

TASK FORCE ON THE
ATTEMPTED ASSASSINATION
OF DONALD J. TRUMP

INTERVIEW OF: [REDACTED]

Friday, September 13, 2024

Butler, PA

The interview in the above matter was held in
person, commencing at 1:10 p.m.

APPEARANCES:

For the Majority Counsel:

[REDACTED], Special Counsel and Consultant
with the Task Force for the Majority

[REDACTED], Task Force Majority Senior Counsel

For the Minority Counsel:

[REDACTED], Researcher with the Democratic
Minority Staff

[REDACTED], Investigative Counsel with the
Task Force Minority

For the Witness:

[REDACTED], Esquire
[REDACTED]

B.....	72

[REDACTED] Today is September 13th,
2024, and this is the transcribed interview of

[REDACTED]
House Resolution 1367 directed this Task
Force to investigate the facts and circumstances of
the attempted assassination of Donald J. Trump on
July 13th, 2024, in Butler, Pennsylvania. Pursuant
to House Resolution 1367, Chairman Kelly and
Ranking Member Crow have requested this interview
as part of the Task Force investigation.

BY [REDACTED]

Q. Can the witness please state your name and
spell your name for the record.

A. Full legal name?

Q. Yes. Thank you.

A. [REDACTED]. Full name spelling?

Q. Probably just [REDACTED] is fine.

A. [REDACTED].

Q. Thank you.

My name is [REDACTED], and I am
Special Counsel and consultant with the Task Force.
I want to thank you for coming in today for this
interview. The Task Force recognizes and
appreciates that you are here voluntarily.

You are allowed to have an attorney

present to advise you during this interview. Do you have an attorney representing you in your personal capacity present with you today?

A. I do.

[REDACTED]: Would Counsel please identify himself for the record.

[REDACTED]: [REDACTED].

[REDACTED]: Thank you.

Q. For the record, I wanted to let you know that Members of Congress have the right to come into this interview if they choose to do so and observe or ask questions.

We don't expect there will be any Members here today, but just so you know that if someone does happen to show, that we'll introduce you to the Member, and that person can observe and ask questions if they so choose.

[REDACTED]: Next, would the Minority Staff please introduce yourselves for the record.

[REDACTED]: Sure. [REDACTED],
Researcher with the Democratic Minority Staff.

[REDACTED]: [REDACTED],
Investigative Counsel, Democratic Minority.

[REDACTED]: With me is [REDACTED], who
is with the Majority, also a staffer.

BY [REDACTED] :

Q. [REDACTED], before we begin, I would like to go over the ground rules for this interview. The way this interview will proceed is as follows: The Majority and Minority Staff will alternate asking you questions, 30 minutes per side per round until each side is finished with their questioning. The Majority Staff will begin and proceed for 30 minutes, and then the Minority Staff will have 30 minutes to ask questions. We will then alternate back and forth in this matter until both sides have no more questions.

If either side is in the middle of a specific line of questions, they may choose to end a few minutes past a half hour to ensure completion of that specific line of questioning, including any pertinent follow-ups.

In this interview, while one member of the staff for each side may lead the questions, additional staff may ask questions.

There is a court reporter taking down everything I say and everything you say to make a written record of the interview. For the record to be clear, please wait until the staffer questioning you finishes each question before you begin your

1 answer, and the staffer will wait until you finish
2 your response before proceeding to the next
3 question.

4 Further, to ensure the court reporter
5 can properly record this interview, please speak
6 clearly, concisely, and slowly. Also, the court
7 reporter cannot record non-verbal answers such as
8 nodding or shaking your head; so, it's important
9 that you answer each question with an audible,
10 verbal answer.

11 Do you understand?

12 A. I do.

13 Q. Do you want -- we want you to answer our
14 questions in the most complete and truthful manner
15 possible; so we will take our time. If you have
16 any questions or do not fully understand the
17 question, please let us know, and we will attempt
18 to clarify, add context to, or rephrase our
19 questions.

20 Do you understand?

21 A. I do.

22 Q. If we ask about specific conversations or
23 events in the past and you are unable to recall the
24 exact words or details, you should testify to the
25 substance of those conversations or events to the

best of your recollection. If you recall only a part of a conversation or event, you should give us your best recollection of those events or parts of conversation that you do recall.

Do you understand?

A. I do.

Q. Although you are here voluntarily and we will not swear you in, you are required pursuant to 18 USC Section 1001 to answer questions from Congress truthfully. This also applies to questions posed by congressional staff or consultants in an interview.

Do you understand?

A. I do.

Q. If at any time you knowingly make false statements, you could be subject to criminal prosecution.

Do you understand?

A. I do.

Q. Is there any reason you are unable to provide truthful testimony at today's interview?

A. No.

Q. Please note that if you wish to assert a privilege over any statement today, that assertion must apply with the Rules of the -- comply with the

Rules of the Task Force on the Attempted Assassination of Donald J. Trump. For the Chair to consider assertions of privilege over testimony or statements, witnesses must clearly state the specific privilege being asserted and the reason for the assertion on or before the scheduled date of testimony or appearance.

We have your counsel present. If there are any privileged issues that will arise, I'm sure your counsel will inform the staff here on the record, and we will take that into account.

Do you understand that?

A. I do.

Q. Finally, I would like to note that the content of what we discuss today is confidential. We ask that you not speak about what we discuss here today in this interview to any outside individual in order to preserve the integrity of this investigation.

For those same reasons, the marked exhibits used today will be provided to the court reporter so that they may go in the official transcript, and any copies of those exhibits will be returned to us when we wrap up.

We plan to take a five-minute break at

the end of each 30 minutes of questioning, or as needed. But if you need a longer break or a break before that, please let us know, and we're happy to accommodate. However, to the extent that there's a pending question, we would ask that you finish answering the question before we take the break.

Do you understand?

A. I do.

Q. Do you have any questions before we begin?

A. Not at this time.

Q. Okay. Thank you. All right. So I'm going to now set my timer for 30 minutes.

Okay. [REDACTED], can you just tell us what your current job title is.

A. Team-wise or --

Q. Tell us what your employment is, both ESU and otherwise.

A. My standard 40 hours a week, I am a patrolman with the Adams Township Police Department, and I am tasked or authorized to be a participating member in the Butler County Emergency Services Unit.

Q. Okay. As we understand it, the ESU is a -- is a position that you have to apply for; is that right?

1 A. Yes.

2 Q. All right. And you made -- you applied for
3 that position, and you were interviewed and then
4 accepted at the ESU; right?

5 A. Correct.

6 Q. Can you tell us when you first joined ESU.
7 Not -- it doesn't have to be to a specific date, just
8 the year would be fine.

9 A. That is a really good question. It has
10 been several years.

11 Q. If you don't remember, was it -- was it
12 before or after COVID? Do you --

13 A. It was before COVID.

14 Q. So at least four years?

15 A. Correct.

16 Q. Okay. And can you tell us what your
17 responsibilities are at ESU.

18 A. Currently, my official designation is I'm
19 an operator on the team; primary focus is part
20 of -- part of the entry teams.

21 Multiple -- I would say multiple
22 disciplines that I have within the team, I -- I
23 assist with maintaining training records, training
24 logs, team scribe. Just kind of an overall assist
25 with the training and logistics, equipment needs,

1 depending on, I guess, what is needed to be
2 facilitated for any one of our trainings or
3 operations.

4 Q. Okay. Great.

5 I'm going to ask you some questions
6 during the course of this day that are going to
7 seem very obvious, but the reason we ask some of
8 these questions is we need to create a record --

9 A. Sure.

10 Q. -- so that somebody who is not as familiar
11 with how law enforcement works, if they saw this,
12 they would understand. Forgive me for some
13 questions that may seem really simple.

14 A. Not a problem.

15 Q. You are part of the quick response team of
16 the ESU; is that right?

17 A. I was assigned to a quick response that
18 day, yes.

19 Q. Okay. And that's often referred to as
20 "QRF"?

21 A. Correct.

22 Q. And so, tell us how -- so a QRF, there
23 isn't a specific team always designated, it's
24 basically incident specific?

25 A. Yes. It would be whatever our designations

1 are for that particular operation or assignment.

2 Q. Okay. And you referred to yourself as an
3 operator. Can you just tell us what that means in
4 the ESU world.

5 A. I guess as an easy way to expand upon that
6 is if you think of every police officer, generally
7 speaking, as a patrolman, then an operator on ESU
8 would be the general designation or title of our
9 training levels.

10 So, for anyone to do things outside of a
11 standard operation to be an operator, you would
12 need to prove your proficiency as an operator
13 before you would move on to a specialty unit or
14 specialty designation.

15 Q. Okay.

16 A. So each one of my -- use sniper elements,
17 for example. They are all trained to be an
18 operator, and then they receive additional training
19 to have that "sniper" designation.

20 Q. Understood. You are not yourself trained
21 to be a sniper; correct?

22 A. I am not.

23 Q. And you mentioned that you do entries, and
24 I assume that means, for example -- it may mean
25 more than this -- when there's a search warrant to

1 be executed or there's a barricade situation with a
2 live operation, one of your roles is to assist in
3 the process of gaining entry for that purpose, to
4 execute a warrant or to intercept a suspect?

5 A. Yes. So, a standard operator on our team
6 is designated with multiple responsibilities,
7 whether it's a high-risk apprehension, high-risk
8 warrant, woodlands search, barricaded subject. Any
9 of those designations, an operator would be given
10 -- assigned a task.

11 So we -- as an operator, we have people
12 that we have trained specialized in or I would say
13 specifically training in breaching. You would have
14 people that are specifically trained in I would say
15 multiple facets of that, whether it's an instructor
16 to deploy a noise/flash diversionary device, things
17 along those lines that would be designated to you.

18 Primarily most operations I am involved
19 in, I do have assignments that are part of an
20 emergency action or an emergency response section
21 or team, or typically, like I said, one of the
22 operators that is involved in the entry to secure a
23 location.

24 Q. Okay.

25 A. Or structure.

1 Q. And that particular -- let me ask you this:
2 Is there any specific type of entry that you are
3 specifically trained to do, or is it all forms of
4 entry?

5 A. It's multifaceted. It's not -- most
6 operations are case specific.

7 Q. Right.

8 A. Not every house is going to be built the
9 same.

10 Q. Right.

11 A. So not every entry is going to be executed
12 the same.

13 I don't know if that answered the
14 question for you.

15 Q. No, that answered the question. That's
16 fine.

17 Can you just very briefly, very high
18 level, tell us about the kind of training you
19 received to assist you in becoming an operator with
20 ESU.

21 A. Every one of our operators is required to
22 be trained. We have it listed as trained through
23 the National Tactical Officers Association, the
24 NTOA. We have them designated as basic and
25 advanced SWAT, which is a total of 80 hours of

specific tactical training. I believe advanced SWAT has scenario-based training is the actual title for it, and that is to enhance the capabilities of that person's understanding of the tactical environment.

Q. Understood. In sort of common parlance, you are trained as a SWAT -- a SWAT operator?

A. Yes. So I've had basic and advanced SWAT training. I have completed, successfully been certified in both of those.

I've also had team leader development training, which is another NTOA course, and we put certain ESU members through those trainings.

Q. I understand.

A. So --

Q. So -- and you've already testified to this, but is it fair to say that most of the work that you do with ESU relating to your status as a SWAT operator relates to active law enforcement engagement like warrants and barricades, the kind of things you've already talked about; is that right?

A. You're asking if that's the majority of what I do?

Q. Yes.

1 A. Yes.

2 Q. Okay. And are there occasions where you
3 are assigned to provide your services in a non-law
4 enforcement active situation or operation, but in
5 an event like to provide security to an event such
6 as the one that we're going to talk about?

7 A. Yes. In these situations, yes, we have
8 done that.

9 Q. Okay. And how frequently would you say
10 that you have done that since you've been at ESU?
11 The latter part, not the -- not the more common
12 stuff. And, again, I don't need specifics, just a
13 general sense. Is it a handful, is it dozens?

14 A. No. I would say a handful of times. I
15 know that we did a few things where we weren't, I
16 would say, site specific. We were deployed more in
17 emergency reaction capacity --

18 Q. Right.

19 A. -- for some of the civil gatherings for,
20 you know, multiple, we'll say, civil unrest within
21 our country.

22 Within Butler County, we have been
23 deployed in certain areas where we were staged in
24 case things would become hostile.

25 Q. Understood.

1 A. So --

2 Q. And we've heard from -- we've interviewed a
3 number of people, some of your colleagues. We've
4 heard that there are occasions where, for example,
5 a parade, the Fourth of July Parade, which
6 obviously is not going to be civil unrest,
7 hopefully, and it is not a law enforcement
8 operation, that occasionally the ESU will provide
9 security for that type of event?

10 A. Yes.

11 Q. Okay. Have you been involved in those
12 types of we'll call it peaceful or hopefully
13 peaceful type of events where you provide security?

14 A. Yes. Yeah. I mean, we've -- here and
15 there we've -- different operators, whoever is
16 available --

17 Q. Right.

18 A. -- for those types of things will be either
19 designated or assigned as to their availability.
20 Basically, "Hey, we need a certain amount of
21 people."

22 Q. Right.

23 A. And if they're available, then they will
24 be --

25 Q. Right.

1 A. -- I would say requested or assigned.

2 Q. Right. And so, for example, when you talk
3 about availability, as I understand it, almost or
4 maybe all members of the ESU have full-time jobs,
5 and so to some extent, you have to determine if
6 your full-time job will allow you to be available
7 for a particular ESU operation; is that right?

8 A. Correct.

9 Q. Okay. Okay. All right. So what I would
10 like to do is --

11 By the way, were you involved at all in
12 the July -- I'm sorry -- the 2020 rally that then
13 President Trump held in Butler County, the security
14 for that?

15 A. I was.

16 Q. You were. Okay. Great. And what was
17 your -- what was your -- what were your
18 responsibilities at that rally?

19 A. At that rally, I was more of -- I don't
20 know what they designated it at for that rally. I
21 would have to go back and check records for what
22 the designation was.

23 But the same thing, for just an
24 emergency. In case something would go wrong, we
25 were an emergency force to assist.

1 Q. Okay. And I was -- as far as the public
2 knows, nothing went wrong with that particular
3 rally. Is that your recollection as well?

4 A. Correct. Yeah. That's my understanding,
5 yeah.

6 Q. Okay. You didn't have occasion to engage
7 with any suspects or make any arrests or anything
8 like that in the 2020 rally?

9 A. No.

10 Q. Okay. All right. Let's switch to the real
11 topic at hand, which is the July 13th event with
12 Former President Trump. And when I ask you these
13 questions, I'm not asking for specific times, even
14 dates, just really your best recollection of when
15 something occurred, for the most part.

16 If we want to go through something very
17 specific, we have a couple of documents we'll show
18 you that say -- it will be a record of some phone
19 call or a radio or something like that; we'll show
20 that to you. So I'm not asking you for a perfect
21 memory.

22 A. Okay.

23 Q. When do you recall you first learned that
24 there was going to be an event, a rally, for
25 Mr. Trump in Butler County?

1 A. I would say approximately a week before.

2 Q. Do you remember how you learned of it?

3 A. I would say just through various
4 conversations, either with Commander [REDACTED] or -- I
5 know that we sent out a like a team-wide message
6 saying, hey, this is a possibility, or we were
7 contacted in some capacity by federal agencies --

8 Q. Right.

9 A. -- for a request for assistance.

10 Q. Okay.

11 A. So, again, I believe I heard that, "Hey,
12 he's coming here," kind of similar to the last time
13 that they may ask for us. So, "Hey, just heads up,
14 guys," type of situation or conversation.

15 Q. Right.

16 A. And then when the Signal message came out,
17 we received official request, and just kind of like
18 the pattern or delineation on that way.

19 Q. Just to be clear, you heard about this
20 internally within the ESU, it wasn't like somebody
21 from the Secret Service contacted you?

22 A. Correct.

23 Q. All right. Now, on July 8th, which was --
24 so, what we believe from the record was it was
25 probably Friday, which was July 6th -- I believe

1 I'm getting the days right -- July 6th was the date
2 that the message went out internally, the ESU,
3 "Hey, there's going to be a rally, so just, you
4 know be aware."

5 A. Okay.

6 Q. And then on July -- actually, I think it
7 was July 5th. Sorry. 5th, 6th, 7th, 8th. July
8 5th, sorry, Friday.

9 Then July 8th, there was an initial
10 meeting between the Secret Service and various
11 leadership from ESU and from other local law
12 enforcement to talk about what the Secret Service's
13 needs were, and that was on the Monday, July 8th.
14 Do you recall if you were present for that meeting?

15 A. Oh, I was not.

16 Q. Okay. Do you recall hearing about that
17 meeting from anyone at ESU?

18 A. Yes.

19 Q. Who do you remember talking to about that?

20 A. I guess I should correct that. I don't
21 know if that was the specific meeting, that
22 information I have, because I was not involved in
23 any of the preoperation information as far as the
24 planning.

25 Q. Right.

1 A. Or direct contact with anyone from the
2 federal agency prior to. The dates and times, I
3 don't have specifics.

4 Q. Okay. So, you know what, this is -- I can
5 probably truncate a lot of these questions.

6 Do you recall if you were present for a
7 meeting with Secret Service on July 8th? You said
8 no?

9 A. I was not.

10 Q. Do you recall if you went to the site with
11 any member that -- of the rally on July 9th, which
12 is the Tuesday, with any members of your -- of the
13 ESU?

14 A. I was not.

15 Q. Do you recall if you went to anything like
16 that on the Wednesday?

17 A. I was not.

18 Q. Do you recall if you went to a walk-through
19 with the Secret Service and other law enforcement
20 on the Thursday, July 11th?

21 A. I was not.

22 Q. Okay. So, you did not have -- sorry. Go
23 ahead.

24 A. I guess for those particular questions, my
25 first -- my first feet on the grounds at that site

1 was the morning of the operation.

2 Q. Got it. Okay. That does help. So this
3 will be a much shorter interview than a lot of
4 people.

5 A. Wait until we get a little further in, and
6 we'll see if that's true.

7 Q. No, no. Yeah. I understand.

8 So, tell us how you learned about --
9 well, first, tell us how you got assigned to the
10 event, who assigned you, what you were told, and
11 then what was your -- what were you told your role
12 was going to be?

13 A. I was informed via text message from my
14 assistant team leader.

15 Q. Who was that?

16 A. [REDACTED].

17 Q. Uh-huh.

18 A. He put a group text message together of
19 everyone that he had been informed of that was
20 going to be assigned from our team to the QRF.

21 Q. Okay.

22 A. So pretty much a group text message that
23 just says, "Hey, guys, all of you are assigned to
24 QRF."

25 Q. Yeah.

1 A. "This is where we're going to be parking
2 that morning." You know, various minor details in
3 relation to our particular assignment.

4 Q. Okay. I'm only waiting because I didn't
5 know if you were looking at something to help you
6 refresh.

7 A. Oh, I mean, if you need further details on
8 that, that was July 11th at 2:04 p.m. And, again,
9 this group is QRF for the rally Saturday. He's
10 explaining that he will be in charge of the QRF.

11 Q. Right.

12 A. We'll have a side-by-side for our abilities
13 to move around, there will be a full briefing
14 Saturday, make sure all of your gear is squared
15 away, and, you know, depending on your assignments
16 and designations that day, just make sure you have,
17 you know, functionality of your kit, everything's
18 squared away.

19 And if you're assigned to something
20 additional, make sure your kit can accommodate, you
21 know, chemical munitions, flash-bang, less lethal
22 options. Just to make sure you're capable of
23 having an additional option if available.

24 Q. Got it. And that, again, is from

25 [REDACTED], who was the assistant -- I'm sorry,

1 what was the title?

2 A. He's assistant team leader for --

3 Q. Assistant team leader.

4 A. -- Alpha Squad.

5 Q. Got it, for Alpha Squad. And you're in
6 Alpha Squad?

7 A. I am.

8 Q. Got it. And we understand there's a Beta
9 Squad, and Alpha Squad is sort of differentiated
10 based on logistical needs?

11 A. Correct.

12 Q. All right.

13 A. So during the operation, we can assign
14 people to Alpha and Bravo, depending on the
15 operation. But for our -- I don't want to say team
16 integrity. But for logistical capabilities of our
17 team's function, we have an Alpha Squad and we have
18 a Bravo Squad.

19 Q. Right.

20 A. And that is just so that way they know the,
21 lack of a better term, "chain of command." If they
22 have a problem or a need, it's not all going
23 straight to the commander.

24 Q. Right.

25 A. That it can be designated and handled

1 through different apparatuses.

2 Q. Got it. And so -- I'm glad you said that.

3 So, just for our clarity, if
4 something -- if you needed to -- you had an
5 operational need, you would not have to go to
6 Commander [REDACTED], for example, you could go to
7 [REDACTED], and then he would communicate with
8 Commander [REDACTED]?

9 A. So, on -- you mean on that day or our
10 team's functionality?

11 Q. Generally.

12 A. Yeah, generally speaking, if there's
13 something that's needed, I can speak directly with
14 Assistant Team Leader [REDACTED]. If that's not
15 something he can handle, because I do work with
16 Alpha Squad Leader [REDACTED] --

17 Q. Right.

18 A. -- you know, on multiple days a week, he is
19 Alpha team leader, he is my team leader, so if I do
20 have a problem --

21 Q. You can go to him as well?

22 A. -- I can go straight to him; so that way we
23 don't over-task our command staff with --

24 Q. Right.

25 A. -- every need of every person. "I need

1 batteries."

2 Q. Right.

3 A. I -- you know, "I'm missing one of my
4 patches," or something like that.

5 Q. Right.

6 A. If they have an equipment need or, you
7 know, if they're unable to be operational due to a
8 personal issue, something along those lines, then
9 that would be pushed through their team leader
10 before just going straight to the command. So that
11 way they're not getting a full team's amount of
12 noise back at them.

13 Q. Got it. That makes sense. Okay.

14 So let's -- let's talk about -- so did
15 you have any information about what your particular
16 role would be specifically for this event other
17 than what you were told by [REDACTED] in that text
18 message or the conversation you had to be there to
19 figure out what exactly your specific assignments
20 were going to be?

21 A. Prior to that day?

22 Q. Prior to that day.

23 A. To that day -- before that, it was just my
24 assignment is going to be part of the QRF.

25 Q. Right.

1 A. And then basically during the full briefing
2 the morning of is where I would get my specific
3 assignments if any change outside of just your QRF
4 responsibilities.

5 Q. Okay. Was there anything unusual in your
6 experience as an operator, SWAT operator with ESU,
7 that you would be told the day of the event what
8 your specific assignment was, or was that pretty
9 common?

10 A. No, I believe that's normal. The
11 operational briefing, because things can change
12 last minute, there can be just, you know,
13 differences between how many personnel are
14 available; so, no. I mean, the reason we hold
15 briefings I would say in advance is in case there
16 are discrepancies, issues, questions.

17 Q. Right.

18 A. So, no, it's not abnormal for me to be
19 given my assignment on any of our operations during
20 the briefing.

21 Q. Okay. So let's turn to July 13th.

22 That, again, I'm not asking for a
23 specific time, but roughly when did you arrive at
24 the event that morning?

25 A. Approximately 9 a.m.

Q. 9 a.m. And there was a briefing that we understand was held for ESU -- for Butler ESU, but also for Beaver, Washington -- by Commander [REDACTED] and [REDACTED]; is that right?

A. Correct.

Q. So, generally -- without going into the details of what they said, just generally, what were they -- what were they telling you at that briefing?

A. They con- -- they conveyed I would say each person's designated responsibilities, what sectors of the venue we would be responsible for, what our assignments were in case there is some type of I would say issue.

So, my assignment was part of the QRF. QRF is tasked with basically a single threat that may occur against the candidate.

Q. Right.

A. Or the venue.

Q. So let me just pause you there.

So tell us a little bit more about what a single threat means as well as more about the specific assignment you had that day, as you were informed you had that day?

A. So -- well, I can give you exactly what

1 our --

2 Q. Sure.

3 A. -- operational definition of that would
4 have been.

5 [REDACTED]: Just for the record, the
6 witness is reviewing materials that he has brought
7 with him today to help him refresh his
8 recollection.

9 (Witness reviewing documents.)

10 A. Sorry for the delay. I don't want to eat
11 up all of your 30 minutes.

12 Q. That's okay. We're all friendly here.

13 [REDACTED]: He can go over if
14 necessary.

15 A. So our QRF team was specifically listed and
16 labeled as responsible for a lone active attack or
17 shooter on or off-site. And then we were also told
18 we should report any sightings of drones to the
19 command post, and then QRF may be tasked with
20 retrieval of the drone if it was knocked out of the
21 sky, I guess, by a Dronebuster.

22 Q. Got it. Understood.

23 So, just a summary, basically your two
24 general assignments were sole active shooter and
25 drones, looking out for drones?

1 A. I believe that the entire deployment team
2 was just made aware of, hey, if you see a drone,
3 call it out and give a sector.

4 Q. Right.

5 A. And Secret Service can then respond.

6 Q. Right.

7 A. But QRF may be tasked with retrieval.

8 Q. Retrieving it? Right.

9 A. Yeah.

10 Q. Anybody sees a drone --

11 A. Call out.

12 Q. -- tell us, and you guys go and get it?

13 A. Yeah.

14 Q. Okay. Got it.

15 Was there a specific area of the site
16 that you were assigned to?

17 A. Again, if something would become an issue,
18 we had capabilities of full site deployment.

19 Q. Right.

20 A. On or off-site. But we were staged I guess
21 that would be behind the stage, but stage right --

22 Q. Okay.

23 A. -- in a red barn.

24 Q. Okay.

25 A. If that's what you're asking.

1 Q. Yes. Exactly.

2 A. Okay.

3 Q. That's where you were staged. And when you
4 say "staged," you were meant to stay there unless
5 there was some reason for you to deploy,
6 effectively?

7 A. Correct.

8 Q. Okay. So, the idea was you are in the
9 barn, and you're listening, waiting for anyone to
10 say, we need QRF at this location to respond to a
11 drone or a potential suspect or anything like that?

12 A. Correct.

13 Q. Okay. Were you -- was the AGR building at
14 that briefing identified to you as a potential area
15 that -- specifically -- as a potential area that
16 you might need to deploy to, or was it generally
17 the entire site that was within the security
18 perimeter?

19 A. I mean, I would say in general terms that
20 we had conversations about it.

21 Q. Right.

22 A. I -- I wouldn't be able to give you
23 specifics of during the briefing someone
24 specifically stated that "this is a problem."

25 Q. Right.

1 A. I believe it was kind of listed and labeled
2 as because it's outside perimeter, that would be
3 outside perimeter.

4 Q. But which is within your scope, but it
5 was -- right. Okay. Understood.

6 A. So, again, if we need to get over there, we
7 need to know how to get over there.

8 Q. Right.

9 A. However, generally speaking, anything that
10 would occur would be a different apparatus of an
11 outside perimeter. Obviously, if something goes
12 wrong, we would be deployed there.

13 Q. Right.

14 A. But just the run-of-the-mill, general
15 thing, we're not going to go patrol that area.

16 Q. Understood. Your job was not to patrol,
17 your job was to be waiting to be deployed, if
18 necessary?

19 A. Correct.

20 Q. All right. Do you recall if there was -- I
21 think you might have answered this, but just to be
22 clear -- do you recall if there was any specific
23 discussion of the AGR building? Just if you
24 recall. If you don't remember --

25 A. I mean, I had -- I had direct conversations

with other members of the team.

Q. Right.

A. Whether it was prior to that day or during that day, even during the entire operation, there were multiple conversations that I had with people that -- prior to them telling me that they have concerns with it --

Q. Right.

A. -- two people I did not have a face-to-face with that day I would say during the operation or prior to, I know that I had conversations with. But during that day, I also made, you know, QRF, I made Team Leader [REDACTED] aware of my concerns for that area.

Q. Right. And what did you say about that?

A. Well, I mean, the conversations that I had prior to that were that -- at least that people had vocalized -- that that is an area of concern to the U.S. Secret Service who they had walk-arounds with.

Q. Right.

A. Part of that was explaining that they were going to mitigate -- I believe the phrase that I was at least directed to is that they said they would take care of it, meaning that when someone from my team expressed a concern of the AGR complex

and the grounds, that someone from the U.S. Secret Service specifically stated, "We'll take care of it."

Q. Understood. And this is something that was told to you by another team member, another member of the Butler ESU, probably before the actual event?

A. Yes.

Q. Okay.

A. Another individual that I spoke with that was involved in those conversations of that area being a concern was specifically told that they are going to have opaque covering that would line the fence.

Q. Do you remember if that was [REDACTED] or was it someone else?

A. I believe the person I actually spoke to was Deputy Commander [REDACTED].

Q. Okay. Got it.

A. His conversation was that that -- that's at least who I spoke to. Whether his direct communication was that --

Q. Right.

A. -- or Team Leader [REDACTED]. But there was going to be an opaque cover that was put on the

1 fence --

2 Q. Right.

3 A. -- from outside to inside the venue you
4 could not see.

5 Q. Right.

6 A. I guess the second half of the question,
7 just for clarity, was you wanted to know what
8 concerns I had with that area and --

9 Q. Well, actually, you've already -- you've
10 explained that well.

11 So the next question was going to be on
12 the morning of when you arrived, the first time you
13 had been there for the event and you knew what your
14 assignment was, did you have -- did you see if
15 there was an opaque cover in the area on that
16 day that your colleagues had been told there would
17 be?

18 A. Yeah. I was, I mean, call it 60, 70 yards
19 from that fence that was supposed to have the
20 opaque, and it was very apparent from my staging
21 area you could see that very easily, there was
22 nothing there.

23 Q. There was nothing there?

24 A. There was just two chain-link fences --

25 Q. Right.

1 A. -- between the AGR complex and the stage.

2 Q. Did you have any concern about the fact
3 that there was no opaque cover there that morning?

4 A. Yeah. I mean, yes, there were concerns
5 that at least that we had discussed. When we first
6 got staged, we, you know, made sure our gear was
7 designated to where it needed to be, where we were
8 supposed to go.

9 Myself and Assistant Team Leader

10 [REDACTED], the leader of the QRF that day, we
11 actually took it upon ourselves to do points of
12 ingress and egress. So we actually drove the side-
13 by-side that we had assigned to us that day. We
14 drove the property --

15 Q. Right.

16 A. -- so we could look at it. Once things
17 start to move, if we need to get, you know, from A
18 to B or C to D, how do we get there?

19 Q. Right.

20 A. You know, do we have the road blocked? Any
21 issues that we would have as far as traversing the
22 area.

23 During that site, we found a downed
24 temporary fence. We were able to mitigate that and
25 secure it, and then we passed that along. We made

1 sure that the counter assault team that was posted
2 at that location, which was the assistants from
3 Beaver, we made sure that they were aware that that
4 fence was down.

5 Q. Yeah.

6 A. We had repaired it, but they need to keep
7 an eye on it.

8 Throughout the day we found that there
9 was another small personnel fencing piece that
10 wasn't secured, and people were kind of pushing on
11 it near the -- that would give them access to
12 behind the stage.

13 Q. Right.

14 A. So we were able to, with the assistance of
15 the state trooper, again, we were able to at least
16 mitigate that.

17 Q. Right.

18 A. But, yeah. I mean, concerns for outside of
19 there. You know, what are our abilities to get
20 outside of the venue if needed, knowing that we
21 couldn't just open these fences and potentially
22 leave a lapse? If we were to be assigned to the
23 other side of the venue and now that fence is
24 unlocked, then it becomes an issue for us.

25 Q. Right. Understood. And just a couple more

1 questions, and I'll hand it over to the Minority.

2 A. Sure.

3 Q. So -- and, again, you anticipated a
4 question I had. Given your role, did you
5 specifically work with your team to figure out how
6 you would get to the AGR property in the event you
7 needed to deploy without, you know, obstruction
8 and, you know, as quickly as you could?

9 A. Yes.

10 Q. Okay. And you described some of those
11 efforts that day.

12 And then during the course of that
13 day -- we'll probably go more into this later on,
14 my colleagues might go into some of this now --
15 during the course of the day before Mr. Crooks was
16 identified, were you stationed -- were you solely
17 in the barn waiting to be deployed, or did you
18 occasionally go out to do some of the things you
19 were talking about like fixing the fence and things
20 like that?

21 A. Our team was in place and operational by
22 11 a.m.

23 Q. Right.

24 A. Which was significantly early comparatively
25 for the public to come in.

1 Q. Right.

2 A. So, yes, for a period of time when the
3 venue itself was locked down, secured, and there
4 was no access to the inside, there were times I was
5 in the barn.

6 Q. Right.

7 A. But as it became closer and closer to --
8 well, basically, once people were inside, it kind
9 of became floating in and out, checking on guys,
10 checking on equipment, hydration, making sure that
11 no one's overheated. I would just say team
12 caretaking is generally what it was.

13 But once it got closer to the candidate
14 being on target -- I don't sit still very well --

15 Q. Right.

16 A. -- so it became that I decided I'm going to
17 ensure that our sectors are completely covered as
18 best I can.

19 Q. Right.

20 A. And, I mean, the long answer of that is I
21 started to notice that people were starting to
22 actually occupy the AGR area. So as soon as that
23 was observed, it became pretty apparent that I'm
24 going to keep eyes on this --

25 Q. Right.

1 A. -- regardless of the circumstances. Unless
2 I'm deployed, I'm going to stay outside. I'm going
3 to monitor this to the best of my ability.

4 Q. Okay. Sorry, one last question, and then
5 I'll hand it over.

6 Were you dressed in an obvious ESU
7 uniform?

8 A. On and off, yes.

9 Q. All right.

10 A. We wear multicam.

11 Q. Right.

12 A. So, you know, a stark difference to people
13 wearing red, white, and blue or suits.

14 Q. Right.

15 A. Things like that.

16 Q. Right.

17 A. So the reason I mean on and off is the
18 heavy plate carriers that we wear, due to the
19 temperature of the day, we ensured for operational
20 capacity that there would be intermittent times
21 that half of the QRF would be -- would down their
22 heavy plate carriers to allow air flow.

23 Q. Right.

24 A. And so throughout the day, it would be your
25 carrier is on and off.

1 Q. Right.

2 A. Once it got close to operational standard,
3 you know, it pretty much was put on.

4 Q. Right.

5 A. As soon as we understood that the candidate
6 was wheels down in PA, that it -- that kit went on
7 and stayed on, at least for me, for the remainder
8 of the operation.

9 Q. Okay. And so it sounds like from your
10 perspective you were -- even without the plate on,
11 you were readily identifiable to most people as you
12 were law enforcement?

13 A. I would -- I would presume.

14 Q. Were you informed by anyone that they
15 didn't want you to be seen in the crowd or that
16 they wanted you to stay, you know, out of sight?

17 A. Yes. We, at least from my understanding
18 through multiple conversations, it was they wanted
19 us to just kind of be not visible.

20 Q. Right.

21 A. To kind of stay out of sight unless needed.

22 Q. Right.

23 A. Like I said, little ins and outs throughout
24 the day. But, again, once I started to see things
25 that did not sit well with my brain --

1 Q. Yeah.

2 A. -- I -- I believe at that point I had a
3 responsibility; so --

4 [REDACTED]: And, I'm sorry, one last
5 question.

6 [REDACTED]: Yeah.

7 [REDACTED]: And then we will turn it
8 over.

9 Q. Do you think that -- was the request that,
10 you know, you stay out of sight, even though you
11 ended up, you know, doing what you believe you
12 needed to do, do you think that that impeded your
13 ability -- actually impeded your ability to do what
14 you thought you needed to do, or do you think that
15 you were able to monitor the site to the best of
16 your ability?

17 A. That's a really good question. I haven't
18 really put a whole lot of thought into that.

19 Like I said, once I kind of observed
20 there were things that didn't sit well with my
21 head, I -- I didn't really put much thought into
22 completely staying out of sight.

23 Q. Right.

24 A. Just obviously at that point, I -- I take
25 it seriously that I have a job to do.

1 Q. Right.

2 A. And I'm going to do everything I can to
3 make sure my job is completed.

4 Q. And nobody told you to get out of sight
5 when they saw you?

6 A. No, no one --

7 Q. None of your -- I'm saying your supervisors
8 or --

9 A. No one -- no one pretty much said, "Hey,
10 you're supposed to be out of sight."

11 Q. Right.

12 A. "That's not your responsibility." No,
13 nobody from my team tried to corral my ability to
14 do what I believe was necessary.

15 [REDACTED]: Okay. Thank you. I'll turn
16 it over to the Minority.

17 [REDACTED]: Great.

18 THE WITNESS: Before we start, do you
19 guys mind if I use the restroom?

20 [REDACTED]: Oh, no. Please. That was
21 promised, a break at the end of 30 minutes. That
22 was like 35.

23 [REDACTED]: We will go off the record.

24 (Recess was taken.)

25 BY [REDACTED]:

Q. [REDACTED] for the Minority Staff. Thank you again so much for taking the time to be here with us voluntarily. We know the last two months have definitely been very difficult, and we appreciate you taking the time to just really help us fill out what had happened throughout the day and the days leading up to it.

I'm going to endeavor not to kind of tread on what my colleague's gone over. There may be occasionally times that I kind of clarify something that he might have asked, but we'll try to kind of cover the whole universe with us without too much overlap.

But kind of getting back into your background, how long in total have you been in law enforcement, including your time with the ESU?

A. Since January of 2013.

Q. 2013. And aside from kind of the operator-level work that you do at the ESU, you said your current duties is patrolman with Adams Township; is that correct?

A. Correct.

Q. And can you just give a very brief outline of what you do as a patrolman.

A. A patrolman, generally speaking, is going

to respond to any dispatched requests from 911. So our dispatch center says, "Hey, you have this situation going on," whether it's a phone call request, a medical emergency, you know, we assist with fire, could be domestic, reckless driving --

Q. Uh-huh.

A. -- bank fraud. I mean, realistically, a patrolman is what anyone would perceive of when I call the police, that's the person that, generally speaking, will show up.

Q. Great. And prior to joining law enforcement, did you work in another career field or --

A. I did.

Q. What was that?

A. I was an assistant service manager for an [REDACTED] service center.

Q. Great. And how long was that?

A. 11 years.

Q. 11 years. Okay.

A. Well, I was not an assistant manager for 11 years.

Q. Of course, no.

A. That was my ending title.

Q. I gotcha.

1 A. Full transparency on that.

2 Q. And what prompted the move to law
3 enforcement?

4 A. I trained as a law enforcement officer
5 fresh out of high school and had difficulty finding
6 a I would say a law enforcement position with the
7 age I was. I was too young to own my own firearm,
8 and most agencies at that time in my life would not
9 assign or issue you one.

10 There are ways in the state law for me
11 to get a possession of a weapon to get a job, but
12 none of them were available to me due to just
13 various different family issues that they couldn't
14 own weapons either. So that sidetracked me.

15 I got married, you know, had rent and
16 things like that that were in my primary
17 responsibility.

18 Q. Uh-huh.

19 A. So, yes, I -- I -- I did well in that
20 career path. It was just not the career path for
21 me.

22 Q. Sure. Thank you.

23 My colleagues talked about a bit more of
24 the ESU membership kind of qualifications, the
25 process, how you ended up there. You had

1 mentioned, though, that one of your
2 responsibilities as a team member is kind of as
3 like a team scribe. How did you end up with that
4 kind of secondary role?

5 A. I believe there was one of our other
6 operators or team leads that had that
7 responsibility.

8 Q. Uh-huh.

9 A. I had -- you know, once I was on the team,
10 I had just wanted to obviously assist in any way
11 that I could to be a productive member of the team,
12 and just my I will to say attention to detail and
13 things like that that I'm able to kind of
14 harness --

15 Q. Uh-huh.

16 A. -- so it was requested upon me to assist in
17 that capacity. Due to that other person's leave
18 from the team, that there was an I'm going to say a
19 void that was needed, so they requested that I take
20 that task.

21 Q. And what types of events, situations, or
22 things would you typically transcribe? Would this
23 be like an after-action report, for example, or
24 team meetings?

25 A. I -- I guess "scribe" would be a loose term

1 for us. I don't transcribe records and things
2 along those lines.

3 We have requirements that our team
4 records must be, I would say, retained or
5 cataloged --

6 Q. Uh-huh.

7 A. -- that would make sure that we are at the
8 standard in which that we want to operate at. So,
9 if -- I have to track the amount of hours operators
10 train per month; what's their, you know, overall
11 end-of-year participation in team trainings, you
12 know; was there someone that hasn't been to certain
13 trainings outside of our policy? You know, are
14 they going to -- basically attendance to our
15 physical agility tests that's required, our annual
16 certifications, our annual certification tests and
17 things along those lines.

18 It's, generally speaking, I withhold
19 those -- or basically I house those records and
20 make sure that they are categorized in a way that
21 we could use them.

22 Q. Excellent. Okay. So I'm just going to
23 jump over to kind of the initial rally awareness
24 and planning side of things.

25 You were -- you first became aware of

1 your assignment to Butler County's ESU QRF team
2 around July 11th; is that correct?

3 A. I believe so.

4 Q. And is the QRF typically what you would be
5 assigned to more so than some of the other
6 potential -- you mentioned some specialties or some
7 of the other assignments you might typically take
8 with Butler ESU?

9 A. I guess repeat that to me.

10 Q. I guess, for example, like, would you have
11 -- potentially be assigned to a counter assault
12 team? Is that something that you might have done
13 in previous engagements, or is a QRF more often
14 what you do as an operator of the Butler County
15 ESU?

16 A. Yeah, I don't want to say that either/or
17 would be a standard assignment for me. Whether it
18 would be counter assault, I believe that they would
19 be able to kind of interchange certain operators to
20 either one.

21 It's just, if you want my honest
22 opinion, it's I move around a lot --

23 Q. Uh-huh.

24 A. -- as far as fidget and various other
25 things; so QRF would probably be something that

1 would be pushed out before counter assault.

2 Q. Uh-huh.

3 A. So, that may potentially be why I was
4 assigned to that that day.

5 Q. Gotcha.

6 And you stated earlier that you did not
7 attend any of the law enforcement or U.S. Secret
8 Service walk-throughs or briefings from July 8th to
9 July 11th; is that correct?

10 A. Correct.

11 Q. Did you attend any other prep meetings
12 before July 13th with any other law enforcement
13 entities in, you know, just getting ready for the
14 specific rally? Anything internal?

15 A. It may just have been conversations --

16 Q. Conversations.

17 A. -- about it, but nothing that would be a
18 formal briefing or assignment.

19 Q. Okay. And heading over to the QRF side of
20 things, can you just explain a bit more exactly
21 what a quick reaction force or quick response force
22 would do in a situation like the rally.

23 A. So, obviously, everyone here is here
24 because of what occurred. So, realistically
25 speaking, you have a lone shooter in that

1 assignment, and as that lone-threat individual
2 decided to take those particular actions that
3 elevated him to a level of an imminent threat, I
4 was immediately deployed to that location to
5 mitigate that threat.

6 Q. And I guess would you characterize the QRF,
7 it typically is a response to something occurring,
8 or would you say it's also possible to kind of be a
9 bit more of a proactive or --

10 I don't want to say proactive in that
11 sense. I'm not trying to cast blame or anything.
12 It's more of like if you notice something, are you
13 authorized to go forward to try to address the
14 issue, or is it you're looking for this has become
15 an issue, now we're going to take care of it?

16 A. So, to answer that as effectively as
17 possible, if there is an immediate threat, I don't
18 need authorization to go handle that threat.
19 However, if you take Mr. Crooks, for example, if
20 he's walking around holding a weapon --

21 Q. Uh-huh.

22 A. -- immediately I can deploy the QRF. I
23 don't need to be the team lead for that. I can
24 tell my team lead, I can tell command, "This is
25 what I see, QRF is deploying," because it is

1 something that is very clear as somebody within
2 close proximity with a weapon.

3 But you take the circumstances that
4 we're in and somebody that we're being told has a
5 rangefinder --

6 Q. Uh-huh.

7 A. -- that doesn't elevate to a threat. So
8 because I am dressed as a SWAT operator, the State
9 of Pennsylvania has it listed through the court
10 systems that -- through case law that I am a use of
11 force by my mere presence.

12 How I am dressed changes me from your
13 standard traffic patrolman, the guy that will show
14 up to a domestic, the guy walking around the park
15 helping a missing child --

16 Q. Uh-huh.

17 A. -- the rules change once you put on or give
18 the appearance of a SWAT team operator. We are now
19 a use of force.

20 So, if I was wearing my standard patrol
21 uniform or anything that designates me like I am
22 today, the badge being on my hip, people can
23 clearly see I'm a law enforcement officer. I can
24 walk up to you and it's going to be classified as a
25 mere encounter.

1 Q. Uh-huh.

2 A. If there are things that are suspicious and
3 I have the ability to detain you, then that is
4 possible within state law. But the moment I give
5 the appearance of a SWAT team, and with that, you
6 know, you take two, four, six, eight, ten, twelve
7 operators, SWAT operators dress as the part --

8 Q. Uh-huh.

9 A. -- off of a side-by-side, that is now an
10 immediate use of force.

11 If those -- if those parameters are
12 violated, we're actually in violation of the way
13 the law is written, and civil action is capable of
14 being taken against our team. So we're outside the
15 bounds of our normal scope of operation.

16 Q. So, really, it is case-by-case dependent
17 when it is appropriate given your status with use
18 of force to then kind of respond?

19 A. Correct.

20 Q. Okay. And do you happen to use vehicles as
21 part of the QRF?

22 A. We did that day.

23 Q. Was it either per the Butler operational
24 plan a UTV or the SQ400?

25 A. It was the UTV.

1 Q. UTV. Can you just explain exactly what a
2 UTV is.

3 A. Yeah, basically just an all-terrain
4 vehicle.

5 Q. Okay.

6 A. A lot of people conflate the company name
7 verse what it actually is. A lot of people will
8 say like a Polaris side-by-side.

9 Q. Uh-huh.

10 A. It had a, you know, two-person seat up
11 front, or at least we had two people in the front.
12 It had like a bench seat in the back, and then like
13 a small tailgate; so it is just a side-by-side
14 vehicle. And we ended up I think during deployment
15 we put six people in that.

16 And then also as a secondary need, if
17 necessary, we had a county unmarked SUV that was
18 able to be utilized for deploying to a different
19 area.

20 Q. Great. Okay.

21 And just kind of going back quickly a
22 second to kind of the -- it seems like you were
23 kind of giving the rough rules of engagement-esque
24 kind of conversation when you were able to deploy
25 based off of case law and whatnot, and you said a

1 rangefinder wouldn't typically rise to that level
2 that might require a response. Is there a reason
3 for that?

4 And I only ask because I -- I'm very --
5 I was, you know, really not familiar with a
6 rangefinder prior, and doing more research into it,
7 I'm kind of curious, you know, what that kind of
8 brings to you.

9 A. So, I guess to kind of answer that, I'll
10 ask you a particular question: Do you understand
11 the typical reason someone would ever possess, use,
12 or purchase a rangefinder?

13 Q. Typically to measure distance.

14 A. To measure distance, whether -- a lot of
15 people use that for archery. You know, what is
16 your distance of your archery capabilities?
17 Golfing is a really big one: How far am I from the
18 tee? Those types of things.

19 So, it's a legally purchased device.
20 So, just because you own a rangefinder does not
21 mean that even in the context of a presidential
22 rally or a candidacy rally, that that in and of
23 itself is illegal or unlawful.

24 So, as a plainclothes officer, as a
25 patrolman, would it rise you to a level of

1 suspicion that you would at least want to have a
2 conversation with this person?

3 Q. Uh-huh.

4 A. In my opinion, absolutely. If you would
5 have put me in my standard Adams Township Police
6 uniform, I would have really wanted to be the
7 person that walked over there and had that
8 interaction, or if nobody else is, I would gladly
9 have volunteered myself to do it.

10 But, again, wearing what I'm wearing
11 that particular day, if I was to walk over to that
12 person, I wouldn't be by myself.

13 Q. Uh-huh.

14 A. So, at least in Pennsylvania, it's not
15 abnormal for a patrolman to operate by themselves
16 in their car. They could respond to, you know, the
17 park and have a conversation with someone out of
18 the blue.

19 Q. Yes.

20 A. A SWAT operator typically does not go
21 anywhere by themselves. So even if you take two of
22 us from QRF, we walk or drive over there and we
23 have an interaction with this person, and let's
24 just say it was someone that, I don't know, is just
25 completely fascinated with distances, they haven't

1 done anything illegal, unlawful, but I've used a
2 level of law enforcement against them just because
3 of my appearance.

4 So, again, they're over there waving
5 around a sword, I'm a -- that is a potential threat
6 to the public. I can then at least have an
7 argument for the use.

8 Q. Sure.

9 A. If you're waving around an AR in the middle
10 of a crowded area 120 yards, 130 yards from the
11 venue that a presidential candidate is going to be
12 at, an entirely different story.

13 But if this person let's just say has
14 some form of mental deficiencies, some form of
15 diagnoses or learning disability, and this person
16 is just fascinated with distances --

17 Q. Uh-huh.

18 A. -- or they wanted -- or merely that person
19 is perfectly fine, but they wanted to use a
20 rangefinder, "Hey, I can now put on my social media
21 I was 120 yards from the presidential candidate."
22 I don't know.

23 There's a lot of lawful reasons you can
24 possess and/or use a rangefinder, but we find it
25 was an abnormality or at least believed it was an

1 abnormality that day because, quite frankly, he was
2 the only person we identified with a rangefinder
3 that day.

4 Q. Great. Thank you.

5 Pivoting over to the AGR building. How
6 familiar were you with the AGR building prior to
7 the July 13th rally?

8 A. Just that it was over there.

9 Q. Just that it was there. Okay.

10 You discussed a bit about the
11 conversations with the AGR building earlier during
12 my colleague's question line. Were you aware of
13 who might be stationed in or around the AGR
14 building?

15 A. Yes.

16 Q. And who did you learn to know who would be
17 stationed there?

18 A. Two members of Butler ESU that were
19 requested to assist, and one member of Butler ESU.
20 All three of them were designated as sniper
21 observer elements.

22 Q. And in your estimation -- and you talked a
23 bit earlier about how you had kind of conducted a
24 drive-by just to get an idea of the area and kind
25 of get site preparations, and this was directly

1 north of your staging area -- how quickly did you
2 find that QRF could potentially get to the AGR if
3 you needed to get there? Because I assume you were
4 using an UTV in that instance.

5 A. Yes.

6 Q. About how long would you might estimate?

7 A. If you want my estimation of how long it
8 actually took us to get there, it was -- let's see.
9 I believe I actually have that documented.

10 Q. Great.

11 A. The time of team QRF deployment to location
12 was approximately 1 minute 52 seconds. Again,
13 that's an approximation.

14 Q. Great.

15 So kind of going over to the morning
16 July 13th, the operational briefing at the Brady
17 Paul Lodge. You mentioned that it was Sergeant
18 [REDACTED] and [REDACTED] were the two main speakers?

19 A. Yes.

20 Q. Okay. And do you remember any last-minute
21 changes to the operational plan that might have
22 been different, for example, than what you were
23 given in the PowerPoint?

24 A. Not that I can remember anything specific.
25 I know that I believe -- whether it was a change or

1 I'm just not remembering that aspect of it, I know
2 three members of the Washington Regional SWAT -- or
3 Washington SWAT team -- Washington County SWAT
4 team --

5 Q. Sure.

6 A. -- we had three members that were assigned
7 to the QRF. Again, whether that was something that
8 was preplanned prior to that, I don't know.

9 Q. Was there any justification for them being
10 assigned to the QRF? Because it's my assuming that
11 the QRF and the CAT team were -- or one of the CAT
12 teams were right next to each other behind the barn
13 or in or around the barn area. Was there any
14 discussion about potentially putting those three
15 Washington operators elsewhere along the rally
16 locations?

17 A. Again, if I remember correctly, it may be
18 that there was enough counter assault for the
19 element that Beaver was listing.

20 Q. On this other side?

21 A. Yeah. They had enough operators for that,
22 and that because they had enough of their own guys
23 that would, you know, be able to converse and be
24 fine for the day --

25 Q. Uh-huh.

1 A. -- that I believe they left them as
2 somewhat of an integrated unit, that they stayed
3 together.

4 Q. Okay.

5 A. And then I believe it was just those
6 Washington guys were just assigned to us so they
7 weren't either overloading the capabilities of what
8 the deployment capabilities would be of the counter
9 assault team, and obviously just give extra hands
10 in case there was something that was needed on the
11 counter assault side.

12 Q. And the extra bodies being assigned to the
13 QRF, that wouldn't have impeded your progress at
14 all; is that correct?

15 A. Correct. Again, we had an additional SUV
16 that would have been to our disposal.

17 Q. Okay.

18 A. Which was utilized in that capacity. So,
19 we had extra people, but we also had an extra
20 vehicle that we were capable of using.

21 Q. And you did receive -- and it looks like
22 you did -- the copy of the Butler County ESU
23 operational plan of which you have in your binder;
24 is that correct?

25 A. Yes.

1 Q. Okay. And can you just, I guess, expound a
2 little bit more about after listening to the
3 briefing, reviewing the operational plan, and
4 discussing with other members of the QRF, what was
5 your understanding of the role and responsibility
6 that day of?

7 A. For the QRF?

8 Q. Correct.

9 A. Basically, respond to anything we were
10 either deployed -- deployed to either assist with
11 or threat to mitigate, and that would have been --

12 Now, granted, our assignment was if it
13 is a lone attack or a lone threat, an individual by
14 themselves, not a coordinated attack of multiple
15 people, that's the counter assault's responsibility
16 primarily. But pretty much we would be assigned to
17 any and all potential threats or current threats in
18 order to assist.

19 Q. And you had mentioned earlier that you
20 would typically send a QRF out ahead of the CAT
21 team unless, for example, it was a multiple
22 attacker situation?

23 A. Depending on the scenario, yes.

24 Q. Depending on the scenario?

25 A. Uh-huh. Again, I guess to expound on that,

1 so -- expand on that. If it's a lone person --

2 Q. Uh-huh.

3 A. -- then, yes, typically QRF will be
4 deployed first.

5 Q. Sure.

6 A. And in case that is -- at least from my
7 understanding, in case that is a distraction. If
8 that's the precursor to draw the protection away --

9 Q. Uh-huh.

10 A. -- then you still have counter assault
11 capable of protecting the candidate or the asset.

12 Q. And I'm just going to introduce into the
13 record, it's the same PowerPoint that [REDACTED]
14 has, which is the Butler County ESU Operations Plan
15 as Exhibit A for the Minority.

16 (Minority Exhibit A was marked for
17 identification.)

18 Q. This one is for you. I might have some
19 tabs. If you actually wouldn't mind going to
20 Page 27. I believe it's the last tab.

21 So Pages 26 and 27 talk about the
22 assault on Former President Trump, as well as the
23 single active attack/event. This seems to be the
24 scenario that you're referring to on Page 27, is
25 that correct, where a QRF would be -- have the

1 primary responsibility to respond?

2 A. Correct. Yes, to a single attack or event.

3 Q. On Page 26, with the assault on Former
4 President Trump, it does mention that it seems that
5 Butler County ESU Counter Assault Team and the
6 Beaver County Counter Assault Team would kind of
7 take primary responsibility with QRF in reserve.
8 Does that seem correct to you as well?

9 A. And I believe that is for -- so I guess
10 for -- yeah, I mean, for assaults directly on the
11 candidate, and, again, I believe that might be for
12 inner perimeter aspects. And, again, that might be
13 me reading into it but --

14 Q. Sure. It's more so I'm just hoping to just
15 kind of see if there's, in your opinion, any
16 difference between the two, because in this
17 instance, for example, there was a single shooter.
18 It's just curious to figure out who is --
19 technically would they take the lead in responding
20 to a specific event, if you have any insight into
21 that? If not, that's totally fine.

22 A. So, the only thing that I would probably
23 say that at least in our operational plan, or at
24 least my understanding, is that anything that was
25 going to be listed as a directed assault -- so,

1 Page 9, counter assault team, counter assault team
2 from Butler and Beaver County counter assault teams
3 are dedicated members to respond to a coordinated
4 attack on the candidate or the location of the
5 event.

6 So, if I am to push this through to
7 contingencies that say assault on a former
8 president would be the responsibility of Butler
9 ESU, assisted by Beaver, those would be for
10 coordinated attacks. And then with this being a
11 separate contingency, would be if there is a single
12 threat or single attack, it is QRF's
13 responsibility, whether that is on or off-site.

14 So, what I would say is the
15 contingencies are expanding upon --

16 Q. Uh-huh.

17 A. -- Page 9, Page 10 is these are your
18 assignments. Your contingencies are if there is a
19 coordinated assault. So, again, it does not say
20 that, that is my inference --

21 Q. Okay.

22 A. -- of from what I would understand from the
23 operational point.

24 Q. Thank you.

25 And kind of moving over to the kind of

the leadership and response side of QRF. You talked a bit earlier about how you were able to work with your assistant team leader and your team leader and Sergeant [REDACTED] if there was an issue, kind of like an open-door policy, so to speak, you had the flexibility; is that accurate?

A. Correct. If there is -- we have -- the definition will come to me. "Compromised authority" is a term that we use that if you see something, you have the capability to handle that problem without needing to first wait for permission.

So, if I see an obvious threat, I don't need to ask for permission to engage that threat or handle that problem. If it is very -- if it's apparently obvious to me that it is a problem, I'm allowed to handle that problem without asking for permission because time is ever passing.

Q. Uh-huh.

A. And if I miss an opportunity to handle a potential problem or threat, I may never get that opportunity again. So compromised authority allows us within our command structure to handle an apparent threat or problem --

Q. Uh-huh.

1 A. -- without first needing to try to go
2 through the permission channels to ensure that I'm
3 allowed to do what I do.

4 Q. Great.

5 A. Or did, I should say. I'm sorry.

6 Q. Was there anyone on your team, either the
7 assistant team leader or team leader or Sergeant
8 [REDACTED], who you would say kind of was the predominant
9 figure in providing some of the orders during the
10 rally? You know, getting everything set and
11 working towards responding to issues?

12 A. I guess if you can rephrase that or
13 specifically --

14 Q. I guess, was there anyone that you
15 interacted with kind of from like a supervisory
16 level throughout the -- throughout the event more
17 so than others? Was there like a primary point of
18 contact that you talked with or discussed issues
19 with?

20 A. I mean, the two that I spoke to the most
21 about the problems or issues that I observed --

22 Q. Uh-huh.

23 A. -- was my Team Leader [REDACTED] and my
24 Assistant Team Leader [REDACTED].

25 Q. Okay. And if you could go to Page 10 on

1 the Exhibit A on the operational plan, just to kind
2 of follow up regarding your earlier drone question.

3 Aside from this specific operational
4 plan, were you given any other oral or written
5 instructions or training by Butler ESU,
6 Pennsylvania State Police, or the Secret Service
7 regarding a potential drone response, or is this
8 kind of the primary reference to drones that you
9 were aware of on the day of the rally?

10 A. I would say that this was the Majority of
11 it. It's -- the blanket order or designation was
12 if you see a drone --

13 Q. Uh-huh.

14 A. -- call it out where you see the drone.
15 And, again, my understanding is that someone from a
16 federal agency, Secret Service, would show up with
17 a Dronebuster, basically. It's some form of device
18 that's able to disrupt the capability of that drone
19 and, I guess, cause it to fall out of the sky
20 and --

21 Q. Would you -- if in the instance of seeing a
22 drone, would you contact your local command trailer
23 which would then contact the Secret Service, or was
24 there -- in your mind, was there a responding to --

25 Like, I guess, who would you

1 specifically contact in this instance?

2 A. My -- my direct command.

3 Q. Your direct command. Okay.

4 And you mentioned that you all were in
5 place around 11:00 in the morning the day of?

6 A. Correct.

7 Q. So, the QRF hadn't moved between the 3:45
8 to 4 p.m. ish time frame, is that accurate, from
9 the barn area?

10 A. Yeah. At 3:45/4:00, we were in place
11 dedicated. We weren't -- we didn't go anywhere.

12 Q. And you didn't see a drone at all or notice
13 one flying around the 3:50 p.m. time frame?

14 A. No.

15 Q. Okay. And did anyone else on the QRF or
16 the CAT team nearby that you overheard a
17 conversation about mention anything about drones?

18 A. Not during or after has anyone reported any
19 sighting.

20 Q. Okay. And then on Page 7 of the
21 operational plan, which just shows a location of
22 the counter assault team, the QRF team; is that
23 accurate? You were at -- you were kind of on the
24 east side, the back end of the barn behind the
25 stage?

1 A. No. I -- again, this was a -- yeah, again,
2 the general area of where we were assigned, yes.
3 But if you're looking at that image, we were on the
4 top structure. We were within that top structure.

5 Q. Okay.

6 A. So, that is I would say general placement.
7 But, no, we -- we had the UTV inside of that
8 structure.

9 Q. Uh-huh.

10 A. And then we had the rest of the vehicles
11 that were necessary for that day lined up on the
12 back side of it towards -- facing Meridian Road.
13 That would have been the east side of the building.
14 But we were on the inside of the northern structure
15 of that.

16 Q. And how many people would you estimate were
17 inside of the barn during this time?

18 A. I'm really bad at estimations, but I want
19 to say that, generally speaking, ballpark, 20.

20 Q. Ballpark, 20? Okay. Thank you.

21 A. Yes. So we had counter assault team one,
22 QRF, medical personnel throughout the day in and
23 out. We had I want to say different, I guess --
24 I'm guessing Secret Service agents come through,
25 some bomb-detection dog handlers.

1 Basically, we just made them aware we
2 had plenty of water, snacks, at least shade so in
3 case they needed to filter in and out, that they
4 could.

5 Q. Okay.

6 A. So --

7 [REDACTED]: I'm nearing my time.

8 [REDACTED]: No, no. Go ahead, go ahead.

9 Take your time.

10 [REDACTED]: Okay. Great.

11 BY [REDACTED]:

12 Q. I have two other exhibits that I will
13 introduce to kind of round out this question on.
14 So, this is Exhibit B for the Minority, which is an
15 overhead view of the Butler Farm Fairgrounds.

16 (Minority Exhibit B was marked for
17 identification.)

18 Q. So, from this area, from where you were
19 kind of in the northern -- inside of the northern
20 barn, directly north is the AGR building. You
21 mentioned a bit before during my colleague's
22 question line that you did have some concerns about
23 this positioning. Can you just talk a bit more
24 about from a quick reaction force perspective.

25 A. An overview or all my concerns?

1 Q. More so -- more so, I guess, located kind
2 of around the AGR building and kind of that
3 northern sector.

4 A. Well, one of our concerns is that it took
5 us almost two minutes to get from our location to
6 that location because we had to go around. There
7 was no immediate point of egress for our team,
8 which was concerning, but something, again, we had
9 to mitigate.

10 The northwest location from our position
11 where you can see the two cell towers or radio
12 towers, if you go directly north of that location,
13 you see a four cluster of trees or six trees,
14 somewhere between there; so -- it's kind of hard to
15 explain, but this is actually (indicating) what I
16 have later found from the administration of the AGR
17 complex, that's the admin building for them or
18 their offices, I guess.

19 Q. Uh-huh.

20 A. Not, like, the factory side. But that area
21 is actually slightly elevated.

22 Q. Uh-huh.

23 A. So, looking at it in, you know, this manner
24 (indicating), it -- everything looks flat and
25 flush.

1 Q. Sure.

2 A. But as you're standing at the QRF staging
3 location and you look west, or northwest, it's very
4 apparent that where the trees meet the ground is
5 higher than the AGR complex, and which is obviously
6 the major questions in this entire area.

7 Because it has an elevated position,
8 it's very clear and apparent that it has a direct
9 line of sight over the crowd, generally speaking,
10 and direct line of sight to the stage. It does not
11 take a tactician to know that that is probably not
12 a good thing.

13 Throughout the day, again, concerns for
14 me is that I started to notice underneath that
15 cluster of trees I pointed out --

16 Q. By the cell towers.

17 A. -- that people started to amass. So, to
18 me, that was obviously a concerning issue because
19 there was no restriction, obviously. People were
20 just walking up there.

21 As the day progressed, I started I
22 believe with like a head count of, like, 7. That
23 head count jumped to roughly 20. The head count --
24 I think my last head count was, I don't know, 47,
25 49 people, and then it was after that, trying to

1 get an accurate head count was not capable. There
2 was just too many people clustered together.

3 As I started to see people show up,
4 again, my concerns and what I became hyperfocused
5 on basically is that there's nothing over here.

6 Q. Uh-huh.

7 A. There's nothing stopping a potential issue.
8 I actually went and retrieved a set of binoculars
9 from our armored vehicle and started to just do
10 everything I could to observe I would say standard
11 things that police look for for possible threats.

12 Q. Great. And if you wouldn't mind returning
13 to the Exhibit A, the Butler County ESU operations
14 plan, Page 11, there is a series of -- there's a
15 map there which has about seven sectors that are
16 ordered in order of reports from the first going
17 down to the seventh: stage one -- I mean sector
18 one being the kind of the stage area, sector two
19 being the area where the QRF was located.

20 Did anyone order QRF to kind of monitor
21 the area behind or around the barn, or essentially
22 were you aware that you had to look around that
23 entire area and kind of keep your eyes out?

24 A. I mean, we were told there were certain
25 sectors that we may be kind of a primary aspect of

1 we need to respond somewhere.

2 Q. Uh-huh.

3 A. But, I mean, generally speaking, obviously
4 keeping an eye out for those different areas
5 surrounding our area, I mean, yes, we're supposed
6 to look around at our environment and kind of be
7 cognizant of what we're doing.

8 Q. Given, though, that you were more or less
9 inside of the barn because of the force of the --
10 the use of force issues based off of your
11 battledress uniform, et cetera, I guess, how did
12 that affect your ability to monitor, though, the
13 areas where you were stationed?

14 A. Again, I mean, we couldn't just go drive
15 around. Like, for example, where we were staged, I
16 can't just drive over to sector three.

17 Q. Uh-huh.

18 A. Again, they did not want us to just kind of
19 be out and about commingling and interacting --

20 Q. Sure.

21 A. -- being heavily visible. You know, it's
22 not like a guard patrol or something like that.

23 Q. Given that, I guess, was there anyone else
24 that QRF had anticipated to potentially also watch
25 that area since you were kind of really confined a

1 bit more to inside of the barn being out of sight
2 tactically speaking?

3 A. So, I guess maybe not within the specific
4 sectors, but just outside of them. Like, between
5 the areas of where sector one and sector two meet,
6 but just north where -- between the fence line and
7 those cell towers, there was a Sheriff's vehicle
8 that was parked there, there was a Pennsylvania
9 State Police vehicle that was parked there.

10 My understanding is outside of those
11 designated sectors, that there would be, you know,
12 uniformed personnel that would either be floating
13 or deployed as needed or --

14 Q. Uh-huh.

15 A. -- you know, whatever their posted sectors
16 were.

17 [REDACTED]: Okay. I think I'll break
18 there. Thank you.

19 [REDACTED]: Okay. Are you okay to
20 continue?

21 THE WITNESS: Yes.

22 BY [REDACTED]:

23 Q. One quick question. I think you mentioned
24 different folks were sort of floating and out of
25 the barn. You mentioned bomb-sniffing dogs?

1 A. Uh-huh.

2 Q. Who was in charge of that? Which
3 organization was that?

4 A. From my understanding, they were obviously
5 under the assignment of the U.S. Secret Service. I
6 think that's kind of a -- just minor conversations
7 with them, I think that's somewhat of standard
8 protocol. I don't know 100 percent, but that was
9 my understanding.

10 And I think they're tasked through the
11 Navy, or something like that, to some form of armed
12 services, and that is just a bomb-detection dog
13 and --

14 Q. So it is your understanding it was possibly
15 Navy personnel, but under the, I guess, direction
16 of Secret Service? Is that --

17 A. That's my understanding. So that obviously
18 they're part of the uniformed -- armed personnel.
19 I believe that's who their dog comes from and who
20 they are employed by, and then I guess tasked with
21 them for the capabilities of the dog.

22 Q. Were they in military uniform or --

23 A. No.

24 Q. -- camouflage?

25 A. No. If I remember correctly, just, you

1 know, slacks, a Polo-type deal.

2 Q. Plainclothes?

3 A. Yes.

4 [REDACTED]: Thank you.

5 THE WITNESS: No problem.

6 [REDACTED]: Thank you.

7 BY [REDACTED]:

8 Q. So, as my colleague mentioned, you know,
9 some of this stuff we're going to ask you, there's
10 going to be some overlap.

11 A. Sure.

12 Q. So just forgive us, we're just trying to
13 create the record.

14 So, I want to go back to July 13th, and
15 I think what I would like to do is go through
16 because we're -- we actually have a -- we have
17 other people coming in at 3:30, so I think what I'm
18 going to do is go through the actual Crooks event,
19 and then I'll turn it back over to my colleagues.

20 Okay?

21 A. Okay.

22 Q. So, you talked about, you know, you were --
23 that you were stationed in the barn, but you
24 obviously moved around quite a bit as the day went
25 on as people were coming in as you saw fit based on

1 your experience and wanting to be able to do your
2 job properly.

3 A. (Witness nods).

4 Q. So, I guess my first question is during the
5 course of the day, was -- was your level of
6 concern, not with respect to any specific incident
7 or potential incident, but your level of concern
8 about doing your job, did it increase as people
9 started showing up and the crowds started to build?

10 A. If I -- I guess, can you repeat that.

11 Q. Let me ask, in other words, was your -- was
12 your concern -- was your desire to be out front and
13 walking around and making sure you could actually
14 keep eyes on things, was that tied to the fact that
15 the crowds were building? Like, that was the --

16 A. Outside of our secured perimeter.

17 Q. Outside, exactly. That was going to be my
18 next -- and, specifically, it was outside of the
19 secured perimeter?

20 A. Yeah. I didn't have concern for people
21 that were -- you know, to go off of the designated
22 plan. You know, people in sector one wasn't
23 something that was concerning to me. I mean, we
24 already anticipated there was going to be several
25 thousand people there. If they're there, that

1 means they went through screening, they were
2 checked out. They were not giving me much of a
3 concern other than just kind of paying attention or
4 glancing at that.

5 But, yes, people amassing outside of the
6 secured perimeter where I don't really see any --
7 any uniformed personnel to intercept a problem,
8 yes, I -- that became somewhat apparent in my head
9 that I'm not going to just let this go. I'm not
10 just going to go sit down and hope nothing happens.
11 That's just not how my brain works.

12 So, when -- kind of just to clarify,
13 when you're saying "walking around," for me,
14 unfortunately, it was outside of that northern
15 barn, west of the barn. So, behind stage right,
16 and I pretty much stayed on that inner fence line
17 for the better part of two hours, just basically
18 trying to stay focused on the people on the outside
19 of our perimeter.

20 And, again, there's things that
21 increased my suspicion. I don't know how far you
22 want me to go because it doesn't exactly pertain to
23 Crooks.

24 Q. No, that's fine.

25 A. Okay.

1 Q. Actually, what I would like to do is
2 actually use Exhibit B to just help us orient where
3 you were, where you mentioned -- on the map where
4 you were for those two hours.

5 A. Sure.

6 Q. If you have -- I can give you a pen. If
7 you wouldn't mind just -- this is the official
8 exhibit, I guess. Let me give you this one
9 (indicating).

10 A. Okay. I can at least --

11 Q. Yeah, just approximate. If you could just
12 put a circle around where you were.

13 (Witness drawing).

14 A. It wasn't really writing very well but --

15 Q. Here. Let's try this one. Is it this
16 right here (indicating)?

17 A. Yep.

18 Q. I'll give you this pen. This will work
19 better.

20 [REDACTED]: All right. Just the witness
21 has marked Exhibit B with a circle where he just
22 testified he was deployed for about two hours
23 looking around the site.

24 Q. Okay. Can you also identify where the AGR
25 building is.

1 A. Circle the whole thing?

2 Q. Just put an "X" where it is.

3 A. (Complying).

4 Q. Great.

5 [REDACTED]: And the witness has put an
6 "X" where the AGR building is on Exhibit B.

7 Q. And you were looking outwards; correct?

8 A. Correct.

9 Q. Because you were looking outside the
10 perimeter?

11 A. I -- yes.

12 Q. Okay. So -- and those two hours were
13 roughly what period of time during the day?

14 A. Roughly a little after 4 p.m. to 6 p.m.

15 Q. Okay. 4 p.m. to 6 p.m.

16 A. Well, beyond 6 p.m. obviously for --

17 Q. Right.

18 A. -- known reasons but --

19 Q. Absolutely. But -- you can keep that
20 because I may have you mark something else.

21 A. Okay.

22 Q. So, this brings us to Crooks. Okay? So,
23 from roughly what time did you first hear about --
24 and if you have it in your notes, you can look in
25 your notes -- did you hear about a suspicious

1 person near the AGR building?

2 A. First hear of this?

3 Q. Yes.

4 A. I believe I received a -- well, I guess the
5 easy way to put it is hearing about it and --

6 Q. When I say "hear," I don't mean necessarily
7 on your ear. It could just be, you know, you were
8 informed either by text or whatever.

9 A. Yeah. I guess the easy way to put it is
10 Mr. Crooks was a person that I was attempting to
11 keep an eye on.

12 Q. Okay.

13 A. There was a few people that I was
14 attempting to monitor due to just things that were
15 abnormalities to me --

16 Q. Right.

17 A. -- based on, you know, circumstances or
18 body language. Mr. Crooks was one of them, which
19 was sometime around -- I'm in the -- sometime
20 between the 4:30/5:00 time, something like that.

21 So, again, I was monitoring a lot of the
22 area and had communications with Sniper [REDACTED]
23 inside of the AGR building. We did have a couple
24 text messages back and forth. He had sent three
25 text messages at approximately 5:15 p.m. I did not

observe those text messages for approximately 20, 30 minutes. I did not hear anything off my cell phone occur. And I actually then had a phone conversation with Sniper [REDACTED] at about 5:40 p.m.

Q. Okay. Before we get -- so, when you said that you -- that Mr. Crooks was somebody that you observed to try to keep an eye on him, was that before or after he was identified by [REDACTED] through his text messages?

A. Before.

Q. Before. So tell us about that. When did -- roughly when did you first see -- I know you didn't know who he was at the time --

A. Yeah.

Q. -- but you now know who he was. Roughly when did you first see him during that 4 to 6 p.m.?

A. I don't -- I don't have an exact time frame. It was probably sometime closer to the -- to the 5 p.m.

I first started watching people over there at like 6 after 4:00. Throughout the period of time of watching people for, you know, that approximate 80, 90 minutes, I identified about four people that were a concern; so, sometime around quarter to 5, 5:00.

1 Q. Okay. What about what you noticed with him
2 drew your attention to him?

3 A. When I first observed him, he was seated on
4 coincidentally the concrete wall that he was
5 photographed to be sitting on. He came and went
6 from that position multiple times.

7 I -- lack of a better term is I
8 identified this person as not paying attention to
9 the venue, not paying attention to anyone around
10 him. He was secluded off to himself where the
11 crowds they were -- anybody else that was there was
12 either trying to seek shade, they had maybe a lawn
13 chair with them, they are dressed in a way that
14 would basically signify some form of participation
15 in the rally.

16 A lot of them were up against the outer
17 perimeter fence line. And, again, one of these
18 isolated individuals was drawn way back to the
19 corner of the AGR building, secluded, playing on
20 the phone.

21 Q. Right.

22 A. So, to me -- well, what appeared to be
23 playing on the phone. And that was an abnormality
24 to me.

25 At one point, he went between some of

the building areas of the complex -- of the AGR complex. So with him kind of out of sight, then coming back, continued to draw my suspicion.

I observed that he was looking up at my sniper elements, or what I believed he believed was our sniper elements, because there was open windows -- well, as much as they could open -- and then, again, would kind of come and go.

And it really appeared to me that he had absolutely zero interest in anything that was happening inside the fence.

Q. Understood. And this occurred around is it 4:30, 5:00 or so?

A. Something along those lines, yeah.

Q. Okay. Did you communicate with anybody about your concern -- or I shouldn't say "your concern" -- about the fact that you identified somebody at least that you were focused on?

A. Yes. Again, along with the other subjects that I was monitoring, I did speak -- throughout that time frame, I did speak with my assistant team leader, commander of QRF, and then my team leaders -- so [REDACTED] and [REDACTED] -- were both made aware of my concerns, who I'm looking at, why I'm looking at them.

1 We also notified Trooper [REDACTED], who was
2 on the outside of that fence.

3 Q. Right.

4 A. It kind of looks like no man's land. He
5 was on the other side of that gate that we were
6 working with him. He was basically cell phone
7 communication, things like that, that he was able
8 to also kind of get people -- or basically
9 communicate with his command to try to let them
10 know that we're tracking things that we don't feel
11 comfortable with.

12 Q. Okay. And so this was being communicated
13 by you to your colleagues. Do you know what they
14 were doing with that information?

15 A. We were doing the same thing that -- we
16 were all trying to monitor to see if there was
17 something that does elevate it other than just --

18 Q. Right.

19 A. -- my interpretation of body language and
20 circumstances --

21 Q. Right.

22 A. -- that is there anything else to go off
23 of.

24 Q. Got it.

25 So based on your experience at that

1 point, there wasn't a reason to -- either for you
2 or for you to call or somebody to call in a patrol
3 officer -- to go and talk to this person. It was
4 at -- it was -- it was at a point where he was
5 someone to watch, but he had not done anything that
6 would lead you normally to say, "We need to go at
7 least talk to him and engage with this person"?

8 A. Correct. Yes. With that information,
9 prior to the text messages, then, yes. At that
10 point, it was just someone that was doing things
11 that I saw as abnormalities.

12 Q. Right. Okay.

13 So, in your experience at that point in
14 time, you did not feel a need, for example --
15 actually, let me ask you this question.

16 If you saw someone -- obviously, if
17 someone had a gun or whatever -- if someone was
18 acting very strangely like, you know, and maybe
19 like, you know -- would you have had the authority
20 or discretion to go and approach that person
21 yourself?

22 A. Again, based on what I'm dressed like that
23 day as a SWAT operator with a QRF team?

24 Q. Right.

25 A. Then, no. Based on what he was doing at

1 that period of time, I cannot deploy and interact
2 with him.

3 Q. Right.

4 A. Because it's a use of force.

5 Q. Understood. So it has to be actually
6 counter use of force, a potential use of force?

7 A. It has to be something that at least
8 elevates to give us permission to do that.

9 Q. Understood.

10 A. A mere encounter is not deemed to be a mere
11 encounter --

12 Q. Right.

13 A. -- if you're dressed how I was dressed.

14 Q. So you -- alternatively, with someone like
15 that, could you have -- you or asked someone to
16 call in State Police or the Sheriff to, "Hey, send
17 a patrol officer to go just talk to this guy"?

18 A. Yes. We could request that someone that
19 has the ability, whether it's a floater or someone
20 assigned to that area or that post, to do that.

21 Now, I guess with that information, with
22 some of the other suspicious people, those are
23 things that we -- that were requested and in some
24 capacities kind of done.

25 Q. Right.

1 A. Trooper [REDACTED] and the Sheriff that was
2 posted there, based on what I was observing and the
3 information we are giving them, they did actually
4 go to the outer perimeter fence line and tried to
5 interact with multiple different subjects that we
6 requested.

7 Q. Right.

8 A. And most of those people -- at least a
9 couple of those people just turned their back and
10 walked away. Again, we don't have anything above
11 just abnormalities, so it's not like we can detain
12 them or tackle them.

13 So, one of the individuals Trooper
14 [REDACTED] was actually able to have a minor
15 conversation with, but it was kind of dismissive,
16 or I don't want to say adversarial, but from his
17 understanding, it was very clear that none of these
18 people wanted to talk to him.

19 Mr. Crooks, unfortunately, was not one
20 of those people that was able to have a face-
21 to-face interaction. Based on some of that
22 information I was able to give Trooper [REDACTED], he
23 was actually able to get a couple plainclothes vice
24 unit officers to go over to that area and, say,
25 lack of a better term, they kind of walked in, did

1 a circle, and walked back out.

2 Again, whether they felt they had
3 anything that they could base additional
4 interactions on, I don't know. I'm -- I obviously
5 wasn't on that side of the fence.

6 Q. Understood. So -- but, again, from your
7 perspective with -- as to the person that we now
8 know as Crooks, when you saw him, saw the actions
9 he was taking, your experience was at that point
10 you certainly couldn't engage him because that
11 would be a use of force, he wasn't doing anything
12 that would arise to that level, but you also did
13 not believe at that time that it was -- it would
14 be -- it would be appropriate to, given what you
15 saw him doing, to call in or have someone else call
16 in the State Police or the Sheriff's Office or
17 somebody who was outside of the perimeter, a
18 floater, to go and engage with him? He wasn't
19 doing anything that rose to that level at that
20 point?

21 A. With that knowledge, no.

22 Q. Okay.

23 A. Until we get information of the
24 rangefinder --

25 Q. Right.

1 A. -- no, I don't believe there would have
2 been a force way to detain him.

3 Q. Okay. Understood.

4 Now, you said you occasionally lose
5 sight of him, he looked like he was going around
6 the building and then he would come back. At some
7 point you -- you did see the text messages with the
8 photos that were sent by [REDACTED]; right?

9 A. Yeah. Prior to that, I received three text
10 messages from Sniper [REDACTED] inside the building,
11 and because he's -- we had a kind of a text back
12 and forth where he was kind of observing that I was
13 watching that area --

14 Q. Right.

15 A. -- with a set of binoculars --

16 Q. Right.

17 A. -- so these text messages returned and
18 pretty much were saying, "Are you watching this guy
19 up against our building? Long hair, gray T-shirt,
20 white shorts. He has a rangefinder."

21 Q. Right.

22 A. So, obviously, as soon as I seen that
23 series of messages, I presume or know exactly who
24 he is referring to.

25 Q. Right.

1 A. Have a phone conversation with him. Part
2 of our conversation is pretty much, you see him
3 again, we need to know immediately.

4 Q. Right.

5 A. I've lost eyes on him, so you -- if he pops
6 his head back up, pretty much, you know, lack of a
7 better term, we need to know.

8 Q. Okay.

9 A. And that's where, you know, a few minutes
10 later, apparently his conversation with Sniper
11 ██████ is "Get this out over the air."

12 Q. Right. Right.

13 A. And that is where -- afterward, that's
14 where the text messages come in.

15 Q. Yeah.

16 A. Those text messages I was able to actually
17 put over the air that that is confirmed, that is
18 who I'm --

19 Q. That's who -- right.

20 A. That's the person I saw, that's the person
21 ██████ saw.

22 Q. Right. So let me just break it down just a
23 little bit for the time line.

24 A. Sure.

25 Q. So you received -- you received the text

1 messages sometime before 5:30 that day, but you
2 didn't see them because you didn't get an alert
3 until roughly a half hour later, 20 minutes/half
4 hour?

5 A. Yeah. I randomly just checked my phone and
6 saw I had messages.

7 Q. Okay. And do you know what time, roughly,
8 you saw -- you actually saw the messages?

9 A. No. Like I said, it was -- it was
10 approximately 20, 30 minutes after they were sent.

11 Q. Okay.

12 A. They were sent at 5:15.

13 Q. Okay. Got it.

14 And when did you get the text message
15 from [REDACTED] that he had a rangefinder?

16 A. Again, all three of those messages all came
17 in at 5:15.

18 Q. 5:15, okay.

19 A. And I didn't see them for 20, 30 minutes.

20 Q. Okay. Got it.

21 A. The pictures came in at 5:47 p.m.

22 Q. 5:47. Okay.

23 [REDACTED]: I'm going to mark this as
24 Exhibit 1 if that -- change our -- this is -- these
25 are the radio transcripts. Three of them.

(Majority Exhibit No. 1 was marked for identification.)

Q. I'll give this to you guys, and I'll just hover over you if you don't mind.

A. Sure.

[REDACTED]: And I'll give this to you too to mark.

Q. So you said that at roughly 5:47, you saw the text message about the range -- the rangefinder, as well as the photos. And then we have a transcript here that at 17:48, about a minute later, you radioed "10Charlie1 10Alpha12 Signal app pictures positive ID that's the guy we're talking about"; right?

A. (Witness nods).

Q. So that's what you were just talking about. At that time, you got -- you recognized him from the photos?

A. Yes.

Q. Okay. And then I'll get to these in a second.

A. Sure.

Q. And so, at that point when you -- when you said that, just tell us generally what happened next. Like, what were you doing and what did you

1 understand [REDACTED] was doing?

2 A. From my understanding, that they were
3 basically keeping eyes aware that this a person
4 that we are looking for; so, obviously, a person of
5 interest.

6 Q. Right.

7 A. And if we see him, they need to put it out
8 over the air. They need everyone to be notified.

9 Q. Got it.

10 A. My understanding at that point through
11 different radio transmissions is that it was passed
12 along from my command post to PSP and Secret
13 Service.

14 And, again, my understanding at that
15 point is that there would be other uniformed
16 personnel that would be coming over to check the
17 area --

18 Q. Right.

19 A. -- to see if they could locate him or try
20 to put a uniformed presence in the area.

21 Q. So at the time that you radioed back that
22 this is the guy, did you -- did you call in or did
23 you ask anyone on your team to call in for
24 additional support to go find him like State Police
25 or anyone like that?

1 A. No. I believe that was already handled by
2 Commander [REDACTED].

3 Q. Right.

4 A. So, once the description and the pictures
5 were put out and it was confirmed it was him, I
6 believe afterward the radio transmissions from
7 command, Commander [REDACTED], was we will be sending,
8 you know, Sheriff's Office and troopers, or
9 something along those lines; that there would be
10 other personnel coming over to handle that. It
11 would not be --

12 Q. Okay.

13 A. -- QRF.

14 Q. You understood that others were calling in
15 additional support to go and check this out?

16 A. Yeah. My assumption was that other people
17 were coming over. My understanding is people are
18 coming over to be in that area.

19 Q. Right. Right. And, of course, still at
20 that point, even with a rangefinder, this does not
21 rise to the level of something that you can go out
22 and deploy yourself to go engage with this person
23 because that would be a use of force?

24 A. Correct.

25 Q. Okay. And having a rangefinder, even

1 though it's weird off the golf course in that
2 setting, it's not -- it's not -- to your
3 understanding, it does not sort of rise to the
4 level of use of force level?

5 A. It's not enough that I could deploy a SWAT
6 team to handle.

7 Q. Right.

8 A. Again, you put me in my patrol uniform,
9 there will not be -- I would have been -- if I was
10 in my patrol standard, I would be either asking for
11 permission or attempting to go over there if I was
12 not assigned a post like QRF. I can't --

13 Q. Yeah, understood.

14 So, again, at that point, it had not
15 reached in your mind that level to justify those
16 types of actions?

17 A. Correct.

18 Q. So, once -- so you understand or believe
19 that [REDACTED] has asked people to deploy the State
20 Police, the Sheriff's Office, whomever, to deploy
21 and go find this person and get eyes on him. Do
22 you know what [REDACTED] and [REDACTED], who is the Beaver
23 County, do you know what they're doing at that
24 point?

25 A. During the operation, no, I had no idea

1 what they were --

2 Q. Okay.

3 A. What they were doing.

4 Q. Okay. And so, while this was happening,
5 were you continuing to look -- have eyes trying to
6 find him and see him, what he was doing?

7 A. Yes. Yes. I continued to -- obviously,
8 with binoculars assistance, I attempted to kind of
9 continue to sweep the area and see if I could get
10 eyes back on him.

11 Q. Did you get eyes back on him after this --
12 after these communications?

13 A. No.

14 Q. Okay. So you didn't -- you couldn't find
15 him with the binoculars? Wherever he was, you
16 couldn't find him --

17 A. No.

18 Q. -- from your angle?

19 A. And, again, subsequent information was that
20 he was north of that building complex area. He was
21 north of my position beyond where I first saw him.
22 And, again, the way that the elevations and things
23 work, I had no line of sight.

24 Q. Okay. What -- were you using Butler 4 for
25 your radio?

1 A. I believe I was ops 4 that day.

2 Q. Ops 4. Okay. It's not that important.

3 A. I believe it was.

4 Q. Actually, I'll just ask the subsequent
5 question. Did you hear at any -- I know at some
6 point you actually deployed.

7 A. I was.

8 Q. You were?

9 A. I was 4, sorry.

10 Q. That's fine.

11 I know at some point you actually
12 deployed, of course. Do you -- so, did you hear
13 over the radio at some point after -- you know,
14 while you were looking for him after these other
15 communications occurred that he had been spotted
16 and he had a rifle and he was on the roof?

17 A. Yes. So the chain of events to that is I'm
18 obviously checking the area. At this point,
19 because of what I'm seeing, the rangefinder
20 information, Team Leader [REDACTED], myself, my
21 Assistant Team Leader [REDACTED] are standing in that
22 area that I marked.

23 At one portion I start to see a lot of
24 uniformed personnel, which at one moment was a
25 little bit of a relief, and then I observed all of

1 them frantically looking up, and then one of them
2 withdraw their pistol from their holster.

3 Q. Right.

4 A. So that immediately took all of that relief
5 and completely shot that out the window.

6 Q. Right.

7 A. At that moment, I am pointing that out to
8 my Assistant Team Lead [REDACTED], and we both agree
9 we got to go.

10 Q. Right.

11 A. Obviously, if guns are coming out across
12 the fence, that definitely elevates to a level of
13 potential threat.

14 Q. Right.

15 A. Uniformed personnel are not going to pull a
16 gun unless there's a potential threat.

17 Q. Right.

18 A. So we are active running to -- QRF's
19 getting loaded to deploy. As we're deploying,
20 we're getting the same information from command is
21 that they do have a suspect, he is on the roof, he
22 does have a rifle.

23 And as we're pulling out of the barn and
24 he's giving us this information so we can deploy,
25 shots are subsequently being fired --

1 Q. Shots are fired.

2 A. -- overtop of us.

3 Q. Okay. And so, at that point, you all --
4 you deploy. While the shots are fired, are you
5 continuing to deploy?

6 A. Yes.

7 Q. So you're heading towards AGR?

8 A. Yes.

9 Q. Can you just write on that map, on I think
10 it's 1 -- B --

11 [REDACTED]: B.

12 Q. -- generally where you came from and how --
13 where you went to.

14 A. So how we got -- our travel path to get
15 over there?

16 Q. Yeah.

17 A. Just one continuous line is okay?

18 Q. That's fine.

19 A. Okay.

20 (Witness drawing.)

21 Q. Let me just take a look so I can --

22 A. Sure. That's no problem.

23 So, generally speaking, we have
24 buttonhook out of the barn.

25 Q. Yeah.

1 A. So, go north and you immediately go east.

2 Q. Yeah.

3 A. We cut through this big open field, and
4 there was a gate open down here (indicating) that
5 we identified earlier.

6 Q. Right.

7 A. So traverse this area (indicating), go down
8 Bray Paul (indicating), on Meridian (indicating),
9 and then the water tower access (indicating).

10 Q. Yeah.

11 A. Went around that area and went straight
12 into the parking lot to the loading dock
13 (indicating).

14 Q. Got it.

15 [REDACTED]: And so, just for the record,
16 the witness has written a line from the circle that
17 he previously wrote on Exhibit B showing the path
18 of travel until he gets to the AGR building, which
19 he has previously marked with an "X."

20 BY [REDACTED]:

21 Q. And you I think previously testified this
22 took roughly a minute and how long?

23 A. Approximately a minute and 52 seconds.

24 Q. 1 minute 52 seconds. Okay.

25 A. Again, my approximation.

1 Q. Right.

2 And just the best of your recollection,
3 did the -- were the shots fired as you were leaving
4 to deploy or was it -- or what point in your
5 deployment in that minute, and, I'm sorry, how many
6 seconds? 52 seconds --

7 A. Yeah.

8 Q. -- did -- again, rough estimate --

9 A. Sure.

10 Q. -- did you hear the shots fire?

11 A. Yes. I mean, to clarify, we heard the
12 actual -- it's kind of hard to describe, but most
13 people say it's like a whizzing noise of a bullet
14 going past you.

15 Q. Right.

16 A. That was very audible to us.

17 Q. Right.

18 A. So, yes, we were in the midst of deploying
19 when shots were fired.

20 Q. Right.

21 A. The -- again, what we know after the fact
22 is a slower, methodical three-round volley.

23 Q. Right.

24 A. And then the rapid five-shot volley.

25 Q. Right.

1 A. Those were the rounds that we were hearing
2 kind of in our general sphere of area.

3 Q. Right. So you were still -- you were at
4 the beginning of your deployment when you heard it?

5 A. Yes.

6 Q. Right? So you were still -- you were there
7 at the barn, effectively?

8 A. Yeah.

9 Q. And then you drove out?

10 A. Within that -- within that area, yeah.

11 Q. Got it. Okay.

12 So then when you get to the barn -- I'm
13 sorry -- when you get the AGR building, what
14 happens? What happens at that point?

15 A. QRF immediately deploys. As I see on the
16 loading dock, I see uniformed personnel. My
17 immediate thought is they already said on the roof,
18 I have everyone looking up, my immediate thought is
19 how do I get on the roof? I need some form of
20 quick access to the roof.

21 On that loading dock, I see at that
22 point it was Butler Township Officer [REDACTED], who is
23 also on our team, standing next to basically like a
24 green plastic chair and like a Rubbermaid plastic
25 shed, and I can see that that's potentially an

1 ability for me to get up on.

2 That was what they were starting to
3 climb; so that was immediately my thought is I'm
4 drawn to that. I'm not going to take the risk of
5 any of these patrolmen. My job is to handle the
6 problem.

7 So, I climbed the chair. [REDACTED]
8 assisted me onto the shed. Once I was on the shed,
9 I realized I still don't have the means to actually
10 even gain access to the roof; so I yelled for them
11 to bring me a pallet from the other side of the
12 loading dock.

13 We stacked the pallet on the shed, and
14 when I tried to kind of climb or move that, the
15 shed was kind of pulling away from the wall. So,
16 again, to my -- to my own regret is that took me
17 longer than I wanted to to get on the roof.

18 Ultimately, the other portions of the
19 QRF were able to push forward and kind of use the
20 human ladder system to hoist them up on the lower
21 recessed section of the roof, and I was able to get
22 another officer to hold the shed, and [REDACTED] was
23 able to hold the pallet, and I was able to use that
24 as a makeshift ladder.

25 Q. Right.

1 A. Once I was on the roof, you know, facing
2 the venue, or facing Crooks' location, I pushed
3 hard right to kind of take over a point of cover or
4 like an over-watch, basically, for the three
5 operators that were on that lower-rung roof. So in
6 case there's something, I can then obviously engage
7 if this person was to become an active threat
8 again.

9 Q. Right.

10 A. We communicated that I have over-watch or I
11 have cover for them, and they can push forward to
12 secure the individual and get the weapon away from
13 their possession.

14 Q. Right.

15 A. Once that was done, obviously, the rifle
16 was picked up, secured, and moved several feet
17 over.

18 Q. Were you staying in over-watch this entire
19 time or did you --

20 A. To a certain degree.

21 Q. Right.

22 A. Once there was -- once [REDACTED] was able to
23 continually hold a point of domination overtop of
24 this individual, they were able to move the rifle
25 and they were working on taking him into custody,

again, there was three of them there. I did not believe I was needed to continue to over-watch.

Obviously, I have no sector of fire because my people are in my way, I took it upon myself at that point to then do what we call a back-clear or secondary clearance.

Q. Right.

A. I cleared the roof.

Q. Right.

A. So I moved to every point that I could access individually --

Q. Right.

A. -- again, wearing the gear that I'm wearing to see is there anything I can observe, is there another person, is there any other weaponry, problems, is there people injured somewhere? I see none of that.

And then I returned back to that southern portion of the building. Some of the other people that I was identifying as performing suspicious activity or abnormalities, I guess is the best way to put it, I was actually able to see that two out of the three of them were still present on-site, and I was able to yell down off the roof to get troopers to detain them on my

1 authority.

2 Q. Right.

3 A. My understanding is they were detained and
4 some form of investigation has occurred with them,
5 at least for witness statements.

6 Q. Okay. Understood.

7 And let me just show you, this is,
8 again, Exhibit 1. There are two radio
9 transmissions. One is at 6:13, "[REDACTED] radioed,
10 'Get the armor I need a ladder.'" Do you remember
11 when in the sequence of events that you just
12 testified about that you said that?

13 A. Yeah. I'm standing on top of the green
14 shed prior to making access to the roof.

15 Q. Right.

16 A. And I still have a lot of patrol and
17 operators kind of below me. Basically saying that
18 my immediate thought is I need access to the roof,
19 and I need to ensure that the people behind me have
20 access to the roof.

21 So, I know that we keep a telescopic
22 ladder in our armed vehicle. So, obviously, if
23 this so far is presumed to be a lone attack, a lone
24 individual, then if the armored vehicle has come
25 over, I can either use the armored vehicle to get

1 into a lower section that will just drive it right
2 up to the building, or they can at least give me
3 that however many feet tall or telescopic ladder
4 is, and I know based on the weight rating and my
5 body size, I can climb that without a break.

6 Q. And then three minutes later, you radio,
7 "Standby working on taking him into custody." What
8 was going on when you said that?

9 A. I believe that was the same thing where
10 they were securing that individual's person.

11 Q. Okay. Got it. Thank you.

12 A. Or something to that effect.

13 Q. And did you know when you were on the roof
14 when the events that are -- that you just testified
15 about, did you know he -- that Crooks had actually
16 been shot by -- either by law enforcement or --

17 A. I do remember hearing I believe it was
18 [REDACTED]'s transmission that he was reporting that
19 the shooter appeared to be down.

20 Q. Right.

21 A. I don't know. I guess in our world, or at
22 least in my head, until that person is in
23 custody --

24 Q. Right.

25 A. -- they're -- I don't slow down.

1 Q. Right.

2 A. Until that person is deemed to either be
3 expired or is in our physical custody, this
4 situation is not done.

5 Q. Okay. At some point while you were on the
6 roof, did you come to know that he had either -- he
7 had expired or at least that he was so
8 incapacitated that he was no longer a threat?

9 A. It was -- well, we presumed that, you know,
10 based on our information is that, yes, he appeared
11 to be expired.

12 Q. Right.

13 A. But obviously --

14 Q. That was from your visual --

15 A. Yes.

16 Q. Right. Yeah.

17 A. We didn't see any forms of respiration.
18 Even, you know, once we were close enough, we
19 realized, okay, no respiration, he's not blinking.
20 There's a large -- there's at least a large exit
21 wound that we could -- appeared to be towards the
22 back of his neck, you know, a lot of bodily fluid
23 that had drained out; so --

24 Q. Right.

25 A. -- reasonably thinking from our training

1 and knowledge and experience that there's no --
2 there's no fixing that.

3 Q. Right.

4 A. But, again, we're not medical personnel.
5 So, later on we did actually request that a medic
6 come up so there was some form of -- someone that
7 is -- has the authority to pronounce can pronounce.

8 Q. Were you involved in the retrieval of the
9 weapon that he was using?

10 A. Yes.

11 Q. Okay. And tell us about that. Did you --
12 in other words, did you actually retrieve it
13 yourself or --

14 A. No. Because I believe this was a -- going
15 to transpire into a federal investigation.

16 Q. Right.

17 A. Knowing how my training is, I would not be
18 happy if other people just randomly decided to take
19 the liberties of my crime scene.

20 Q. Right.

21 A. I did the best I could to control taking
22 the liberties of someone else's.

23 Q. Right.

24 A. That weapon was moved from the shooter's
25 right side, far off to his left trajectory, and it

1 was not moved again until federal agencies did
2 something with it.

3 The weapon in and of itself appears to
4 be -- I can confirm I at least looked at it. I'm
5 kind of fascinated with firearms.

6 Q. Right.

7 A. Luckily in my profession, that was kind of
8 a good thing.

9 Q. Right.

10 A. But it's a standard Mil-Spec DPMS lower
11 rifle. Obviously information has come out about
12 like the type of upper and everything that was on
13 it, but it appeared to just be a free-float hand
14 guard, which would be the front section of it. No
15 real extra bells and whistles. Telescopic
16 buttstock, had a Holosun AEMS holographic or red
17 dot optic.

18 Q. Uh-huh.

19 A. 45-degree offset Picatinny rail mount iron
20 sights and 30-round maga- -- like industry standard
21 30-round magazine.

22 Q. But as for your purposes, the weapon was
23 secured, but far to his left for the federal
24 agencies to deal with it?

25 A. Uh-huh.

1 Q. Were you involved in removing the body from
2 the roof?

3 A. No.

4 [REDACTED]: Okay. I'm going to -- I'm
5 going to -- since we ran out, I'm going to hand it
6 over to the Minority then.

7 THE WITNESS: Okay.

8 [REDACTED]: Thank you.

9 BY [REDACTED]:

10 Q. All set for a break or good to continue?

11 A. No, we can. We should be fine.

12 Q. Great. My colleague has covered a bunch of
13 what we had kind of queued up on our side, but just
14 a -- just for a few points of clarity, a few other
15 questions.

16 So you -- going back to your first
17 sighting using binoculars to kind of scan the area
18 of the AGR, that was around 5:45; is that accurate?

19 A. No. First visual on him, I -- again, I --
20 I guess just to clarify, as I'm observing multiple
21 people that are just doing abnormal things to my
22 opinion, the things that made me want to pay
23 attention to them, I don't have a real dedicated
24 time frame on that.

25 Q. Sure.

1 A. I know subsequently, you know, my original
2 statement that evening when I had to give
3 information, I presumed it was between 4:30, 5:00,
4 something like that. If I -- looking at everything
5 that I -- that I'm able to perceive now, it's
6 probably beyond 4:45. Something along those lines.
7 I -- I wish I could specify more.

8 Q. Sure. Sure.

9 A. But I didn't -- I had no reason to note the
10 exact time of the first time I saw him until after
11 I was like, that was probably an important thing to
12 know.

13 Q. Uh-huh. And you received texts -- the
14 three initial text messages from the sniper,
15 [REDACTED]. That was around 5 to 5:10 time range; is
16 that correct?

17 A. Like I said, those three text messages
18 specifically came in time-stamped on my phone at
19 5:15.

20 Q. 5:15?

21 A. All three. It was three messages, but they
22 were --

23 Q. In a row?

24 A. -- all three rapid fire.

25 Q. But you didn't see them for 20 to 30

1 minutes later?

2 A. Unfortunately.

3 Q. Okay. Did you receive any messages, either
4 texts or phone calls or over ops 4, the radio
5 frequency, from the other sniper, [REDACTED], describing
6 Thomas Crooks around that time frame?

7 A. Not at that time frame of that. But,
8 again, after I had a phone conversation with Sniper
9 [REDACTED] at 5:40, I confirmed with him that I
10 observed Mr. Crooks as well looking at the second
11 floor of the AGR building, which was their
12 location, or [REDACTED]'s location.

13 I requested that he keep a lookout for
14 this male and keep me posted if he does see him
15 again. Explaining to him that if we see him, give
16 information that needs to go out.

17 At 5:42 and I believe 58 seconds, Sniper
18 [REDACTED] from Beaver ESU in the AGR building notified
19 command of Mr. Crooks over the -- over the radio.
20 So, actually gave a somewhat physical description
21 to basically say, hey, this guy has a rangefinder.

22 Q. And that's the first time you heard [REDACTED]
23 say something --

24 A. Correct.

25 Q. -- over the radio? Did you --

1 A. Well, that I can --

2 Q. That you recollect.

3 A. -- recollect about Crooks. He may have
4 done a status check throughout the day. I'm not
5 100 percent sure.

6 Q. And you're aware of the Signal -- the
7 Signal app; is that correct?

8 A. Uh-huh.

9 Q. And you use the Signal app?

10 A. We do.

11 Q. Okay. Is there a reason for that, out of
12 curiosity, versus typical text message or any other
13 messaging app?

14 A. That was an easier way for -- again, why we
15 started using it, to my knowledge, there was no
16 methodical reason.

17 Q. Sure.

18 A. But it was an easy way for us to say if we
19 need to do an entire message to the team --

20 Q. Uh-huh.

21 A. -- as opposed to having some other text
22 message thread that we have to always remember to
23 add people to and on everyone's phone chains and
24 all that stuff, that was just an easy way for us to
25 say that we can add people as they -- you know, if

1 we onboard people onto the team, we can just add
2 them to that.

3 Q. Uh-huh.

4 A. And it's one way that we can just get a
5 message out to the entire team that alerts your
6 phone as opposed to, well, I didn't check my
7 e-mail.

8 Q. And I believe it was Exhibit 2 was the
9 three messages, the three radio transmissions.

10 THE REPORTER: Exhibit 1.

11 Q. Exhibit 1, excuse me.

12 So, regarding the, you know, Signal app
13 pictures, positive ID, "that's the guy we're
14 talking about" message that you radioed, who sent
15 you that specific Signal message with the photos
16 for the positive identification, and at what time,
17 if you have a recollection?

18 A. I'll find out specifically for you here in
19 just a second. If I had to make a gut check right
20 now, it would have been, I'm thinking, from [REDACTED].

21 Yes. So, the images came through our
22 Signal application from [REDACTED], our sniper
23 team lead.

24 Q. And does it have a time stamp?

25 A. 5:47.

1 Q. 5:47. Okay.

2 And you heard -- you first heard about
3 Thomas Crooks on the roof at around what time
4 approximately would you say?

5 A. I didn't know he was on the roof. Again,
6 confirmation, I didn't know he was on the roof
7 until it came from command, and that was seconds
8 before shots fired.

9 Q. So, you -- at any time during the day, were
10 you listening in to ops 3, which was the detail?

11 A. Unfortunately not.

12 Q. Okay.

13 A. Again, we were designated to ops 4.

14 I guess to clarify that, I was
15 designated to be on ops 4, and I did not monitor
16 multiple channels.

17 Q. Is that typically standard operating
18 procedure for an event like that, you're typically
19 on your channel only, or would you scan other
20 channels?

21 A. We have the capability of scanning other
22 channels, but it can become, I would say,
23 overwhelming.

24 Q. Uh-huh.

25 A. So if other people -- like, if traffic

1 detail is having a lot of conversations with, hey,
2 blue van, or, hey, stop traffic, or, hey, do this,
3 it's going to be just a lot of noise --

4 Q. Uh-huh.

5 A. -- coming in to me that I'm now, okay, was
6 that for me, was that -- is this a suspicious car
7 I'm looking for?

8 So a lot of times they will designate
9 that we're on a channel, and that's specifically so
10 we can keep operational integrity. So, like, I
11 know -- if I hear something, I know it's important.

12 Q. So on the ops 4 radio time line that we
13 currently have, the last rough transmission was
14 around 18:08 hours, and then the next transmission
15 I believe which was with Sergeant [REDACTED] talking to
16 QRF saying "deploy" was around 18:11 hours.

17 Was there anything kind of going on
18 roughly between that period? Since there's no
19 radio chatter, were you guys discussing things as
20 you were getting ready?

21 A. Can you tell me what the radio transmission
22 was prior to Commander [REDACTED]?

23 Q. Yeah. 18 --

24 A. I can't say that it will absolutely help
25 but --

Q. I apologize. It was 18:07, that was just a response from [REDACTED] to [REDACTED]. So more or less between 18:07 hours and 18:11 hours, there was really no transmissions about what was occurring kind of on the AGR building, where you had mentioned earlier in my colleague's question line that QRF was starting that conversation, starting to get ready and deployed right as the shots were kind of going off at around 18:11. So, I guess in that time frame, I'm just trying to get a better sense of what QRF itself was doing: internal deliberations, internal preparations, you know, talking with, say, Commander [REDACTED] on a different -- different mode of communication?

A. So, I guess between those, team-wise, again, we had already been prepared for -- if we need to get deployed, we're already prepared to deploy. It's literally just putting bodies in the vehicle.

What I would perceive that was occurring between that is, again, you -- Team Leader [REDACTED], myself, Assistant Team Leader [REDACTED], again, standing in that open area between stage right, the fence, and the barn monitoring what is occurring. Our anticipation is that we will have

1 people come over, whether it's PSP or Sheriffs --
2 I'm sorry, Pennsylvania State Police or the
3 Sheriff's Department that will be coming over to
4 then assist with either looking for or intercepting
5 a suspicious individual, or the person identified
6 with the rangefinder.

7 So, obviously different facts and
8 circumstances of what actually brought the patrol
9 units over there. And, again, if you have the
10 transcript, you should know that that's Commander
11 [REDACTED] that actually put on I think it was ops 3 him
12 pretty much saying that we're looking for someone,
13 we can't find him.

14 Q. Uh-huh.

15 A. Hey, be aware for situational awareness.
16 If you see this person, we -- be mindful, and
17 that's actually what brought a lot of them to the
18 AGR complex to attempt to surround it and locate.

19 Q. And it was seeing the officers move over
20 and withdrawing the service weapon is really what
21 kind of kicked things off to start the deployment
22 right before the shots were heard?

23 A. Yeah. So before Commander [REDACTED] actually
24 got on the radio and said, "Hey, QRF you need to
25 deploy," that is something that we had observed and

I -- basically, all three of us had observed it. I pointed it out to [REDACTED], and we pretty much had the same thought. And the statements between us really wasn't like, "Hey, what do you think?" It was like, "Load up, we need to go."

Between the three of us, that's really all that was said. And then it's running back into the barn yelling, "QRF, load up. Let's go."

Q. Okay.

A. And that's where the radio transmission started where we're pretty much jumping in, again, not really a seat order, but by the time I got there, there was already -- like, most of the doors were -- pretty much already had people getting into them.

Q. Uh-huh.

A. So I jumped in the tailgate area; so, like --

Q. I see.

And looking at I believe it's Exhibit B, the overlook where you marked on the exhibit the route that the QRF vehicle took to get over to the AGR building, was that the anticipated route that you also used earlier to access the AGR building when you did your ingress/egress site visit?

1 A. The site visit for the ingress/egress was
2 all inner perimeter.

3 Q. Okay.

4 A. We drove the inner perimeter of the entire
5 structure. The entire -- basically, not the
6 entire.

7 Q. Sure.

8 A. So we didn't go out into the parking lots
9 and things like that. We looked at the internal
10 areas of we need to get somewhere. So, say there's
11 a problem with the back of the crowd, how do I get
12 there?

13 Q. Okay.

14 A. So, if there's a problem over towards CAT
15 team 2, where do I go? If there's a problem
16 towards Brady Paul, how do I get there?

17 Q. Uh-huh.

18 A. So we can kind of get a lay of the land.
19 So if there's a problem with the grandstands, where
20 other sniper elements were posted, how do we get
21 there? That was pretty much the gist of it.

22 We did an outer perimeter check just to
23 ensure, you know, prior to something going wrong,
24 okay, does everything look okay? We fixed some
25 things that weren't to our appearance okay. You

1 know, tried to just be proactive.

2 Q. Uh-huh.

3 A. But we did not physically travel over to
4 the AGR building.

5 Q. Okay.

6 A. But throughout the day, you know, different
7 things that we were doing setting up, picking
8 people up from where we were parked and designated
9 down towards Meridian, we were able to find points
10 to get down there.

11 You know, kind of the unfortunate
12 situation is I wasn't able to just cut a fence in
13 half.

14 Q. It was, I believe you mentioned earlier, a
15 chain-link fence; correct?

16 A. Correct.

17 Q. So there wouldn't have been the possibility
18 of the UTV or another vehicle potentially going
19 through that, for example? There seemed to be a
20 bit more of a direct route than kind of the
21 buttonhook that you had to take.

22 A. I'll be honest with you, at least from what
23 I have researched, it's very difficult to have a
24 vehicle directly break through a solid -- or I
25 don't want to say "a solid" -- but an inner-joined

1 chain-link fence. Generally speaking, it is an
2 entire spool of chain-link. So to have something
3 drive through it, it will come off the posts --

4 Q. Uh-huh.

5 A. -- but it's going to be a giant rubber
6 band, for lack of a better term. It's actually
7 going to elongate and it's going to create
8 counterpressure.

9 So, A, the UTV that we had access to,
10 not a chance. That won't even ram the gate. The
11 Chevy Traverse that we had access to, it's not
12 going to break down the fence. It will destroy the
13 car before that happens.

14 The gate, maybe if the lock is weak
15 enough, its a potential, or the hinges. But I know
16 that that particular fence was rammed with a brush
17 guard equipped Ford Explorer from PSP, and it still
18 didn't break anything; it just mangled it to the
19 way that people could crawl through an open fence.

20 So, realistically, efficiency, no. That
21 is a horrible barrier for efficiency of
22 operator movements.

23 Q. And was that something that you would
24 identify potentially as an issue earlier when you
25 were doing your perimeter check?

1 A. We actually identified it while we were
2 observing prior to the candidate coming onto the
3 scene, and we requested that the venue personnel
4 either produce keys or give the permission to cut
5 locks off of fences -- or off of gates -- and we
6 were pretty much told that we -- "We're not going
7 to cut the locks."

8 So obviously if we needed an immediate
9 point of egress, we did have bolt cutters. Quite
10 frankly, it would have taken just as long or longer
11 to, we'll say, defeat the lock, open the gates, go
12 to the next outer perimeter fence and do the same.

13 But no vehicle would have fit through
14 the other outer perimeter fence. The gate itself
15 was about the width of a man door. So, even if I
16 would have broke that chain or that lock in that
17 fence and opened that gate completely, it would
18 have been, okay, we would have drove over, but then
19 it still would have been the same thing.

20 It would have been a 30-, 40-yard sprint
21 under gunfire facing that potential threat. Again,
22 presumably Secret Service didn't drop him
23 completely, but we would be driving the vehicle
24 directly under an active shooting threat. We would
25 be driving straight at him, which is not exactly

1 the best tactic to do.

2 Q. And who did you request the keys for the
3 potential locked chain from?

4 A. So, when we were working with Trooper
5 [REDACTED] and were able to get some vice units and
6 stuff over there, those two guys that kind of came
7 in, again, once I had some of that information, I
8 was pretty much telling him that if you have outer
9 perimeter guys, we need them here, and we need them
10 here now.

11 So, by me giving that information, and
12 whoever Trooper [REDACTED] spoke to, it prompted a
13 response -- and I apologize the way this is going
14 to sound, but it's just to give you a good visual
15 -- a little old lady drove over in a golf cart with
16 a uniformed corporal, I think, or a sergeant, they
17 drove over to our location in a golf cart, and then
18 there was also a plainclothes trooper of some kind,
19 a uniformed corporal, and possibly just another
20 trooper. I don't know what his assignment is, so I
21 don't have a designation, but a trooper of some
22 kind.

23 They came over and pretty much was
24 giving me like, "What do you really have?" So, I
25 explained everything. Again, there were multiple

1 people that I was keeping an eye on, and that is
2 just how my brain works, but pretty much told them
3 -- because they were there at the same time that
4 the Signal message came in. So they were there at
5 about a 5:47.

6 I had an ability to talk to them
7 completely, tell them everything I had. Here's my
8 areas -- my people of concern. I need uniforms to
9 go over there and figure this out. At least talk
10 to them, at least detain somebody if it's
11 necessary, but figure these problems. This guy has
12 a rangefinder, I have eyes on the other three. The
13 guy with the rangefinder, that's the priority.
14 That's what's needed to be found.

15 After that conversation -- during that
16 conversation, that was the gentleman that was in
17 the plainclothes on that golf cart, we pretty much
18 told him, like, hey, I want this lock gone, and it
19 was pretty much to the point of kind of like, I
20 don't really think we can -- I don't think we can
21 cut the lock. And, again, I understand the back
22 and forth, we don't want to destroy the venue's
23 property for just no reason. The other side of it
24 is -- there was a point there. Sorry. That's how
25 my brain works.

1 So, obviously we can't get permission to
2 destroy the venue, but he doesn't want to give us
3 permission to just kind of cut that lock to -- if
4 his trooper needs to be removed from that post, if
5 there's something else that happens and that lock's
6 gone, that means that gate is a two-way door at
7 that point.

8 So, if we get deployed, that trooper
9 needs to be deployed as well. Let's just say we go
10 west of the venue. Then anybody else that gets
11 into no man's land has direct access to backstage.

12 Q. And was that trooper a Pennsylvania State
13 Police trooper?

14 A. Yes.

15 Q. And do you remember the name if you --

16 A. Trooper [REDACTED].

17 Q. Trooper [REDACTED]. Okay.

18 A. I don't know if I have a first name, but I
19 know his last name is [REDACTED].

20 Q. Okay.

21 BY [REDACTED]:

22 Q. Just a few follow-up questions.

23 So, to your knowledge, how many command
24 posts were there that day?

25 A. Two.

1 Q. Two.

2 A. To my -- well, if you want to include
3 medics, there may be three. Well, no, that
4 would -- we did see where the medics were at. I'm
5 sorry. I want to say there's two command posts
6 that emergency management was operating out of with
7 Secret Service and PSP, and there was others with
8 the Sheriff's Office.

9 Q. Okay. Is that normal?

10 A. I -- I want to -- I want to say -- I want
11 to say no.

12 Q. Yeah.

13 A. But I don't do this every day.

14 Q. Okay.

15 A. I don't know what the federal agencies or
16 candidate protection, what is normal to them. I
17 don't know. I wish I could tell you in
18 specificity. But, no. Do I believe it's a good
19 idea to have multiple assets outside of each
20 other's -- you know, this space (indicating)?
21 Yeah, I don't -- I don't like that. But --

22 Q. Okay.

23 A. -- it's kind of not my game. I can't -- I
24 can't dictate to Secret Service what they would
25 want us to do.

1 Q. Yeah. Understood.

2 Do you recall back in 2020 when you
3 supported the Trump rally how many command posts
4 there were?

5 A. One.

6 Q. One, okay.

7 Going back to ops 4. I understand that
8 [REDACTED] over ops 4 announces there is a suspicious
9 male with a rangefinder. At no point on ops 4 did
10 you hear that there was somebody on the roof,
11 period? Not somebody on the roof with a gun, but
12 just somebody on the roof?

13 A. Correct.

14 Q. Is that true?

15 A. Correct.

16 Q. You guys did your due diligence. You
17 showed up to that space beforehand, you did your
18 walk-arounds, you looked at the space. It sounds
19 like Officer [REDACTED], who you were in communication
20 with was there at the walk-through as you mentioned
21 earlier, articulated some concerns.

22 Day of the event, you were monitoring
23 the AGR building, many suspicious people, and I
24 guess my question is you articulated earlier that
25 just somebody with a rangefinder is not enough to

1 deploy the QRF. Had you guys been told that, after
2 all of the monitoring that you've done, that you
3 know that there's a guy with a rangefinder in that
4 area, had you been told that there was a man on the
5 roof, would that have been enough to rise to the
6 level of a threat to get you guys moving?

7 A. I guess for specifics, to get us moving?
8 Maybe to get us maybe closer in case deployment was
9 necessary. That's a possibility. But --

10 Q. And I understand what --

11 A. Well, I would -- I would probably have to
12 defer to -- that would probably be one of the
13 situations that I would probably ask command --

14 Q. Okay.

15 A. -- to find out as far as an operational
16 capacity, is it better for me to stand my post, or
17 is it feasible to use the authority of our team to
18 go deal with someone who we -- I mean, we all agree
19 should not be on the roof. Base minimum, you
20 potentially have a summary criminal trespass in our
21 state.

22 Is it abnormal? Yes. Should it --
23 should that person be there? Probably not. But
24 again, to deploy a SWAT team would mean that there
25 is some form of immediate public threat,

1 criminality, that would arise to something better
2 than I can write you a ticket for that.

3 Q. Uh-huh. So you would say, though, that
4 depending on the discretion of those in command,
5 totality of the circumstances, what you're looking
6 at, that may be enough to rise to the level where
7 they make the decision to deploy the QRF team?

8 A. Again, my -- my understanding is that you
9 would at least need -- I would at least have the --
10 I would at least want to have that discussion:
11 "Does this meet the burden of our team?"

12 Q. Okay. So, not enough for you to make an
13 independent decision?

14 A. Because, again, when you look at it at face
15 value -- let's take away all the aftermath of this.
16 Let's say this is a person that is on the roof.
17 That person is then taken into custody, and it was,
18 "I just wanted a better view."

19 If you deploy a SWAT team to someone
20 that is doing something that, I mean, we all agree
21 that has the ability of a criminal undertone, but
22 not to the level that I would typically deploy a
23 SWAT team to handle, "Hey, there's some random dude
24 on the roof of my business."

25 Q. Does the fact that it's a presidential

1 rally as opposed to a Fourth of July Parade, a
2 community Fourth of July Parade, change that
3 analysis at all in your mind?

4 A. It can kind of change that, but it also
5 depends on the Fourth of July Parade.

6 Q. Yeah.

7 A. To be honest with you, there's actually --
8 there are parades I know that my team has been
9 involved in that I pretty much have been told that
10 there is -- the reason we are there is because
11 there actually is some form of a high propensity of
12 an issue.

13 That, I would say that that is as simple
14 as a complicated question.

15 Q. Yeah.

16 A. There are some nuances to that and each
17 circumstances kind of dictate itself separately.

18 Q. Understood.

19 Was there anybody from your team that
20 drew their gun at any time?

21 A. Well, there's -- I would say specifics
22 matter to me in that, just because of the way that
23 I am trained and the way that I am built, drawing
24 my gun means that I'm removing it from a holster or
25 a position of cover, stow, or security.

1 Q. Uh-huh.

2 A. There was one of our operators that was
3 able to raise his weapon in the ability and the --
4 or the anticipation and capabilities of sighting in
5 on a threat target and discharging that weapon,
6 yes.

7 Q. Uh-huh. Okay. And was that officer able
8 to get a shot off?

9 A. He was.

10 Q. And where was he located when that
11 happened?

12 A. He was pretty much the same location I was
13 explaining in Exhibit B that we were -- all three
14 of us were staged; so --

15 Q. Right outside the barn?

16 A. Yes.

17 Q. Okay. And do you know what happened to
18 that shot?

19 A. To a certain degree outside the barn.

20 Yeah. It -- to my understanding, with
21 me having operational information from being on the
22 roof, my gut reaction is that I believe if he did
23 not hit Crooks, I kind of would be surprised, but I
24 know he at least effectually in my opinion hit the
25 weapon.

1 Q. Okay.

2 A. When I explained that this weapon system
3 has a telescopic buttstock; so, for example, if you
4 are shoulder to your weapon and you extend that
5 buttstock all the way out, there is a hole in that
6 buttstock that allows the buffer to be enveloped
7 within it.

8 The back of that buttstock had several
9 inches of damage. As I'm on the roof, I'm seeing
10 large pieces of plastic; particularly, one large
11 chunk that is the same material, same polymer, same
12 I would say rounded edge that would be from that
13 buttstock.

14 Q. Okay.

15 A. So, obviously, damage to the rifle. All of
16 those components are on the roof. It's not like it
17 was damaged prior to. And depending on the -- how
18 you look at either images or information from the
19 actual shooter, there's potential for plastic
20 fragments. That would be up to the autopsy to
21 determine whether or not those plastic fragments
22 are embedded on his face from anything else.

23 Q. And since the event on 13 July, quickly, on
24 the roof on 13 July, who was it that was able to
25 detain or put not handcuffs but --

1 A. We put zip ties on him.

2 Q. Zip ties.

3 A. Or zip cuffs, I should say. They are
4 flexible cuffs, yeah.

5 Q. Who was able to do that?

6 A. I believe the person who actually put the
7 cuffs on him may have been officer -- or Operator
8 Shaffer from the Washington County team that was
9 tasked with the QRF.

10 So, there was [REDACTED], Operator [REDACTED]
11 from our team, [REDACTED], and myself were the four
12 first people on the roof. And then Officer [REDACTED]
13 was also able to be hoisted up.

14 Q. Okay. And since 13 July, how many debriefs
15 and/or formal interviews have you done about this
16 event, including on the evening of July 13?

17 A. I should have counted those. Huh? Can
18 you -- can you restate that question so I know
19 exactly what I'm counting.

20 Q. Yes. How many --

21 A. Is it just --

22 Q. -- debriefs and how many formal interviews
23 have you been a part of?

24 A. As far as debriefs, you mean like --

25 Q. Internal.

1 A. Okay. Internal, external?

2 Q. Yeah. And you can kind of walk us through.
3 It doesn't have to be an exact number. Just a
4 general, your experience.

5 A. So the night of, I actually gave a recorded
6 interview with the Pennsylvania State Police.
7 There was two personnel from Pennsylvania State
8 Police during that statement. At the same time,
9 there was a member of the FBI.

10 That same member of the FBI I had a
11 follow-up interview with for clarification of
12 identifications and certain details with the same
13 FBI agent. And I believe he was tasked with
14 someone like a detective from the Allegheny County
15 Sheriff's Office that was with -- in the vehicle
16 with him when I spoke with him.

17 I should probably have written down
18 exactly where this other committee was from.
19 The briefing with the U.S. Senate Committee on
20 Homeland Security and Governmental Affairs. And, I
21 don't know, there was a decent amount of people
22 there on that one, kind of similar aspects.

23 I don't know what their titles -- they
24 told us their titles. I'm bad at that; so --

25 Q. Sir, you've talked to a lot of people.

1 A. Yeah. There was like 13 people. We did a
2 site walk-through with them.

3 Who else? I believe we met with members
4 of Mike Kelly's Task Force. I don't remember.

5 Q. That's good.

6 A. Yeah.

7 [REDACTED]: Yeah.

8 BY [REDACTED]:

9 Q. And then one more quick question. When you
10 were on the roof or any time before the roof, were
11 you equipped with a body-worn camera?

12 A. No.

13 Q. Okay. Was anyone else who had ascended the
14 roof with you, do you know if they were equipped
15 with body-worn cameras?

16 A. So, the four officers that went onto the
17 roof originally, none of those four operators were
18 equipped with a camera. I believe Patrolman
19 [REDACTED] came on with us --

20 Q. Uh-huh.

21 A. -- because they knew they were able to lift
22 him up there; so they helped -- they got him up
23 there. So [REDACTED] does have a body-worn camera. I
24 know that that video footage is accessible.

25 Later, there was a member of Beaver ESU

1 that came up with a medic that had a helmet-worn
2 camera. I want to say the medic might have had one
3 on her helmet. But whether that was activated or
4 not, I have no idea. I have not seen any footage
5 from that.

6 [REDACTED]: That's everything from me,
7 our side.

8 [REDACTED]: We just have some cleanup
9 questions.

10 [REDACTED]: Sure.

11 BY [REDACTED]:

12 Q. You mentioned earlier getting the messages
13 later that were sent originally. Was that because
14 you hadn't happened to look at your phone for a
15 little while, or did you notice, like, cell phone
16 service problems or delays or anything like that?

17 A. So, luckily for me, I have FirstNet; so I
18 really didn't have a problem. Even when people put
19 over the air, like, "Hey, cell service is down," I
20 really didn't have a problem with cell service that
21 I determined.

22 Q. Okay.

23 A. No. What I unfortunately attribute to not
24 being able to hear that my cell phone message alert
25 went off --

1 Q. Right.

2 A. -- is because they were playing songs like
3 introductory of the Lion King and the YMCA, and
4 because of where I was stationed, it reverberates
5 off of three buildings; so I get to hear every
6 noise three times.

7 So, yeah, I never heard my phone because
8 I was inundated with an outdated song.

9 Q. Right. And FirstNet briefly is?

10 A. FirstNet is actually a subset of AT&T that
11 is designed for I believe first responders for cell
12 tower usage. It's, from my understanding, a
13 stronger network, but it's a priority network.

14 So, because I'm part of law enforcement,
15 it will allow me to have kind of a jump-start on
16 capabilities of cell tower selection.

17 Q. Right. Right. And had you heard of or I
18 guess experienced anything -- I think some people
19 have used the term "net" or "blanket" -- some kind
20 of a throttling of cell phone service that day?
21 Are you familiar with anything like that?

22 A. Again, through my -- my service provider,
23 no, I didn't. I did not observe that. I know
24 there are members of my team that were having
25 problems.

1 I would say as the large group of people
2 amassed, a lot of times with that, there's people
3 -- even though there's two cell towers right there,
4 unfortunately, in my opinion, I think it's just an
5 overloaded cell tower.

6 Q. Right.

7 A. Strictly because people are going to be
8 video -- like live-streaming things or trying to
9 gain access to that type of stuff; so it's just an
10 overloaded cell tower.

11 Q. So your observation, it was just an
12 overloading of the circuits versus a deliberate
13 sort of blanket or net on cell phone communication?

14 A. That I also can't explain thoroughly.
15 That's outside of my knowledge.

16 Q. Right.

17 A. It could have been an overload of cell
18 tower, they could have shut down. I don't know how
19 the Secret Service works.

20 But I do know in 2020 we did have during
21 the times of the event, or close to, at that time
22 the sitting president come on-site, a lot of us
23 were experiencing cell phone issues four years ago.

24 Q. Right. But you don't know --

25 [REDACTED]: Go ahead.

1 Q. But you don't know what the cause of that
2 one was either?

3 A. Not that I would be able to swear or affirm
4 to you.

5 BY [REDACTED]:

6 Q. Just a quick question. I understand that
7 you didn't hear your cell phone go off or the
8 alert. Do you know if other members of your team
9 that you were in physical proximity to received
10 those text messages as well or just you?

11 A. Not to my knowledge. I don't believe
12 Sniper [REDACTED] texted anybody else those three
13 statements.

14 Q. Right.

15 A. I think he texted me basically because,
16 again, we -- we had -- we had communication prior
17 to where I started using binoculars, and I was,
18 again, observing everything I could to kind of get
19 a layout of where they were in approximation.

20 Q. Right.

21 A. But he had sent me pretty much just like a
22 message waving --

23 Q. Right.

24 A. -- way earlier than that. So that was
25 like, okay, he knows I'm there. He can obviously

1 see that I haven't left that area.

2 Q. Right.

3 A. So it's probably why he was texting me.

4 Q. Got it. But just to be clear, nobody on
5 the other team came -- nobody on your team in
6 physical proximity to you came to you and said,
7 "Hey, you know, he's texting us these pictures," or
8 anything like that?

9 A. Well, the pictures came a little bit later.
10 When [REDACTED] texted me that, I made sure that
11 [REDACTED] and [REDACTED] were aware, these are the
12 messages I just received from our team [REDACTED].

13 Q. Oh, no. Yeah. Let me make my question
14 more clear.

15 During that 20-, 30-minute period when
16 you didn't see or know that you had gotten these
17 texts, just for clarity, nobody in your team came
18 to you and said, "Hey, have you seen these texts
19 from [REDACTED]?" In other words --

20 A. No.

21 Q. -- I'm just trying to establish that you
22 had no reason to believe that anybody else received
23 a text from him at that time?

24 A. Correct.

25 [REDACTED]: Okay. Got it. Sorry.

BY [REDACTED] :

Q. A couple of quick follow-up or cleanup questions.

You mentioned seeing a variety of folks coming in and out. Did you notice sort of any folks from the THS, HSI agents, sort of personnel?

A. Yeah. I mean, yes, I did see a couple of people. They were wearing either insignia or plate carriers or something that said Secret Service.

Q. Sorry, THS or HSI, Homeland Security Investigations.

A. Not -- not that I would be able to confirm as of this time. I mean, that's probably something I'll go look into now but -- in case somebody asks me that question. But, no, not that I would be able to confirm at this point.

Q. No problem.

And the last question, you mentioned a Dronebuster earlier. Was that -- were you speaking generally about Dronebusters, or were you saying that there was one?

A. During our briefing when the "keep an eye out for drones," that was something that Commander [REDACTED] explained that if we see a drone, they have some form of technology that can knock them out of

the sky.

I was led to believe it is something that uses some form of disruption of radio waves, not like a net being shot out of a cannon.

Q. Kind of a kinetic sort of thing?

A. Yeah. I believe it was something that disrupts it, and it just basically makes the drone no longer receive connection; so it grounds it.

Q. Right. Right. But that's not something that you saw something, that was just something that you heard about in this briefing?

A. Yeah. And, I mean, again, you asked me at 9:30 in the morning when they bring it up, like, I'm kind of interested to see how that works. But, unfortunately, I did not have eyes on a drone that day to see how it worked; so --

[REDACTED]: Thank you.

THE WITNESS: No problem.

[REDACTED]: Thank you very much.

Do you guys have anything else?

[REDACTED]: No.

[REDACTED]: Great.

Thank you so much. We really appreciate you coming in and we appreciate your service, both in terms of your jobs that you do, they are

1 incredibly important, and also voluntarily coming
2 to testify in front of the Task Force.

3 And, you know, we do ask that you keep
4 the, you know, the questions and answer you gave
5 today confidential. Obviously, if somebody else
6 asks you questions that are similar, we're not
7 asking you to not answer those questions.

8 THE WITNESS: Yeah.

9 [REDACTED]: We're just saying this
10 conversation, please keep it confidential. But we
11 really appreciate your time, and, again, thank you
12 for coming.

13 THE WITNESS: No problem. Thank you,
14 guys.

15 Again, I'm horrible with names. If
16 there's a way I can just kind of write down your
17 guys' names, and that's just for me --

18 [REDACTED]: Sure. And we can go off the
19 record.

20 (Witness excused.)

21 (Interview concluded at 3:34
22 o'clock p.m.)
