Task Force Majority Senior  
Professional Staff Member

For the Minority Counsel:

[REDACTED], Task Force Minority Investigative  
Counsel

[REDACTED], Task Force Minority, Congressional  
Research Service, Legislative Counsel

1 [REDACTED]: We are now on the record.  
2 Today is Friday, September 13, 2024, and this is a  
3 transcribed interview of Butler County Public  
4 Safety Technology Specialist, [REDACTED]. House  
5 Resolution 1367 directed this Task Force to  
6 investigate the facts and circumstances of the  
7 attempted assassination of Donald J. Trump on July  
8 13, 2024 in Butler, Pennsylvania.

9 Pursuant to House Resolution 1367,  
10 Chairman Kelly and Ranking Member Crow have  
11 requested this interview as part of the Task  
12 Force's investigation.

13 BY [REDACTED]:

14 Q. Can the witness please state their name and  
15 spell their last name for the record.

16 A. [REDACTED]

17 Q. Thank you, [REDACTED]. My name is [REDACTED]  
18 [REDACTED], and I'm a Senior Counsel with the Majority  
19 on the Task Force. I want to thank you for coming  
20 in today for this interview and making the time.  
21 We recognize that you're here voluntarily. You're  
22 allowed to have an attorney present to advise you  
23 during this interview.

24 Do you have an attorney representing you  
25 in a personal capacity today?

A. No.

[REDACTED]: All right. Next, starting with the Majority and then the Minority, can the additional Staff Members please introduce themselves with their name, title, and affiliation.

[REDACTED]: [REDACTED], Senior Professional Staff Member, Task Force Majority.

[REDACTED]: [REDACTED], Investigative Counsel for the Minority.

[REDACTED]: [REDACTED], Legislative Attorney with the Congressional Research Service supporting the Task Force.

[REDACTED]: Thank you, all.

BY [REDACTED]:

Q. [REDACTED], before we begin, I would like to just go over the ground rules for this interview. The way the interview will proceed as follows: The Majority and the Minority Staff will alternate asking you questions, 30 minutes per side per round until each side is finished with their questioning.

The Majority Staff will begin, will proceed for 30 minutes, and then the Minority Staff will also have 30 minutes to ask you questions. We'll then alternate back and forth in this manner until both sides have no more questions. If either

side is in the middle of a specific line of questions, they may choose to end a few minutes past the 30 minutes to ensure completion of their specific line of questioning, including any followups they may have.

In this interview, while one member of the Staff for each side may lead the questioning, additional Staff may ask questions from time to time. There is a court reporter taking down everything I say and everything that you say to make a written record of the interview.

For the record to be clear, please wait until the Staff Member questioning you has finished each question before you begin your answer, and the Staff Member will wait until you finish your response before proceeding to the next question.

Further, to ensure that the court reporter can properly record this interview, please speak clearly, concisely, and slowly. The court reporter cannot record nonverbal answers such as nodding or shaking your head, so it's important that you answer each question with an audible verbal answer; do you understand?

A. Yes.

Q. We want you to answer our questions in the

1 most complete and truthful manner possible, so we  
2 will take our time. If you have any questions or  
3 do not fully understand the question, please let us  
4 know, and we will attempt to clarify, add context  
5 to, or rephrase our questions; do you understand?

6 A. Yes.

7 Q. If we ask about specific conversations or  
8 events in the past and you're unable to recall the  
9 exact words or details, you should testify to the  
10 substance of those conversations or events to the  
11 best of your recollection.

12 If you recall only a part of a  
13 conversation or event, you should give us your best  
14 recollection of those events or parts of  
15 conversations that you do recall; do you  
16 understand?

17 A. Yes.

18 Q. And although you are here voluntarily and  
19 we will not swear you in -- you are not under oath  
20 -- you are required pursuant to 18 USC 1001 to  
21 answer questions from Congress truthfully. This  
22 also applies to questions posed by Congressional  
23 Staff in an interview; do you understand?

24 A. Yes.

25 Q. If at any time you knowing make false

statements, you could be subject to criminal prosecution; do you understand?

A. Yes.

Q. Is there any reason you are unable to provide truthful testimony in today's interview?

A. No.

Q. Please note that if you wish to assert a privilege over any statement today, that assertion must apply to the rules of the U.S. House of Representatives. For the Chair to consider assertions of privilege over testimony or statements, witnesses or entities must clearly state the specific privilege being asserted and the reason for the assertion on or before the scheduled date of testimony or appearance; do you understand?

A. Yes.

Q. Finally, I'd like to note that the content of what we discuss here today is confidential. We ask that you not speak about what we discuss here today in this interview to any outside individual in order to preserve the integrity of this investigation.

For these same reasons, the marked exhibits used today will be provided to the court reporter so that they may go in the official

transcript, and any copies of those exhibits will be returned to us when we wrap up.

We'll plan to take a five-minute break at the end of each 30 minutes of questioning. But if you need a longer break or a break before that, sir, please let us know and we'll be happy to accommodate you. However, to the extent that there's a pending question, we would just ask that you finish answering before we take the break; do you understand?

A. Yes.

Q. Okay. Do you have any other questions, sir, before we begin?

A. No.

[REDACTED]: Okay. The time is now 3:42 p.m., and Majority Staff will now begin its questioning.

#### EXAMINATION

BY [REDACTED]:

Q. How long have you been an employee of the Butler County Emergency Management?

A. Thirty-three years. I was a dispatcher supervisor for 27. I became the public safety technology specialist 6 years ago.

Q. Okay. And just separately for the record,

1 can you please just state your current role with  
2 Butler County.

3 A. Public safety technology specialist.

4 Q. What are your job responsibilities in that  
5 role?

6 A. I maintain the CAD System for the 911  
7 Center; I do all the GIS work for the 911 Center;  
8 and I maintain the radio system.

9 Q. Can you please, for the record, just  
10 explain what the CAD System and the GIS System are  
11 and what they do.

12 A. The CAD is the Computer-Aided Dispatch for  
13 the 911 Center. So I maintain all those records.  
14 The GIS is the Geological Information System that  
15 our system runs off of. I maintain all the maps  
16 and do all the uploads and maintain that. The  
17 radios, I maintain all of the 2400-user radios we  
18 have, and just updates and stuff like that.

19 Q. So you ensure maintenance with all pieces  
20 of technology that you just mentioned?

21 A. No. IT does that. I just make sure that  
22 the information is correct. You know, the CAD, I  
23 don't fix it. I'm not the IT person. I'm not  
24 going to go and fix the computer. I just make sure  
25 the data is correct.

1 Q. Does Butler have a separate IT group, sir?

2 A. They do.

3 Q. Okay. So they are responsible for the  
4 maintenance --

5 A. Yes.

6 Q. -- and keeping items up to date.

7 A. Yes.

8 Q. Okay; thank you. Let's move to advanced  
9 planning, sir. So before July 13.

10 A. Yes.

11 Q. So when did you first learn that Former  
12 President Trump was coming to Butler?

13 A. We were notified -- our office was  
14 notified, I believe, Friday of the pending meeting  
15 on Monday in Allegheny County with the Secret  
16 Service.

17 Q. Just for purposes of the record, sir, if I  
18 show you just a calendar of July 2024 --

19 A. So it would have been -- let me see, when  
20 was the 13th? So we were notified -- I was  
21 notified or found out about it on the 5th. And  
22 then I believe the first meeting that we had, all  
23 the groups were together with Allegheny County 911  
24 Center was Monday the 8th.

25 Q. Okay. Thank you, sir.

1 [REDACTED]: And just to be clear, you  
2 were at that meeting?

3 [REDACTED]: Yes.

4 BY [REDACTED]:

5 Q. Sir, how did you learn of it?

6 A. What, the event?

7 Q. That the former president -- yes -- was  
8 coming to Butler.

9 A. Actually, a couple people notified our  
10 office that it was on his web page.

11 Q. Who were those individuals that notified  
12 your office?

13 A. I believe it was just somebody local from  
14 one of the fire companies that just had seen it and  
15 asked us about it. And that was the first -- we  
16 actually heard about it on Wednesday. Then I  
17 believe that [REDACTED] -- Director [REDACTED] was  
18 officially notified on Friday about the Monday  
19 meeting.

20 Q. Did somebody specifically ask you, sir, to  
21 work the rally, or how did that come about?

22 A. That just came from our office. All the  
23 department people in the 911 Center or in the EOC  
24 side of it.

25 Q. Did you have a supervisor or anyone that

1       said, you know --

2           A.     Director [REDACTED].

3           Q.     Asked you?

4           A.     Yes.

5           Q.     Okay, sir.  Were you involved in any  
6       advanced planning for visit prior to July 13?

7           A.     Down at the meeting, we all -- there was  
8       four of us that attended from -- five of us in  
9       attendance in the EMA office.  We went down and  
10      attended the meeting.  It was just more of an  
11      informational where they just said, "Okay, EMA go  
12      with this group."  "Tactical people go with this  
13      group.  "Fire and EMS go with that group."

14                 They just kind of gave us a heads-up.  
15      They didn't really have a lot of information.  They  
16      brought up a Google map to show us the area.  It's  
17      like, "Well, we're all familiar with it.  You guys  
18      are the ones that aren't familiar with it."

19                 So it was -- we were there maybe an  
20      hour, and then we left from that meeting.  Then we  
21      were supposed to reconvene and have a walkthrough  
22      on Tuesday.

23           Q.     Thank you, sir, and we'll get back to all  
24      those details.  So for purposes of clarity for the  
25      record, can you please just clarify who is "they"

1 when you were mentioning.

2 A. For -- that went down to the -- with our  
3 group, the EMA? There was Director [REDACTED]; and  
4 then [REDACTED], the Deputy Director; our  
5 HAZMAT guy, [REDACTED]; and our EMA Planner, [REDACTED]  
6 [REDACTED]; and then myself.

7 Q. Who was holding this meeting?

8 A. The Secret Service.

9 Q. Who was present at this meeting beyond the  
10 Secret Service and EMA?

11 A. There was Allegheny County. There was  
12 local law enforcement. There was Lt. [REDACTED] from  
13 Butler Township Police. There was two  
14 representatives from the Butler County ESU. There  
15 was state police representatives. There was  
16 probably 50 people at the meeting.

17 Q. And who split you up and which group were  
18 you put into?

19 A. [REDACTED]. I believe she was the one  
20 that just said, "Okay, anybody with EMA go to this  
21 group." And then they just kind of went over the  
22 layout of it, what they thought was going to  
23 happen. There really wasn't a lot that transpired.

24 Q. Who is [REDACTED]?

25 A. She was with the Secret Service. She was

the one running the meeting.

[REDACTED]: Do you remember who led that EMA group?

[REDACTED] She did. [REDACTED] did.

[REDACTED]: Okay. So she ran the overall meeting and the EMA meeting.

[REDACTED]: Yeah. It was -- there was no "Let's go to a different room" type of thing. It was just, "Okay, come up here. Let's talk about the area. What do you think we should do for that," and they brought up a Google map of it. It's like, well, if these people never even been there -- they made recommendations like, "We can't really make any decisions until we see it tomorrow." So it's like, "Okay."

Q. So was [REDACTED] soliciting advice from you all at that juncture? It wasn't really a matter of the Secret Service telling you all?

A. No, just kind of sharing the information that they had so far. You know, when he was supposed to be there. The timeline he was supposed to arrive. And, you know, as far as the venue, the layout, no idea. They didn't know. That wasn't supposed to happen till Tuesday.

Q. Did [REDACTED] or anyone in the Secret

1 Service indicate that they would follow up with  
2 more concrete details after that date?

3 A. Yes. There was a scheduled meeting the  
4 next day. There was a walk-around. I believe it  
5 was at 10:00 at the actual farm show facility.

6 Q. And for purposes of clarity, that would be  
7 July 9th there was a walkthrough?

8 A. Correct.

9 Q. Was that the first walkthrough you  
10 participated in?

11 A. Yes.

12 Q. Did you work with Secret Service personnel  
13 or members of other law enforcement during this  
14 advanced planning stage?

15 A. I did not work with the Secret Service at  
16 all. The ESU, Butler ESU, I helped them with there  
17 -- I did their maps. All the maps that were  
18 created were all done by our office -- my office.  
19 And as far as the Secret Service, I didn't directly  
20 deal with them.

21 Q. You did the Butler ESU maps, sir?

22 A. I did -- well, the maps that were floating  
23 around the thing, I created all those.

24 Q. Okay, sir. Now, can you walk us through  
25 just a timeline of advanced planning? Did you have

1 any advanced planning meetings or anything else?

2 A. As far as the 911 Center, the emergency  
3 services, we had a meeting on Wednesday, just a  
4 staff meeting, just to kind of go over who was  
5 going to do what. I was put in charge of the  
6 county's Command Post, and that would have been on  
7 the -- I believe probably the 10th, the Wednesday.

8 Q. Wednesday the 10th.

9 A. And then [REDACTED] was put in as our EMA  
10 Planner. She was put in logistics. Deputy  
11 Director [REDACTED] was the EMS coordinator.  
12 Director [REDACTED] was going to be the overall  
13 commander, and he was going to be in the Secret  
14 Service security room.

15 Q. During this time of sort of advanced  
16 planning and your team coming together, was the  
17 Secret Service involved at all?

18 A. They were with Director [REDACTED] to the  
19 extent -- I mean, they had shared e-mails, but  
20 there was still nothing concrete that Wednesday of  
21 the actual layout. So I guess if we could go back  
22 to the Tuesday.

23 Q. The 9th.

24 A. Yeah, when we did the walkthrough, it was  
25 -- there wasn't quite as my people. [REDACTED]

was there. There was a couple other Secret Service people. There were several state police representatives, Director [REDACTED], Deputy Director [REDACTED], myself, [REDACTED] were there. It was still not a whole lot of information. There were still a lot of questions where they didn't really understand. They said that there was another group, Secret Service group with the motorcade, that had to make that decision. So there really wasn't any concrete decisions made that Tuesday.

Q. Okay. So if we could just drill down a bit more, sir, on what you just sort of went over. Were you concerned that so close to the date of the rally there were still no concrete plans in place?

A. Not personally. I guess -- I was involved in the 2020 when he was here before. And the timeframe from that was way shorter, so this didn't seem out of the ordinary. I mean -- so I'll have to go back to the 2020. We found out on a Tuesday, had a meeting with them Wednesday for an event on Saturday. So it didn't seem like it was that out of the ordinary.

Q. Did [REDACTED] inform you of when a final plan would be available for the team members

1 to review or --

2 A. Yes. Any information that he got, he would  
3 share with the rest of us when he got it.

4 Q. When was a final plan provided to you?

5 A. I never saw a final plan from the Secret  
6 Service. The only plan that we received was from  
7 Butler ESU.

8 Q. Okay. Did you receive any resource  
9 requests from the Secret Service or other law  
10 enforcement agencies related to the July 13 rally?

11 A. Just Butler ESU. I provided them with  
12 their maps, overviews of the area, but nothing from  
13 the Secret Service.

14 Q. Have you previously provided Butler ESU  
15 with similar maps in the past?

16 A. Yes. Actually, I'm part of the group.  
17 I've been with them for six years. And for the  
18 rally, I was the county employee. I did not  
19 participate with the ESU. So I had done all their  
20 mapping. Actually, I drive their armored vehicle.  
21 I've been doing that for six years for them. I'm  
22 well aware of how they operate, so I do all their  
23 technology for them. I do all their mapping. I do  
24 all their routes. And that's about it.

25 Q. And they're familiar with your work

1 products?

2 A. Yes.

3 Q. Okay, sir. Who else from Butler Emergency  
4 Management was on the advanced planning team?

5 A. All five of us.

6 Q. Can you just please explain for us the  
7 nature of resources a public safety technologist  
8 provides for an event like this?

9 A. Nothing out of the ordinary. I was put in  
10 charge of the Command Post, so I just made sure  
11 everything operated. We have mobile CAD terminals.  
12 We have mobile radios that actually -- it emulates  
13 a dispatch console on a computer that we used that  
14 day, and I just operated everything in the Command  
15 Post.

16 Q. And then two follow-up questions. When you  
17 say you were put in charge, what does that mean?

18 A. I was just the -- when they went down the  
19 planning stage, I was to operate -- I was to  
20 oversee the Command Post. The county's Command  
21 Post.

22 Q. So you were only able to listen into the  
23 County Command Post communications?

24 A. We were able to listen to all the  
25 communications except the Secret Service.

1 Q. Who was all a part of those communications?

2 A. We had a fire and EMS talk group that fire  
3 and EMS was on.

4 Q. Was that local, sir?

5 A. Yes. This was all county resources all  
6 through our county radio system. So we had split  
7 it down. At one of the planning meetings, we  
8 talked to fire and EMS. They agreed that they  
9 wanted to be on the same channel. It was going to  
10 be a hot day. They knew that they were going to  
11 have lots of -- just medical issues. They were on  
12 the same channel.

13 [REDACTED]: Do you remember what  
14 channel that was?

15 [REDACTED]: Yeah. It would have been, if  
16 you have the radio logs, it would be the Fire OPS  
17 6, is what fire and EMS was placed on. And then  
18 the local police, the Butler Township Police, they  
19 were doing perimeter outside -- just the local --  
20 taking care of traffic, you know, control points,  
21 they're on Police OPS 3. Then the ESU used Police  
22 OPS 4. And all the police channels are all  
23 encrypted, except for the fire and EMS.

24 BY [REDACTED]:

25 Q. Any issues that would have arisen at the

1 Command Post, what would you have done or what were  
2 your duties there?

3 A. We did have a couple. We had cell service  
4 problems. Our two CADs were at the mercy of the  
5 internet, and so was the radio system. So the --  
6 it's called a Motorola 7500. It's our -- it's a  
7 laptop, but it has -- it emulates the CAD dispatch  
8 that the dispatchers see. We're able to patch  
9 different channels together, we're able to tone  
10 units out, but we're at the mercy of the internet.

11 So we had internet problems that we were  
12 guaranteed that we weren't going to have. So those  
13 didn't work, but it really wasn't a problem because  
14 we still had six radios that covered all the  
15 channels. So those were just kind of like an  
16 extra. And as far as the CAD, we were just  
17 monitoring. We weren't really doing anything. We  
18 weren't receiving calls on the CAD.

19 If we had any remarks that we wanted to  
20 add to the CAD, our thought process, we could just  
21 do it ourselves. Anything we had to add, we just  
22 had to contact the 911 Center. They were seeing  
23 the same thing we were. They just added remarks  
24 for us. So we lost the internet for probably two  
25 hours.

1           Q.     Okay.  So I'd like to just finish with this  
2           particular line of questioning -- you were going to  
3           get to it later -- but just for purposes of staying  
4           on topic.  What point did you start to experience  
5           internet issues?  What time?

6           A.     I would say it was probably between -- it  
7           was after the gates opened at 1:00.  Probably from  
8           about 1:00 to probably about 4:30 we didn't have  
9           anything.  We didn't have any internet.

10          Q.     Who was your internet service provider?

11          A.     Well, that's the thing.  We have -- we've  
12          done it with Verizon, FirstNet -- which FirstNet is  
13          supposed to guarantee us.  We had -- the ESU  
14          commander had a FirstNet hotspot.  Nobody could get  
15          on.  I mean it was just -- actually, the Verizon  
16          cell service, we were able to make calls; the  
17          texting was delayed a little bit.  But as far as  
18          the 7500, that was an extra, and it really didn't  
19          affect the communications at all.

20          Q.     Did you try calling Verizon or FirstNet or  
21          remediating any of those service issues?

22          A.     We did go through our local IT person that  
23          runs the Cradlepoint, and they had -- everybody was  
24          -- there was issues all over.  We did not  
25          personally call, but the -- I know that they were

frustrated, and there was some issue with it.  
Because we were even led that -- we were told after  
the fact that even over at the Command Post -- the  
Secret Service Command Post, they were having  
internet problems, too.

Q. Did you attempt to get a different, a new  
hotspot? What was done to fix this problem?

A. That didn't really affect our operations.  
We still had the radios. We still had -- we still  
had a Plan B and a Plan C. So ours was seamless.  
We just contacted the 911 Center. They just made  
the remarks. They would have just taken them out  
of it, or we could have just made our own remarks.  
And, really, there wasn't that much added.

The communications, we still had mobile  
radios and portables, which we use anyway. There  
were seven of those in there. So we lost no  
communications. It was just the extra having the  
CAD System and the dispatch console.

Q. So is it your testimony today that you  
didn't lose anything by not having a CAD System --

A. No.

Q. -- for that period of time?

A. No. It didn't affect anything.

Q. So if you didn't have internet, what else

1 did that affect?

2 A. Just the text -- in the Command Center?  
3 Just those two functions.

4 Q. Okay. A few more questions, we will then  
5 turn to that day, sir. What types of technology  
6 are you responsible for?

7 A. For the CAD System? Maintaining the CAD,  
8 and then the radios -- the different radio systems.  
9 Then the GIS, which is -- it's really not a -- it's  
10 just a program. It just maintains all of the GIS  
11 data for the county.

12 Q. Then what about phone communications?

13 A. Phone communications, I don't do anything  
14 with phones.

15 Q. Okay.

16 A. My three functions are dispatch, the GIS,  
17 and the radios.

18 Q. Any involvement with any other technology  
19 that you haven't mentioned so far --

20 A. No.

21 Q. -- on July 13?

22 A. Those are my three functions.

23 Q. And then prior to July 13, you did do a  
24 walkthrough of the campaign rally location?

25 A. Yes.

1 Q. When?

2 A. So we met again on the Tuesday. I believe  
3 that was the 10th.

4 Q. Tuesday is the 9th.

5 A. The 9th. And then Wednesday we just had an  
6 internal meeting. Then Thursday there was the big  
7 walk-around where everybody was supposed to get  
8 together -- I mean all the groups. There was, I'd  
9 say, 75 people there, and we were all -- we all  
10 participated in that.

11 Q. Secret Service was at those walkthroughs?

12 A. Yes.

13 Q. Were they leading the walkthroughs?

14 A. No.

15 Q. Who was leading the walkthroughs?

16 A. It was -- to be honest, it was just kind of  
17 like everybody was just kind of hanging out. Like,  
18 the first meeting, "This group go here," "This  
19 group go there."

20 They kind of talked to a couple of us  
21 EMA. They were setting up the EMS resources. I  
22 know the ESU guys, they were off in their own  
23 little group. They never really said, "Hey, we  
24 want to go talk to you guys." But I never  
25 physically walked around, and I don't believe any

1 of our staff was taken around by the Secret  
2 Service.

3 Q. How did you think to yourself or how were  
4 you expected to, you know, perform your job duties  
5 from a technology standpoint if nobody was guiding  
6 you?

7 A. Well, we knew that we were going to run our  
8 Command Post and who was going to be in our Command  
9 Post. We had what we needed to have done with the  
10 group that we were covering, one hundred percent  
11 covering.

12 Q. Was the Secret Service aware of your plans,  
13 sir?

14 A. Yes.

15 Q. Did they sign off on them?

16 A. Well, that, I don't know. That would be a  
17 Director [REDACTED] question.

18 Q. Okay. So you did not personally inform the  
19 Secret Service of your plans?

20 A. No. They were aware that there was a  
21 second Command Post. They were the ones that  
22 approved where the other Command Post was going to  
23 be.

24 Q. So the Secret Service did approve, your  
25 understanding, via Director [REDACTED] the plan.

1           A.     Yes, they knew -- they knew that there was  
2     a second Command Post.

3           Q.     Okay, sir. Did you receive any specific  
4     requests from Butler ESU for communication or  
5     technology resources that were going to be used on  
6     July 13?

7           A.     Yes. All the radios -- we have an extra  
8     bank of radios. We had an extra 15 portable radios  
9     that were available to the assisting agencies that  
10    came in that we could give them, and we also had  
11    radios for the Secret Service.

12          Q.     Did any other law enforcement agencies have  
13    any specific requests for communication or  
14    technology?

15          A.     No, because they're all county agencies and  
16    have their own.

17          Q.     Okay. And then so were you aware there  
18    would be two Command Posts on July 13?

19          A.     Yes.

20          Q.     When did you become aware of that?

21          A.     I mean, early on Director [REDACTED] said  
22    that he was going to be in the Secret Service, and  
23    the Command Post would be down there and I was  
24    going to be running it.

25          Q.     Okay. So next question, which Command Post

1 were you in on July 13?

2 A. The county's Command Post.

3 Q. Did the Secret Service ever invite you to  
4 sit in their Command Post?

5 A. No.

6 Q. Did you ever ask the Secret Service if you  
7 could sit with them in their Command Post?

8 A. No. Director [REDACTED], that was where he  
9 was going. I was shipped to the County Command  
10 Post. I was just a laborer.

11 [REDACTED]: Did he ever say why he was  
12 going to be in that Command Post.

13 [REDACTED]: I know in the past visit he  
14 was the highest representative of it, and I wasn't  
15 going to question it. He's the boss.

16 BY [REDACTED]:

17 Q. Did any discussions of the AGR Building  
18 come up in advanced planning conversation?

19 A. Not that I was involved in. I mean, there  
20 was talks of different -- you know, when I made the  
21 maps, I received the maps from the ESU group. I  
22 put where the location of the snipers were going to  
23 be on those maps, so I was aware of where they were  
24 going to be.

25 Q. And somebody told you that snipers are

1 going to be there.

2 A. Yes.

3 Q. Were you aware of any conversations  
4 regarding what sort of day of communications  
5 between the Secret Service and local law  
6 enforcement would look like?

7 A. The only thing -- we were told that we had  
8 radios available by Commander [REDACTED] of the ESU. He  
9 was the one that was in direct contact with Secret  
10 Service. I was not. That he had made radios --  
11 portables available that they can come over and  
12 pick up.

13 Q. Were those radios ever picked up, sir?

14 A. No.

15 [REDACTED]: How many radios were set  
16 aside for them?

17 [REDACTED] We had 15 radios. We could  
18 have given them up to five radios. We had given  
19 the Beaver asset and the Washington asset, we gave  
20 those guys all portables, the extra that didn't  
21 have our frequencies. We still had five left over  
22 that Secret Service could have had.

23 [REDACTED]: Do you know who offered  
24 those up to them?

25 [REDACTED]: That would have been -- the

1 ESU side, the tactical side would have been all  
2 through Commander [REDACTED] So he made those contacts  
3 to give them the radios.

4 Now, the radios were, for the other  
5 groups -- Director [REDACTED] and myself did attend.  
6 The only one that we were invited to was the ESU  
7 briefing that morning. That's when those radios  
8 were distributed to the Beaver and the Washington  
9 groups.

10 BY [REDACTED]:

11 Q. So although the Secret Service never came  
12 to pick the radios up, was any attempt made to go  
13 drop them off?

14 A. No. Not from our -- that was not my gig.

15 Q. Was [REDACTED] aware that the radios  
16 were never picked up?

17 A. That was an arrangement made between the  
18 Butler ESU, and that was -- Director [REDACTED] was  
19 not in that at all. Our office wasn't involved in  
20 that. We were just going to make the radios  
21 available to them.

22 Q. Were you supposed to have any role in  
23 sharing information with the Secret Service?

24 A. That would be Director [REDACTED]

25 Q. Okay. So were you aware of any plans for

the Secret Service to use local law enforcement radios on July 13?

A. Yes. Through Commander [REDACTED]

Q. Okay. During the walkthroughs that you had described, who did you believe was in charge of coordinating all of the law enforcement entities?

A. I don't know, because there was a couple different things where our Command Post was going to be down by the FOP lodge. I remember that. So the staging for all the tactical units were supposed to be down there. That was kind of what was decided amongst there.

Then somewhere along the line it was brought up that the Trump campaign did not want the tactical units or the armor visible inside of -- they just didn't want the optics. So they removed, and then it was one of those things where -- I'm just a laborer. I didn't have the right to question it.

I just thought it was odd that nobody really sat down and said, "No, this isn't going to happen." "No, this isn't going to happen." They said, "We don't want the optics of that," and nobody ever really said, "Well, that's too bad." They just -- "Okay."

Q. Did you believe that the Secret Service was ultimately in charge?

A. That's where we were -- any contact or any meetings that were set up were set up by the Secret Service.

Q. During the advanced planning process, did you ever express any concerns to the Secret Service regarding planning or gaps or --

A. I had no direct contact that I ever spoke to the Secret Service. I was not -- I was down on the totem pole. That was not mine.

Q. Did you ever, you know, express concerns to [REDACTED]?

A. No. Because, once again, that was not his. The law enforcement side of it was not our -- we were there to assist them, we weren't there -- that's their department. That's their gig, not ours.

Q. Can you explain for us what your specific technology concerns were for July 13?

A. It would have just been the communications. I mean, the communications is the biggest. And as it was, every county asset -- every asset that was there, besides the Secret Service, could talk to each other.

1 Q. Okay. And how did you plan to address  
2 those concerns?

3 A. By offering them radios.

4 Q. So radios were the primary or solitary  
5 backup plan?

6 A. Yes. The radios were the one hundred  
7 percent reliable guaranteed to work. I mean, if  
8 every other thing failed, the radios would have  
9 continued on.

10 Q. Did you ask for assistance from anyone  
11 else?

12 A. No. We had -- we had plenty of resources  
13 to cover our own.

14 Q. Did the Secret Service provide Butler ESU's  
15 advanced planning team with any detailed  
16 information about what was needed?

17 A. I do not know that. That was -- I think  
18 you'd have to go with ESU for that.

19 Q. Did the Secret Service provide information  
20 about how to handle suspicious persons?

21 A. No, that was not -- there was nothing that  
22 was sent down to the Command Post on the county  
23 side of it. If that was shared with ESU, that  
24 would have been with ESU, not us.

25 Q. Sir, were you aware that the Secret Service

1 was planning to deploy any technology that would  
2 impact cell signal or service on July 13?

3 A. The only thing we were -- like 2020 that  
4 they were going to have the drone killing, where  
5 they could do the drone killer. That's the only  
6 thing that I was aware of.

7 Q. So just to clarify for the record, sir, for  
8 this particular July 13, 2024 rally, the only  
9 technology that you're aware that the Secret  
10 Service was deploying was a drone-killing  
11 technology?

12 A. Yeah. Where they could shut down a drone.

13 Q. What about any technology that would impact  
14 cellular service?

15 A. Nothing that was relayed to us, myself. I  
16 was not aware of any of that.

17 Q. So from our understanding, sir, and we've  
18 been told -- you know, again, still looking to  
19 gather facts -- this type of technology, from our  
20 understanding, was deployed by the Secret Service  
21 on July 13. Did you happen to hear about anything  
22 with respect to a blanket or anything like that  
23 that the Secret Service deployed for cell service?

24 A. They were -- they were in theirs. We were  
25 in ours. We had no talking back and forth then.

1 [REDACTED]: Have you heard anything  
2 about that post July 13?

3 [REDACTED]: The only thing that Director  
4 [REDACTED] had said, at one time the Secret Service  
5 guy himself was having trouble making connection to  
6 the internet to use his software for the drones.  
7 The timeframe of when that exactly happened, I do  
8 not know, but he did say that there was a point  
9 where he physically had to walk out of the building  
10 to try and get cell service to do whatever program  
11 he needed to do.

12 BY [REDACTED]:

13 Q. And did the Secret Service have any type of  
14 approval process for the agency's Ops plan?

15 A. Not that I was privy to. That would have  
16 all been through Butler ESU.

17 [REDACTED]: Okay. My time is winding  
18 down, sir, and before we move to the day of the  
19 campaign rally, I'd like to just turn it over for  
20 the Minority to begin their round.

21 [REDACTED]: Are you fine with  
22 continuing, sir?

23 [REDACTED]: Sure. I'm fine.  
24  
25

## EXAMINATION

BY [REDACTED]:

Q. I'm going to rehash some of the points that my colleagues have covered, but it will be more efficient because they've covered it. Do you have any prior military experience?

A. I do not.

Q. Did you have any professional experiences prior to the experiences that you've already covered?

A. No. I've been with the -- been in public safety for 45 years. I've been with the county for 33 years, so, no.

Q. What did you do before joining the county?

A. I was a paramedic with an ambulance service for ten years.

Q. You've described [REDACTED] as the boss.

A. He's our director. He's the director of the 911 Center, Butler County Emergency Services.

Q. What would your typical interactions with him be like as far as how did you report to him? What did you have to do in relation to him?

A. When we had our staff meetings -- I mean, he was good about -- I mean, if he would -- he was

1 the main contact for all the e-mails. I didn't  
2 receive any e-mails. If he got something, he would  
3 let all the staff know. I mean, anything that  
4 pertained to the communications that day -- radios,  
5 mapping -- if it was something that concerned me,  
6 he would walk two doors down and we'd talk about  
7 it.

8 Q. All right. You mentioned that as part of  
9 your role with the Butler County ESU, you created  
10 their maps?

11 A. Yes.

12 Q. Would it be fair to generally say that any  
13 maps that would have been a part of the Ops plan,  
14 you created?

15 A. Yes. The two that have been floating  
16 around with like the grid map, I created those.

17 Q. Are you aware of the maps that they use for  
18 the presentation to the Congress Members?

19 A. I believe they were mine. I don't know of  
20 anybody else that made maps. Because, originally,  
21 even -- we went to a state police briefing, and  
22 they thought that the Secret Service did it. They  
23 were like -- the people that were present like,  
24 "No, he made those."

25 When we had an after action with them,

1       they had -- we printed -- I printed wall maps out  
2       for the five different groups. Printed individual  
3       maps, laminated for all the ESU people, and they  
4       just thought that the Secret Service had made that.  
5       They were like, "No, they didn't make those."

6       Q.     You mentioned participating in the meeting  
7       on July 8th, then participating in the walkthrough  
8       on July 9th, and then a walkthrough on July 11th.  
9       Was that the extent of your participation and  
10      planning?

11      A.     Yes.

12      Q.     Did you interact with Pennsylvania State  
13      Police in any of those meetings?

14      A.     No. My whole role in those meetings was  
15      where the Command Post was going to be located, and  
16      any logistics we needed for the Command Post.

17      Q.     What were you expected to do while in the  
18      Command Post?

19      A.     I just -- I oversaw, made sure everything  
20      was working. I assisted. I actually stayed with  
21      the two ESU commanders in the back portion of it.  
22      And I just -- between Commander [REDACTED] and myself, we  
23      just went back and forth between the -- when we  
24      still had the console that was connected to the  
25      internet.

Once it went to portables and mobiles, he did the ESU side, Commander [REDACTED] did the Police OPS 3 side -- Police OPS 3 and Police OPS 4, they did those channels -- and then we had another individual for fire and EMS representatives, so I just made sure everything continued to click along.

Q. And in relation to the size of this room, about how large is the ESU trailer?

A. I believe the trailer's 38 foot long and it's 8 foot wide and there's a tip out. It's compartmented into three sections. The front section is a small little conference room. Then the middle section has the tip out, and there's four dispatch positions in there. Then there's a third section in the back that has two more positions, and that's where the ESU and the law enforcement was in that back section. That's where I was at.

Q. Just for the record, we're in a room that can comfortably fit about a 10-person table.

A. No. The three of us in the back section of it, there wasn't a lot of room to move around. It's not like I had to holler on the other side of a room to get them. We were within two feet of each other the entire day.

1 Q. Were there separate rooms?

2 A. Yes, but there was -- there was a doorway,  
3 but they were never closed. The middle section,  
4 the sheriff's department was in there, and they  
5 came later in the afternoon. They had their own  
6 radio, and the fire and EMS were using two of the  
7 radios in the center part of it. But the law  
8 enforcement, ESU, we were all in the back section.  
9 Then the front conference room, there was nothing.  
10 There was nothing in that section.

11 Q. And were you listening to -- well, put it  
12 another way. How many radio channels were you  
13 listening to that day?

14 A. In the back section, we were listening to  
15 the -- for the event that day, we were listening to  
16 3 -- Channels 3 and 4. I was able to monitor them  
17 both. ■ -- Commander ■ and Commander ■,  
18 he had -- was dedicated to nothing but 3, and ■  
19 was nothing but Channel 4, and I was just able to  
20 listen to both of them.

21 Q. What was your understanding as to how the  
22 Butler County trailer was supposed to interact with  
23 the Secret Service security room?

24 A. We had no interaction. We had no direct  
25 communications. All communications that were done

through Commander [REDACTED] and [REDACTED] were all done by cellphone.

Q. Did you have a conversation with [REDACTED] [REDACTED] about what your role would be inside the trailer?

A. He -- we were -- well, we were well aware of what we were going to do. Just oversee the Command Post.

Q. So how did he describe what you should be doing?

A. I guess I really don't know how to answer that. I mean, he knows that the communication side is my gig, and he didn't really question it.

Q. Have you previously been a part of command posts?

A. Yes. And I was a supervisor at the 911 Center for -- out of the 27 years dispatch, I was a supervisor for 18 years of it. For 18 years I was supervisor in dispatch. I was a working supervisor.

Q. Have you been a part of prior presidential rallies?

A. I was involved in the 2020, but I was not in the Command Post -- that Command Post in 2020.

Q. So was this your first time in a command

1 post for a political rally?

2 A. Yes.

3 Q. Were there any discussions about what you  
4 should do that might be different from your  
5 day-to-day?

6 A. No. I mean, what the ESU and what the  
7 local police requested was no different a mission  
8 than our day-to-day. It was just -- it was no  
9 different than us going out on an operation with  
10 the ESU. It was -- everybody knew what their job  
11 was. We were prepared to handle what they couldn't  
12 do with the radios, technology, track. Whatever  
13 they needed done.

14 Q. Have you had experience with participating  
15 in a mission with two command posts?

16 A. No. That just -- that really shouldn't  
17 happen.

18 Q. Well, going into it, did you know that that  
19 shouldn't happen?

20 A. Yes. I mean, I've been involved in  
21 emergency services for four years. There's one  
22 thing that's causing this high command. 2020,  
23 there was Director [REDACTED], Commander [REDACTED], the  
24 fire chief and the fire department that I run with,  
25 and the ESU commander were in the Secret Service

1 Command Post. Everybody -- I guess the biggest  
2 thing was it was odd, but the whole scenario was  
3 odd. He wasn't a sitting president. He wasn't  
4 even the nominee, so nobody really questioned it  
5 because -- is this normal or isn't this normal.

6 Nobody could give that -- nobody come  
7 out and said, "Well, this is normal. Don't worry  
8 about it." And the question -- I mean, nobody  
9 really -- I mean, we didn't -- I didn't question  
10 it. Whether Director [REDACTED] did, you'd have to  
11 ask him. But I know 2020 was a totally different  
12 scenario as opposed to this one.

13 Q. So you just said there shouldn't be --  
14 pretty confidently -- that that should not be.

15 A. Yeah, I mean. That's -- that is -- you're  
16 learning that -- basically, but, once again, that  
17 whole scenario was, we didn't -- we weren't -- as  
18 far as I knew, we weren't invited. You'd have to  
19 talk to Commander [REDACTED] about that. I know that  
20 those guys were not asked to be in there. So they  
21 just said, "Okay, they're going to have the County  
22 Command Post there. We'll go down and run our  
23 operations out of the County Command Post. We're  
24 familiar with it."

25 Q. Did you ever flag your concern with anyone?

1           A.    No, because, once again, the scenario has  
2           never come up, and it was -- we were just taking it  
3           more of, that was the Command Center -- and there's  
4           been times where there's a Command Center, but  
5           there's also operations. We just happen to do the  
6           operations -- the police operations and the EMS  
7           operations out of a different Command Post, instead  
8           of that room.

9                       To be honest, I don't know how it would  
10          have functioned. As busy as they were with EMS,  
11          they would have been overburdened listening to  
12          that. You know, it was a 92-degree day. It was  
13          hot. So, no, nobody questioned it.

14          Q.    When you said you don't know how it would  
15          have functioned, are you saying if there was one  
16          Command Post?

17          A.    Yeah. I mean, it would have been tough  
18          that day to have everybody in that -- I mean, with  
19          the fire and EMS in that room. They would have had  
20          to just -- fire and EMS, they needed an operation  
21          thing. They still would have done operations.  
22          There would have been a commander in there, which  
23          should have happened, and then your operations.

24                       So that's kind of, I think, the  
25          direction that Commander [REDACTED] and [REDACTED] -- they

weren't invited into the Secret Service. So, like, "We'll run our operations. We'll just do it out of your Command Post." "We'll do it out of the County Command Post." They're familiar with it. We've used it before. We use it on, you know, any call-outs we get for barricaded people. Anything like that, we use the County Command Post, so they're familiar with it.

Q. Three follow-up questions, and they're a bit unrelated, but they are related to that. So the first question, operations versus command posts, what's the difference?

A. The commanders -- so [REDACTED] was the commander of the tactical teams that day. So you have a tactical -- you have an overall commander, and then you have -- you might have operations chief. You know, say, "Okay, there's two different sectors. You're going to be the operations chief for these." Those guys are -- they're actually the ones out -- like the team leaders. That's the operations side of it.

So Commander [REDACTED] was the operations commander at that command. There was -- I'm sure you talked to [REDACTED] and [REDACTED]. Those guys were the team leaders. Those were the -- that was

the operations side of it. When they were not in the Command Post, the commander just moved in the Command Post and ran everything out of that.

So I guess if he would have been in the -- if he would have been in the Secret Service Command Post, he would have more or less been monitoring it, and the operation -- he would not have been running the operations, you know, from the other. He would have let the team leaders -- which they did -- but everything came through him through the operations side of it. There was no -- like [REDACTED] did not run the EMS operations. He did not run the local PD. He was just -- his overall was EMA.

Q. What's his role if he's not running anything?

A. He's the Director of Emergency Management for the County of Butler, so he's the overall commander of the EMA.

Q. But when you say he's not running anything, then what is he doing during the rally?

A. He's just -- he is there to represent all of the county assets. If there was any county assets, anything that needed to be with the county, he was the one that was going to make that

1 decision.

2 Q. But that explanation would sort of say that  
3 he could just sit there and do nothing. So my  
4 question is what is he actually doing during the  
5 rally?

6 A. I don't know that.

7 Q. Well, I mean, you've explained what a  
8 Command Post would be doing.

9 A. Yeah.

10 Q. But what should someone in the Command Post  
11 be doing?

12 A. Doing -- I mean, so the Command Post was  
13 doing the operations. We were more of an  
14 operations Command Post, so they were taking  
15 fielding questions. What they did at the Secret  
16 Service, I have no idea. I was not privy to do it.  
17 I was never there. Never asked to be there.  
18 Haven't talked to anybody that was even there.

19 Q. So putting aside July 13th, understanding  
20 that you were not in that Command Post --

21 A. Correct.

22 Q. -- you said you have been in other command  
23 posts.

24 A. Yes.

25 Q. What should people in command posts do

1       inside of a command post?

2           A.     So there would be -- [REDACTED] could be like  
3       the overall commander of that incident.  If he was  
4       the overall incident commander -- there's an  
5       overall incident commander, and then there's a  
6       group that would be in charge of the police side of  
7       it.

8                     Like that day, there was -- the fire  
9       chief was in charge of the fire and EMS side.  
10      There was a sergeant for the sheriff's department  
11      who was in charge of the sheriff deputies.  Then  
12      Commander [REDACTED] was in charge of the ESU.  They ran  
13      the operations.  I just oversaw any technology they  
14      needed.  So the actual commander, they were the  
15      actual commanders in there.  So it was not the  
16      norm.

17           Q.     Okay, I don't want to -- what I'm trying to  
18      have you explain to me is, functionally, what is  
19      the difference between somebody's duties in an  
20      operations room versus in a command post, because  
21      it sounds like they do the same thing.

22           A.     They do.

23           Q.     Okay.

24           A.     But they were just separate.  So, you know,  
25      if they would have all been in the same room,

Director [REDACTED] still would have oversaw all the county assets. There would have been -- there just wouldn't have been a second command post. They would have just talked to -- so it's not a middle man, but Director [REDACTED] did not do anything with the police side. I mean, he monitored it, but he wasn't the overall commander of it. Commander [REDACTED] and they were.

Q. So, in other words, you take the people in the other -- the ESU trailer, they're -- and the Secret Service security room, they are functionally doing the same thing. Nothing changes?

A. Correct. They just weren't in the same room.

Q. In your experience, you are familiar with missions at which there is a command post and an operations room?

A. No. Ours is a unified command where everybody is in the same room. That's it.

Q. Okay. I thought I heard you say that there have been times there is a separate space for operations.

A. Within the trailer. Not two different ones on the other side of the -- of the -- I mean, they were 400 feet apart, 500 feet apart.

1 Q. Okay.

2 A. I mean, they would have been -- they could  
3 have been in the same trailer, they could have been  
4 in the conference room, but it was -- it's -- you  
5 could have walked over and done a face-to-face.  
6 You wouldn't have been calling somebody on the  
7 telephone.

8 Q. So given that the two post setup was an  
9 anomaly, something that yourself and others are not  
10 familiar with --

11 A. It's not that we weren't familiar with it,  
12 it just wasn't the standard.

13 Q. You were not -- you had not personally  
14 experienced --

15 A. No.

16 Q. -- two command posts, so you're not  
17 personally familiar with it.

18 A. Correct.

19 Q. Was there ever a conversation you were  
20 involved in and say like, "Hey, this is new to me.  
21 What should we be doing with two command posts"?

22 A. No. Because the reason it wasn't  
23 questioned was there was just so many oddities of  
24 -- you know, the question was, this wasn't the way  
25 it was in 2020. Those five people were in the same

command post where only one of them was in the Secret Service, and, to my knowledge, that's all that was invited in there. Commander [REDACTED] the sheriff, or even our local sheriff, I don't believe were invited to be in the secure room or whatever they call it. So when that happened, they're like, "We'll just do the operations out of the counter trailer."

Q. And in 2020, were you and [REDACTED] in the same space?

A. [REDACTED] was the only one there from the county. Commander [REDACTED] was there for the ESU. I was there for the original planning for the fire and EMS, but the fire chief was actually in there that day. The local Penn Township Police were there. That was it. But there was a representative from each agency in that Command Post.

Q. But there was only one representative from emergency services?

A. Correct; yes.

Q. So did anything occur to you as to why there would be emergency services in both posts?

A. No. Well, I just fell into that thing of somebody had to run the County Command Post, so

1       that job came to me.

2           Q.     So I guess -- let me ask it this way: What  
3       role would you serve that [REDACTED] could not  
4       serve? Like what are you doing in --

5           A.     We did the same thing, except there was two  
6       different -- we couldn't both be in the same place.  
7       So he couldn't -- if he was there, he couldn't be  
8       down at the other one, so I was tasked to do the  
9       second one.

10          Q.     Why does he need to be at the other one?  
11       Like, why would there need to be another person?

12          A.     That would be -- you'd have to ask the  
13       Secret Service.

14          Q.     Well, I'm asking you. So you guys as an  
15       entity, you decided in 2020 you only needed one  
16       person.

17          A.     That was the Secret Service's decision.  
18       That wasn't us. That was who was tasked to be in  
19       there that day, and he was asked to be in the  
20       secure room. The other agencies were not, so they  
21       said, "We can use the County Command Post. Those  
22       operations side were put to the Command Posts. He  
23       was in there. He was already -- that was his --  
24       his role was to be in there. I was tasked to run  
25       the second one.

1 Q. And who tasked you to run the second one?

2 A. Director [REDACTED].

3 Q. So not Secret Service?

4 A. Correct.

5 Q. And did you have an understanding as to why  
6 you were needed in the trailer?

7 A. Yes. To run the Command Post.

8 Q. But what does that mean?

9 A. I mean, I'm not sure where you're -- where  
10 we're going with that. I mean, I did explain it  
11 before. I oversaw the operations to make sure that  
12 -- anything that they needed. I did not personally  
13 run the ESU side of it. I did not personally run  
14 the fire and EMS side of it. I just made sure that  
15 all the county assets in the trailer were available  
16 to them. So I did not make -- if there was a  
17 County EMA decision, I would call Director  
18 [REDACTED].

19 So as far as the operations side of it,  
20 I made sure that the Butler County ESU, the Butler  
21 County Police, the Butler County Sheriff, and the  
22 fire and EMS had everything they needed available  
23 to them in the Command Post. I did not tell them  
24 how to run their operations. I was just there to  
25 make sure that the operations of the trailer, the

1       communications, and the technology functioned.

2       Q.     So once you -- let's say you show up in the  
3 morning, and you make sure everything was there.

4       A.     I was there four hours ahead of everybody  
5 else to get to the trailer to make sure everything  
6 was up and functioning.

7       Q.     Why would there be a need to stay in the  
8 trailer once you make a determination that they  
9 have the resources?

10      A.     To troubleshoot it if there was a problem  
11 throughout the day.

12      Q.     Couldn't they call [REDACTED]?

13      A.     No. He was on the other side of the thing.  
14 There was no way that he could get down there to  
15 troubleshoot a problem.

16      Q.     They couldn't call them?

17      A.     They could call him, but he can't fix it.  
18 He's not physically there to fix it.

19      Q.     Okay. But couldn't he send you or someone  
20 else if there was an issue to then go fix it?

21      A.     He could have, but it was just easier.  
22 "You're available. You stay there and monitor the  
23 Command Post. If they have any problems, take care  
24 of it."

25      Q.     So, in your head, there was never a logic

1 of using you and [REDACTED] as a bridge  
2 between trailers?

3 A. No, because he was still there -- if there  
4 was an EMA question that came up, I would have  
5 called him, but during that day there was not one  
6 emergency management question that come up. There  
7 was fire and EMS problems, there was ESU problems,  
8 and was police problems. They handled them through  
9 their contacts directly.

10 Q. You said earlier -- and I'm switching gears  
11 a bit. You said earlier that the Beaver County  
12 snipers were given radios. We were told that they  
13 picked up their radios.

14 A. Yeah. At the briefing, they all got --  
15 they got their radios.

16 Q. Okay. So at the briefing, because --

17 A. Well, they were in the trailer, so as soon  
18 as the briefing was done, their commanders come  
19 over, signed out the radios, and they took their  
20 radios. Same thing with Washington.

21 Q. Did you directly see that yourself?

22 A. Yes. Yes. Actually, we have a log that  
23 they sign them out.

24 Q. I understand that there's a log, but did  
25 you see it personally?

1           A.     I was the one that had the log in my hand.

2           Q.     Okay. And did you hear [REDACTED] offer radios  
3 to Secret Service?

4           A.     No, that was -- he said that the night  
5 before he had had the contact -- he had contact  
6 with the Secret Service, that he made the radios  
7 available to them, that they would pick them up on  
8 Saturday.

9           Q.     But you did not personally --

10          A.     No, I had no contact directly with the  
11 Secret Service.

12          Q.     When everything starts happening with the  
13 search of the suspicious person, you were still in  
14 the trailer; right?

15          A.     Oh, yes.

16          Q.     Do you recall there being any issues with  
17 communicating between the two trailers?

18          A.     No. Well, it was all done by phone.  
19 Because as soon as they received the picture, it  
20 was immediately given out to the local police on  
21 the Police OPS 3. Commander [REDACTED] immediately gave  
22 it out. Commander [REDACTED] immediately contacted his  
23 PSP contact in the secure room, and he actually got  
24 a busy signal. I went with a backup contact that  
25 we had, notified him. But in the meantime, he had

made -- so there was maybe 40 seconds for them to make the phone call to -- I believe it's Sgt.

of the Pennsylvania State Police. So that was all done by cellphones, and the cellphone service, they were able to get the phone call. The phone call went through.

Q. So in that scenario in which there was a 40-second delay, you said you went to a backup or --

A. No, no. He tried to call and got a busy signal.

Q. Right.

A. So it was about 40 seconds after they got the picture. They transmitted on the radio first to the ESU guys, to the local police, and then immediately went to -- he went to contact to let know from the state police. And then -- he originally got a busy signal. I went to my backup.

While I was talking to the second contact, Sgt. of the Pennsylvania State Police, he got through to . So there was -- there wasn't really a large issue more than maybe 20, 30 seconds.

Q. Where was Sgt. ?

1           A.    He was just out on the -- he was just out  
2           -- he was one of the patrol sergeants that was out  
3           within the crowd.  Actually, I could physically see  
4           him in the crowd -- the perimeter of the crowd from  
5           the Command Post on the camera.

6           Q.    So when [REDACTED] gets the busy signal, why did  
7           you reach out to him?  Why did you reach out to  
8           [REDACTED]?

9           A.    Because [REDACTED], he didn't get through to  
10          him immediately.  So instead of waiting, I  
11          immediately called [REDACTED].  While I was on the  
12          phone with [REDACTED] giving him the information,  
13          [REDACTED] called [REDACTED] right back, and the information  
14          was given.

15          Q.    In that scenario, why not just reach out to  
16          [REDACTED]?

17          A.    Because [REDACTED] was not the law enforcement  
18          side of that.  [REDACTED] was the one that was in  
19          charge of it.  The PSP was doing the perimeter.  
20          [REDACTED] was the contact for the state police.

21          Q.    But you're not law enforcement either;  
22          right?

23          A.    No.  I just -- I helped them out because  
24          they were busy.

25          Q.    Right.

1           A.     So I was there to back them up, whatever I  
2           needed to do. So I just made that phone call to  
3           ██████████, and that was really the only phone call I  
4           made that day. Now, ██████████ had made -- he contacted,  
5           like, the other teams later in the evening, but  
6           that was just after ██████████ exited out of the  
7           contact with ██████████. I said, "I can physically  
8           see him. I'll call him." But within me even  
9           talking to him 15, 20 seconds, he was able to get  
10          through to ██████████, and that was it.

11          Q.     So in that scenario, ██████████ is trying to  
12          get in touch with ██████████ who is in the Secret  
13          Service room.

14          A.     Yes.

15          Q.     And ██████████ is also in that room.

16          A.     Yes.

17          Q.     And you see someone outside who is not in  
18          that room, and you decided to reach -- to contact  
19          that person instead of ██████████?

20          A.     Because ██████████ -- I wasn't a hundred -- I  
21          don't even know where ██████████ I take it,  
22          was up there. ██████████ was our contact. That was  
23          what was decided between the ESU and PSP, was  
24          ██████████ was our contact. That's who we needed to  
25          call. State police, not Director ██████████.

Director [REDACTED] was there for EMA issues. So [REDACTED] was the state police contact that was predesignated with the Butler ESU --

Q. Right.

A. -- and the police. State police. Not Director [REDACTED]. Director [REDACTED] was not a cop. So that information was just relaying that information. When he couldn't get through to [REDACTED] to [REDACTED] -- but there was like -- it ended up being not an issue because he called him right back. The information was given immediately to [REDACTED].

Q. So aside from that scenario in which [REDACTED] got a busy signal, in every other instance that you witnessed there was an immediate connection to Sgt. [REDACTED]?

A. Yes. We were busy with monitoring radio traffic, so I did not sit there and personally listen to every phone call that [REDACTED] made. I was concentrating on the radio -- the overflow for the radios. So I don't know who he called other than that, but I know when the -- when the picture was first given out, [REDACTED] was contacted immediately.

Q. But --

A. That was his -- after he gave it out on the

ESU team frequency, he immediately called [REDACTED]

Q. So you're not aware of any instances in which there was a delay communicating with the Secret Service phones?

A. At the Command Post?

Q. Yeah, while you were in the trailer or the Command Post.

A. I don't know of any direct contact with the Secret Service. That was done through all the -- the ESU --

Q. The Secret Service Post, so Pennsylvania State Police while inside the Secret Service Post.

A. No. When we talked to [REDACTED], I don't know of any other problems getting ahold of [REDACTED].

Q. Okay. So as far as you're concerned, as far as your personal experience, the two separate posts did not create a communication issue between [REDACTED] and [REDACTED]?

A. There was a slight delay. There is nothing better than me walking across the room and having a face-to-face with somebody.

Q. But you said there was no delays except for the one busy signal.

A. I'm saying picking up the phone and making a phone call, there is going to be a delay. And if

1       this is me saying -- turning around and saying in  
2       another room saying, "Hey, this is the problem."  
3       You have to call on the phone. That's a delay.  
4       That's what I'm calling a delay, and it's not more  
5       than 15, 20 seconds of picking your phone up and  
6       making a phone call. It's not -- it's better to  
7       have a face-to-face. That was not there. It was  
8       not going to happen. We had to make a phone call.

9       Q.     So is it a race between how quickly you can  
10      make a call versus walking to another room?

11      A.     Yeah, but that room was on the other side  
12      of the complex, six, seven hundred feet away.

13      Q.     Right, but in a scenario in which everyone  
14      is inside the same command post but there are in  
15      different rooms, they might have to walk to a  
16      different room as opposed to making a call, is what  
17      you're saying.

18      A.     Exactly. I mean, if I had to walk out that  
19      door to the boxes, it's way simpler than making a  
20      phone call.

21      Q.     Simpler, but is it faster?

22      A.     Yes. Absolutely.

23      Q.     Why do you say that so confidently?

24      A.     Because all I have to do is open that door  
25      and talk to somebody as opposed to calling on a

1 cellphone and maybe getting a busy signal.

2 Q. But if you don't get a busy signal -- but  
3 you said there was only one instance in which there  
4 was a busy signal.

5 A. Yeah. And there was -- you know, that was  
6 10, 15, 20 seconds.

7 Q. One time.

8 A. Yes. That I was aware of.

9 Q. Under normal circumstances, if you make  
10 phone call, how long does it take you to connect  
11 your call?

12 A. Ten seconds. I mean, there was -- I mean,  
13 the phone -- it was wild because they were having  
14 trouble sending text messages, but some of the --  
15 people that were on Verizon were ongoing through.  
16 I know some of the ESU groups, when they were  
17 sending the picture out, some services got it, some  
18 didn't get it. But at the end of the day, a  
19 face-to-face is better than talking to somebody on  
20 a cellphone.

21 Q. Right.

22 A. That would be my preferred communications  
23 all day long.

24 Q. But as far as you're concerned -- and mind  
25 you, we've spoken to other people about this,

including [REDACTED]

A. Yes.

Q. As far as you're concerned, the communication between [REDACTED] and [REDACTED] was not delayed because of them being in different posts -- putting aside your preference for face-to-face.

A. I mean, the circumstances that were given, no.

Q. Okay. I'm going to scan quickly so see if I have any other questions. I guess one thing. So I understand you saying that [REDACTED] was not law enforcement.

A. Correct.

Q. But then you were also not law enforcement.

A. I am --

Q. In that capacity.

A. Being a dispatcher, I have all the PSP security clearances where I am authorized to give police information out. I can receive police information. I can do NCIC information. I was a dispatcher. I still maintain those credentials on the CAD side. I have to have that to be able to work on the CAD. I have credentialing instituted with the state police that I have to do to keep up, and also NCIC. I am not an officer, but I am

1 permitted to give law enforcement information out.

2 Q. Is [REDACTED] not?

3 A. No, he is not. He's the director. I don't  
4 know of any director that does. I mean, that's --  
5 that's a CAD issue. Those are credentials that we  
6 had to have as a dispatcher, as a supervisor, and  
7 I've had to maintain those because I have access to  
8 the CAD. He has access to the CAD, but he's locked  
9 out of that side of it, so he doesn't use it.

10 [REDACTED]: I think we can wrap up, I  
11 want to see if my -- do you have anything?

12 [REDACTED]: No.

13 [REDACTED]: So my final question to  
14 you -- and I don't think I need to come back.

15 [REDACTED]: Okay.

16 BY [REDACTED]:

17 Q. In an all-hands-on-deck situation in which  
18 [REDACTED] -- and I understand he didn't -- but if he  
19 had issues with reaching Sgt. [REDACTED], and you had  
20 an opportunity to help by reaching out to [REDACTED]  
21 [REDACTED], you say you still would not?

22 A. Yes. If there was no way that we could  
23 have got -- but the mechanism we had to get -- see,  
24 we did not have direct communication with the state  
25 police. By calling [REDACTED], he could have picked

the state police radio up and talked to [REDACTED] directly. That would have been the first line the communication. That's why we did that. We did not have -- we don't have the state police frequencies. They have us locked out where we -- we had one portable to monitor the motorcade, which we never heard one thing on the entire day. The radio actually went out of range.

The portable that they supplied us, we never heard anything on it the entire day. So by calling [REDACTED], he -- by calling [REDACTED], he could have picked his radio up and contacted [REDACTED] instantly. He wouldn't have made another phone call to [REDACTED].

If [REDACTED] was talking on the phone, [REDACTED] could have picked his radio up and called [REDACTED] direct and gave it. That's why we went to [REDACTED]. The first one was for [REDACTED] to call them on the phone. When he couldn't do it, I went to [REDACTED], because I knew [REDACTED] could pick his radio up and call [REDACTED] in a second.

Q. Wouldn't [REDACTED] have been face to face, which is better?

A. He didn't have a radio. He doesn't have a radio contact with the state -- he did not have

anything to do with the state police radio.

Q. Right. But if you have a radio and you communicate with [REDACTED], he is now face to face with [REDACTED]. No?

A. [REDACTED], he had one portable radio, which was transmitting the majority of the time. I don't know what he was specifically on, but he was probably on the fire EMS side. He would have never heard us call. We could have called all day long. We had six radios monitoring every channel. They had one portable to manage those six. If you guys got the printouts from the 911 Center, so you saw there's 5900 transmissions in a 24-hour -- I think from that half-hour period, there was 1900 transmissions.

Q. So you could not reach him, is what you're saying.

A. Well, I could have not reached him on a radio. Where the state police had their own frequency, [REDACTED] could have picked his radio up and called [REDACTED], and [REDACTED] would have answered that radio over his phone call. I guarantee he would have answered his phone call.

Q. So I just want to confirm then. So you were not able to contact [REDACTED]; is that

1        what you're saying?

2            A.     Correct. I was not -- and, you know, the  
3        law enforcement side of that, that needed to go  
4        through PSP. Director [REDACTED] was not going to  
5        tell -- go straight to the horse's mouth. Why go  
6        to Director [REDACTED] for him to walk down to tell  
7        the state police when you could contact the state  
8        police direct? I mean, why would I tell him  
9        something that I needed you to know?

10        [REDACTED]: Okay. I don't have any  
11        further questions. We can go off the record.

12                    (Off the record.)

13        [REDACTED]: Majority is beginning round  
14        two.

15                    EXAMINATION

16        BY [REDACTED]:

17            Q.     Sir, going to the day of the campaign  
18        rally, can you just walk us through any morning  
19        briefings you participated in?

20            A.     The only one that we were invited to,  
21        myself and Director [REDACTED] went to the Butler  
22        County ESU briefing. I believe it was at 9:00 at  
23        the Brady Paul Lodge.

24            Q.     And then who was present there?

25            A.     The only people outside of the ESU folks

was Director [REDACTED] and myself.

Q. Was there any information discussed about known or suspected threats towards Former President Trump discussed during the briefing?

A. No. It was the mission briefing for that day, with the three things that they were tasked to do, the assignments, and kind of a timeline of when things were going to happen.

Q. Was any information shared with you regarding how a potential shooter situation would be handled?

A. That was addressed with ESU in their operation plan that they gave that day.

Q. Did the Secret Service at all provide you with a map of your assignment?

A. No.

Q. Okay. And if you could restate for the record who gave you your assignment that day.

A. The assignment to run the Command Post?

Q. Yes.

A. Director [REDACTED]

Q. So at any point in time on July 13, was there any information shared with you by the Secret Service regarding communications to the agency who saw something suspicious?

1           A.    No, that was -- Commander [REDACTED] was the  
2           contact for the Secret Service.

3           Q.    Sir, did you set up any cameras or other  
4           surveillance on July 13?

5           A.    We did have -- we had the camera -- there's  
6           two cameras mounted on the Command Post and -- just  
7           the monitor the crowd. And, actually, the one  
8           camera was monitoring the main maintenance. We  
9           were able to watch the main entrance, where the  
10          majority of the medical calls were. The other was  
11          just set up in the crowd.

12          [REDACTED]: Are those video feeds  
13          recorded?

14          [REDACTED]: No.

15   BY [REDACTED]:

16          Q.    Whose cameras were they?

17          A.    They were the ones that were fixed on the  
18          -- there was two camera systems on the County  
19          Command Post.

20          Q.    Who has custody of those cameras? Whose  
21          property are those cameras?

22          A.    The County of Butler. But, like I said,  
23          they were not -- they're not recorded.

24          Q.    This was just a live --

25          A.    Yeah, we were just able to monitor what was

1 going on with the -- like where the mags entrance  
2 was and where the actual -- we could see the crowd.

3 Q. Is there a reason why a recording wasn't  
4 taken?

5 A. No. We've never recorded any of the other  
6 events. We were just -- they're not a super high  
7 quality camera. There's no gimbal in it, so they  
8 just kind of sit there and shake. You would have  
9 never been able to watch a recording. They were  
10 just -- we didn't even watch them the majority of  
11 the time, because they would just turn. Anybody  
12 would move, they were just -- it was horrible.

13 Q. Were there any camera recordings at all  
14 that day that were taken?

15 A. No. There's no camera systems that are  
16 monitoring inside. The only thing -- all the radio  
17 frequencies, those were all monitored and recorded.  
18 I think you guys have all those.

19 Q. Were there any other Butler technology  
20 specialists that were deployed during July 13  
21 during that day?

22 A. No. I'm the only one.

23 Q. Did you work with any other technology  
24 personnel from other law enforcement agencies or  
25 the Secret Service?

1           A.    No.  We were not asked for any assistance  
2           or asked to, you know, collaborate with anybody  
3           else.

4           Q.    Were you aware of any other technology  
5           personnel that were on-site that day?

6           A.    No.

7           Q.    Were you aware that local law enforcement  
8           officers were using Signal to communicate with one  
9           another?

10          A.    Yes.

11          Q.    Was this standard procedure?

12          A.    Yes.

13          Q.    Is that located in an operational handbook  
14          or --

15          A.    No.  There's nothing -- they don't have  
16          that in their office.  They just -- they've used  
17          Signal because it's an encrypted app.  They just  
18          use it to -- more of an ESU group.

19          Q.    As the safety technology specialist, did  
20          you provide a recommended method of communication  
21          to law enforcement personnel on the 13th?

22          A.    Ours was all through via radio.

23          Q.    Did you recommend that to the officers?

24          A.    It really wasn't -- that's just the  
25          standard.  That was -- that wasn't even a question.

1 That was going to be -- that was going to be the  
2 number one. You know side things, you know, I  
3 guess the ESU, I'm sure they have -- they had their  
4 own little groups between the snipers, and -- you  
5 know, that was -- that's their gig, not ours.

6 Q. And if you needed to communicate with other  
7 law enforcement personnel, how did you do that?

8 A. Through the radio.

9 Q. Were you aware of a Pennsylvania State  
10 Police radio that was supposed to be in the local  
11 command trailer?

12 A. Yes. That's the one we had that did not  
13 work.

14 Q. Was there a trooper that was assigned to  
15 that radio?

16 A. No. We were given that radio early in the  
17 morning, told what channel to be on, and it was for  
18 the purpose of listening to the motorcade. It  
19 really wasn't to -- there's always been this --  
20 between the state was -- you know, the state has  
21 never shared anything with the locals, ever. So we  
22 got -- the portable was to monitor the movement of  
23 the motorcade.

24 Q. And so you had stated that radio was not  
25 working?

1           A.    We never heard anything on it, and there's  
2   a -- it's a quick -- the new -- our radio systems  
3   were like a cellphone. So you have to be on a  
4   system. If you go out of range, it's like a  
5   cellphone. It just bonks and says, "Out of range."  
6   Probably an hour and a half that radio was out of  
7   range. Even if they were talking on it, we  
8   wouldn't have heard anything. So we were not  
9   hearing the local -- state that day. That was  
10   specific for the motorcade.

11          Q.    When did you learn or figure out that the  
12   radio was not working?

13          A.    Oh, it obnoxiously beeps every ten seconds  
14   that it's out of range.

15          Q.    Did you contact anyone to get that fixed?

16          A.    Yes. We contacted Lt. [REDACTED] to verify the  
17   frequency, that we were on the right frequency, and  
18   we also verified with Sgt. [REDACTED] if it was on the  
19   right frequency. We tested the radio with [REDACTED]  
20   and were able to hear him, but we never heard any  
21   other communications.

22          Q.    So they never came to fix it or do anything  
23   else.

24          A.    No. No.

25          Q.    Did you ever receive any pictures of the

1 eventual shooter on July 13?

2 A. Yes, through the Signal app.

3 Q. Who sent those to you, sir?

4 A. That was, I believe -- I think it was  
5 [REDACTED]. I'm not sure who on the ESU sent it, but  
6 he sent it out in the group chat, the picture.

7 Q. Was there any delay, to your knowledge, in  
8 receipt of that photo?

9 A. From the actual time he sent it to the time  
10 we received it was when -- that's when they  
11 immediately gave all the information out.

12 Q. Okay. And did you then forward that  
13 picture on to anyone else?

14 A. I did not.

15 Q. And then once you were at your assigned  
16 post in the local -- in the command trailer, did  
17 you ever receive any communications or updates from  
18 the Secret Service whatsoever?

19 A. No.

20 Q. Did the Secret Service or anyone else from  
21 law enforcement tell you to watch for drones?

22 A. The only thing that was brought up with the  
23 drones was at the Butler ESU briefing, that they  
24 said if they did knock one of the drones down, that  
25 they were requesting if one of our QRF guys could

1 maybe go out and retrieve the drone. That was the  
2 only thing that was brought up about a drone. If  
3 they dropped one, for them to go out and try and  
4 retrieve it.

5 Q. Did you ever see any drones flying during  
6 the day of the rally?

7 A. We were in the Command Post the entire day.

8 Q. The entire day. Can you give the hours?

9 A. So the briefing was at 9:00. Commander  
10 [REDACTED] and myself went to the Command Post. 10:00 is  
11 when we officially started, because the crowd was  
12 starting to arrive. The only time that we left was  
13 we left to get lunch. We walked down to the Brady  
14 Paul. I left. Got it. Brought it back.  
15 Commander [REDACTED] went down, so there was always one  
16 of us there.

17 Then [REDACTED], Commander [REDACTED]  
18 joined us at like 3:00. But after Commander [REDACTED]  
19 -- the only time we left was to go to the bathroom,  
20 get food, and we were there till 9:30 that night.  
21 We never left.

22 Q. Did the Secret Service ever make it known  
23 to you, sir, that their unmanned aerial system or  
24 detection system was delayed in being operational?

25 A. No.

Q. Were you ever asked at any point by anyone to arrange for drone coverage at any point prior to July 13?

A. The county, no.

Q. By anyone?

A. No.

Q. Did you ever suggest to anyone the use of drones to surveil?

A. I did not, but I believe Commander [REDACTED] and -- they may have had that conversation with somebody, but not with us. The county has a drone. We did not have it that day.

Q. Do you know -- "with someone," who was that someone?

A. I don't know. I don't know who they were talking about to get a drone. That, I don't know.

Q. Did [REDACTED] come up with that idea on his own, or did you have discussions with him about the utility of a drone?

A. The drone never came up until the picture of the individual, and that was between him and Commander [REDACTED].

Q. So could you just drill down on that a bit more, sir. So when the picture of the suspicious individual or the eventual shooter, Mr. Crooks,

came through, that then spurred discussion about deploying a drone?

A. The immediate one was -- the information was disseminated to everybody that we could get it out to. Sheriffs, state police, both frequencies. That local Butler Township Police, ESU tactical group. Then the drone itself, I don't know whether there was -- they thought that the state -- that the Secret Service had a drone, but I don't believe -- in that initial conversation, the only time that I recall a drone coming up was after the fact they needed something to clear the water tower before they sent anybody out, and that's when the conversation of getting a drone -- of us getting a drone.

Q. Okay. Around what time was that?

A. I would say probably an hour after the fact. And that was just to clear the water tower before they -- because they didn't have everything entirely cleared. When they found the backpack and stuff, they wanted to clear the water tower, and that's when that was brought up.

Q. Have you had any prior experience at a large event utilizing drones?

A. No. The county has just recently got a

1 drone, and we usually don't -- we have never  
2 deployed it at a -- we've never really had any huge  
3 -- large events that we've used it at. We've used  
4 it as a training tool. We've never used it at an  
5 event.

6 Q. Now knowing that that resource of a drone  
7 was available, did you ever think to suggest that  
8 that might be useful from a sort of safety or  
9 precautionary standpoint?

10 A. I don't know whether Director [REDACTED] had  
11 the conversation, but I know that it was made early  
12 on in one of the planning meetings that law  
13 enforcement was the only one that was able to fly a  
14 drone. We didn't even have ours there that day, so  
15 I don't think there was ever any discussion of the  
16 county having the drone available, or for us to  
17 ever -- we wouldn't have had anybody to actually  
18 fly a drone that day anyway. It would have been a  
19 law enforcement agency that would have had the  
20 drone.

21 Q. Okay. And you would have had to  
22 potentially use a private contractor to deploy a  
23 drone?

24 A. Yes.

25 Q. Okay. So let's move to the shooting, sir.

1 Can you just describe what was going on at your  
2 Command Post, your communication via radio, in  
3 person, and other means during the shooting?

4 A. Prior to the shooting, after they gave the  
5 information out, there was -- they were looking for  
6 the individual. I think in the radio transmission,  
7 like right before that occurred, there was a  
8 missing child that they were -- they had kind of  
9 given out. Then there were some other minor issues  
10 that we were just monitoring.

11 We really weren't -- there wasn't  
12 nothing that the tactical team was tasked to do.  
13 There was some issues with like what they call the  
14 cattle gate. They were concerned that people were  
15 leaning against it. They were concerned that, when  
16 the motorcade come in, that they might knock it  
17 over. So there was some resources from the state  
18 police that was moved out.

19 So really up until the shooting, we were  
20 just -- they were just -- you know, the ESU was to  
21 do their two teams, and there was nothing for them  
22 -- they weren't launched to go search the  
23 individual. That was the perimeter group.

24 Now, the sheriff's department, they had  
25 people around the perimeter. That stuff was given

1 to them. They gave their information out to those  
2 people. They're a separate agency than ours.  
3 They're in the Command Post, and they look -- you  
4 know, nothing was relayed back to us, you know.  
5 The sheriff's department were aware of it, and  
6 nobody physically saw him.

7 Q. Okay. Can you explain, generally, the  
8 technology posture once the first shots were fired?

9 A. It was -- I mean, as soon as the shots were  
10 fired, everybody just immediately -- I mean, he  
11 immediately launched -- you know, Commander [REDACTED] --  
12 all the QRF teams went out. The second QRF team,  
13 the Beaver team, was immediately moved up to the  
14 Command Post closer.

15 The EMS side of it immediately went in  
16 to take care of the casualties. And it just -- it  
17 was -- it wasn't chaotic at all. It was just -- I  
18 mean, it was one hundred percent uptake and being  
19 busy.

20 Q. Were the radios operational?

21 A. Yes.

22 Q. What were you witnessing at that time?

23 A. I mean, if you listen to the radio, it was  
24 just -- I mean, at one point, just -- you know, to  
25 monitor -- we all had -- I had two portables in my

1 hand just for the fact that I knew that we could  
2 not scan -- that you would never hear it -- just to  
3 be able to monitor both of them at the same time.  
4 I was just monitoring any overflow that [REDACTED] and  
5 Commander [REDACTED] didn't hear, and they were able to  
6 -- they were able to keep up with it.

7 Q. Were you calling out any instructions to  
8 anyone at that juncture, sir?

9 A. No, that was -- Commander [REDACTED] was the tact  
10 command. He was making all the decisions of the  
11 tact.

12 Q. Within a minute of the first shot being  
13 fired, someone stated over the radio that the  
14 shooter was down. Do you recall hearing that  
15 transmission?

16 A. Yes.

17 Q. Then is that how you learned that the  
18 shooter was down?

19 A. Yeah. That, and the -- I don't know what  
20 this -- the actual timeframe that the first ESU  
21 guys got up there. But, I mean, it was given over  
22 both frequencies that the shooter was down.  
23 Because there was questions that ESU had listening  
24 to the stuff. You know, how many shooters were at  
25 the location, and then prior to that, and then as

1 soon as the shooter was down. It didn't slow down  
2 any, because they still had casualties. They were  
3 still trying to sort out who was injured, who  
4 wasn't injured. It was -- it wasn't chaotic and it  
5 was -- I mean, every obstacle was taken care of.

6 Q. Okay. Just a few questions for me and then  
7 I'll turn to my colleague. So what was your  
8 assignment right after the shooting?

9 A. It didn't change. We just -- you know, any  
10 assistance they needed. Those two were still  
11 manning their two frequencies. I was just there to  
12 back them up, anything they needed.

13 Q. How long did you stay at the Command Post  
14 after the shooting, sir?

15 A. I was there till 3:30 in the morning.

16 Q. Was that by anyone's instruction or on your  
17 own volition you remained at the post?

18 A. Well, Director [REDACTED] after the -- I  
19 don't know when the Secret Service one closed down,  
20 but the ESU was all congregated, our Command Post.  
21 We didn't -- the operations kind of slowed down to  
22 where we weren't doing anything. The ESU was  
23 staged at the Command Post.

24 So then somebody at 11:00 got the bright  
25 idea that the FBI would -- they said, "Well, you

1 guys are all here. We'll send ten guys down and  
2 interview all your guys." So that took two and a  
3 half hours. They used the Command Post to do that.

4 Q. Okay. So the Command Post was operational  
5 until 3:30 a.m., the local Command Post.

6 A. Yes, we left. Yep.

7 Q. Did traffic, radio traffic continue?

8 A. No. The radio traffic slowed down by 9:00.  
9 I mean, the biggest thing after the event was  
10 clearing the buildings, dealing with the  
11 possibility of the explosives and, you know, the  
12 casualties were taken care of within, I would say,  
13 15, 20 minutes.

14 Q. Did you assist with the state police, the  
15 Secret Service, or any FBI investigations on July  
16 13?

17 A. You mean after the fact?

18 Q. That day.

19 A. No. No. I mean, other than the FBI coming  
20 down and wanting to use the trailer to interview  
21 the ESU guys, the state police, the Secret Service  
22 never come down to the Command Post.

23 Q. So the FBI was actively interviewing folks  
24 in your Command Post while you were still doing  
25 your job?

1           A.     There was no radio traffic, so we actually  
2     -- there's three separate compartments. We were  
3     still able to listen to the radios, but everybody  
4     who would have been talking on the radio was  
5     standing right there. So they used the center  
6     section to do their interviews.

7           Q.     Did you assist filling out -- assist with  
8     filling out any forms for the FAA?

9           A.     No. Commander [REDACTED] was tasked to do  
10    that. Whenever they decided to fly the drone to do  
11    the water tower, he had to go over and fill some  
12    paperwork out.

13          Q.     Did you participate in any debriefings  
14    related to July 13?

15          A.     Yes. With the ESU debriefing the following  
16    Tuesday, and I was involved with the county's  
17    through -- for the fire and EMS agencies, and then  
18    I also participated in the Pennsylvania State  
19    Police After Action.

20          Q.     Have you spoken at all or been in contact  
21    with the Secret Service since July 13th?

22          A.     I have never been in contact with any  
23    Secret Service.

24          Q.     Okay. Did you take possession of any  
25    phones or other technology after the incident?

1           A.    No.  The county does not -- the county did  
2 not own any -- no.

3           Q.    Okay.  And then, just my last question --

4           A.    Well, I take it -- other than the radio, I  
5 mean, I've maintained -- I've made probably 40  
6 copies of the -- for all the requests.  I've done  
7 all the radio logs.  All the radio stuff he has  
8 got, I've made all of those.

9           Q.    So just to be clear, also, no video, no  
10 surveillance video.

11          A.    No.

12          Q.    You're in possession of no surveillance  
13 video at all?

14          A.    No.

15          Q.    What technology improvements would you make  
16 for an event of this size for a political rally in  
17 the future?

18          A.    Satellite communication on the Command  
19 Post.

20          Q.    Have you used satellite previously?

21          A.    I have not personally used it.  I have seen  
22 it operate, and it's just foolproof.  I mean, the  
23 issues that we had that day, they had -- we didn't  
24 have -- they had the same problem at the 2020, but  
25 they brought in their own cell tower, because he

was a sitting president. So all the fire, EMS -- the FirstNet guys walked around and gave us all jet packs. The crowd, nobody could make a phone call or text message in the crowd. All fire and EMS, they were all given -- I mean, a guy walked over to the box with all the Jetpacks. He gave us a box full of Jetpacks connected to their servers that day, but they had a million-dollar cell tower set up right there exclusively for that.

[REDACTED]: Thank you, sir.

EXAMINATION

BY [REDACTED]:

Q. I'm just going to drill down on a couple quick things and then a couple one-offs. So you mentioned that with your CAD System you can patch different radio channels in.

A. That's the -- the CAD System is the -- the CAD dispatching, there's a --

Q. Console.

A. Yeah, that we can patch different channels, sir. Yes, we can.

Q. With your console you can patch in different channels. You said normally you don't have access to PSP, but from your console, are you able to patch in?

1           A.    Not normally, never. And we do not have  
2 any direct -- we cannot patch for that. Not to  
3 take up your time, but five years ago when we  
4 bought the radio system, they spent \$300,000 for  
5 the capability to do that. And "Great idea. We're  
6 going to do it," and it's been shot down.  
7 Miraculously, the week after this happened, guess  
8 who contacted us? They said, "Hey, we're going to  
9 get this up and running."

10          Q.    Okay.

11          A.    So prior to that, it's not -- it's never --  
12 I mean, I have worked at that 911 Center, and we --  
13 there was an older system where before it was  
14 encrypted, they were able to patch. That went away  
15 ten years ago. They used it maybe one time. Other  
16 than that, we -- I can patch any other county  
17 agency, any other of the surrounding counties, we  
18 can patch them all day long. State police, they're  
19 on their own.

20          Q.    But the capabilities exist.

21          A.    Yeah, they exist. And it works.

22          Q.    You talked about these two different  
23 security cameras that were on top of the Command  
24 Post. You guys were able to view some stuff. At  
25 any point prior to the first shots being fired,

1 were you able to see the Secret Service snipers on  
2 the roof?

3 A. No. Where the Command Post was positioned,  
4 there was two doors. We're in the back side of the  
5 door. If we -- because we did, we opened the door  
6 whenever the motorcade came in, but there's -- did  
7 you walk the site at all?

8 Q. I have.

9 A. So are you familiar with where those -- are  
10 you familiar with where the County Command Post is  
11 at?

12 Q. Approximately.

13 A. So looking directly out, there is those big  
14 giant trees where that Brady Paul Lodge is. We  
15 could not see the snipers on the roof -- the Secret  
16 Service guys on the roof.

17 Q. From either like any windows, doors being  
18 open, or the cameras.

19 A. No. Well, I take it back. The camera in  
20 the front, we never swung it around far enough to  
21 view them. We were just viewing the crowd. The  
22 front camera might have been able to get there, but  
23 I know that we didn't have it turned around to  
24 watch them. We were watching the crowd.

25 The camera to the rear, you would have

not seen it. It was the same view. You look out the back window, and there's giant trees, and you could not see it. Now, after the fact -- you know, we saw the pictures on the news, you know, all those ones, but --

Q. Have you talked to anyone who was in the Command Post on July 13 about they may have been able to see the snipers prior to the first shot being fired?

A. The Secret Service snipers?

Q. Correct.

A. [REDACTED] and Commander [REDACTED] we were all in the same -- there's no windows in it. There's just a door that opens to that side. They would have had the same view that I would have seen. I mean, I think I have a picture that I took from the window -- or from the backdoor. It was just a big -- there's a giant tree right there that you couldn't see.

[REDACTED]: That covers my questions.

[REDACTED]: Do you have any followup?

[REDACTED]: I have just one followup.

#### EXAMINATION

BY [REDACTED]:

Q. What is a Jetpack?

1           A.    It's like -- that Verizon gives you to  
2 connect to the internet.

3           Q.    Like a hotspot?

4           A.    Yeah.  They're called Jetpacks.  And they  
5 just have -- I mean, they make those, you know,  
6 available to everybody.  They work great.

7                   [REDACTED]:  I understand.  Thank you.

8                   [REDACTED]:  Okay, sir.  We are wrapped  
9 up.  Thank you again.  We can go off the record.

10                   (Off the record.)

11                   (Witness excused.)

12                   (This interview concluded at 5:13  
13 o'clock p.m.)
